## The Latest Hair Dressing Styles

That is, the latest styles which Philadelphia women, noted for the beautiful fashioning of their hair, will wear. We claim an exclusive little Hair Shop, ready with every possible aid to the becoming arrangement of the hair for general and evening wear, for the blonde, or brunette. Every woman wants, if she is quite normal, to look her best, and if she realizes that her hair has more than anything, perhaps, to do with her attractive appearance, she studies the problem of hairdressing carefully. Extreme fads she does not wish to follow, usually, but a soft, pretty disposal of her own tresses usually requires some foundation or addition to appear trim and pretty. The new hats really require some changes in style, and puffs and curls are the favorite devices by which an attractive and firm effect is gained. Empire styles are extremely chic, a combination of puffs and curls set off by a high comb. Another fetching fashion is a set of small, graceful puffs set high on the head, with a lustrous switch twisted, not braided, around it. Other and more elaborate ways we shall be glad to show you.

## ARCADIAN = Malleable = RANGE Non-Breakable

Materially Lessens the Labors of the Housewife

IT IS EASIER TO KEEP CLEAN

The ordinary range has always met with disfavor, owing to the amount of labor it requires to keep it clean. Unless given a hard, back-breaking blackening every day, its appearance is unattractive—making the whole kitchen look untidy. With the Arcadian Range there is no such trouble. Cumulative effort of time and money were employed to make it a veritable foe to such drudgery. Simplicity of design together with the material from which it is constructed, greatly aids in keeping it clean. The Arcadian is the "easy to keep clean" range, insuring an inviting kitchen at all times. The housewife, with it, finds her work easy of accomplishment, and does in the best manner, to which she can point with pride and pleasure.
