W. & D. DINEEN, CORNER KING AND YONGE-STREETS.

Doherty Organ Has no Equal

has again been demonstrated, this time by the Society of Science, Literature and Arts of London, Eng., who on April 10th of this year, after a thorough examination, made the following award.

REPORT ACCOMPANYING THE MEDAL.

Excess of praise is hardly possible when speaking of this new and superbly beautiful design, which is intended to meet the demand for a more expensive exterior or cabinet, together with a most superb action. This organ is of most substantial and pleasing proportions, and of a style of finish suitable for any situation. In pleasing balance of proportions, practical utility of form, richness of ornamentation and delicacy of finish, this instrument will not only compare favorably with the best but surpass all organs of any make; while for strength and purity of tone, variety of expression and freedom of action it is far in advance of anything yet produced.

SIR HENRY V. COULD, Hon. Pres. Society Science, Letters and Art, London, Eng. REV. IRWIN COATES, M.A., Hon. Sec.

This certainly shows that the Musical Bachelors and Doctors of Oxford and Cambridge Universities know something about an organ.

Warerooms: 32 KING-ST. W.

PIANOS. 100 PIANOS.

The Musical Opinion and Music Trade Review, published in London, Eng., April 1, 1887, under the heading CANADIAN MUSICAL EXHIBITS AT THE COLONIAL EXHIBITION, has the following: Referring to Piano Pianos of Messrs. Heintzman & Co., Dr. Stainer says as follows: "I must repeat that, owing to the late period at which I was called upon to make a report, all the more important instruments exhibited by this firm HAD BEEN SOLD AND REMOVED. But those remaining fully justified their high reputation. An Upright Grand, which I examined was in every respect a fine instrument; the touch was sympathetic and had a good repetition; the tone was full and rich. I also tried a specimen, style No. 9, which was equally deserving of unqualified praise."
