L. S. Shaffner lost a very valuable horse on Sunday morning. On going into his barn he found the animal lame, which on examination proved to be caused by a broken bone. How the accident occurred is a mystery, but the horse is a valuable one.

Great preparations are being made for the purpose of making Thanksgiving Day an enjoyable one. The children's Harvest Concert in connection with the Baptists is nearing completion, and the Methodists will give a Thanksgiving dinner. The former will take place on the evening preceding Thanksgiving Day, and the latter on Thanksgiving Day itself.

The little girl, with the aid of her little brother, was trying to mount a horse, when she fell, breaking both bones of one of her arms. We would call your attention to the fact that the Chesley Boatmen is in a condition jeopardizing the lives of those who are riding in it. It is a new structure, put in last spring, and was completed all but the railing, thus making it very dangerous for those riding over in the night. What is the use of having road commissioners or councilors to attend to such matters if they will not do their duty and look to the safety of the people who have to pass over the roads and bridges in their charge. Already there have been a number of narrow escapes from almost certain death, and we think it high time it was looked after.

We have mentioned, during the past fortnight, very large quantities of fruit passing through here to Bridgetown, to be stored for the home market.

The Key Bros., comprising three of our most wide-awake farmers, have harvested from a very small space, 165 bushels carrots and 200 bushels turnips. One carrot measured in length 28 inches. One turnip weighed the soil of our beautiful valley is sterile.

The most beautiful and artistic job of bookbinding and painting ever brought to our notice is on the interior of the dwelling of Mr. George W. Young. The woodwork is done in white and fawn, and all the panel mouldings are laid with gold leaf. The entire work is most faultless, done and reflects much credit on Mr. Young, who did it himself, having learned the business at Victoria, B. C.

Intellectual Life at Acadia.

Many of the readers of the Monitor are interested in education, and would doubtless be pleased to learn something of the condition of intellectual life at Acadia.

The pleasure to be able to say that there is an apparent on all sides a deep interest in the study of literature, and that the students are developing. No better evidence of this can be had than the enthusiasm manifested during the services of the very best speakers to address the students at different dates.

NEW YORK ALREADY PREPARING TO HONOR DR. FAIRBANKS.

Boston, Nov. 9.—The greatest week of the year 1894 is over and the country is still in the throes of the excitement which has been its immediate result. But it helps to keep running them over to give accounts. The great "wave" was a wave, in figures, for instance.

Of the three revolutions of the past—the democratic defeat by the whigs, led by Gen. W. H. Harrison in 1840; the revolution which finally destroyed the whig party, led by Gen. Scott, in 1852, and the almost complete annihilation of the democratic party in every Northern State last Tuesday.
