# Patchall

THE Twentieth Century Mender bids good-bye to the needle and thread. Welcomed by thousands of women and praised by men. No more dirt in your home from mending bags. PATCHALL mends grain bags, bird-canvas, and all kinds of cloth. It is a great saver for the farmer. Straw passing through small holes, winding on the rollers of the self-binding harvester breeds evil. A small piece of canvas and a little PATCHALL saves time and money. A great success in grain warehouse wherever tried. Thousands of bags are now patched by PATCHALL. Eight patches, two inches square, cost a cent. If you cannot obtain it from your hardware dealer, send 25 cents, and we will mail a can to your address prepaid. Manufactured by

**Domestic Specia., Co.,**  
Hamilton, Ont.

SEND US 15c. and we will send you post paid the best **SKATE SHARPENER** ever invented. Can be carried in tin vest pocket—no need to it—a keen razor edge without removing skate from the feet. **Good Active Airs Wanted.** They are at right moments. Please to make a little pocket money quickly. **Express to H. G. Co., Toronto, Ont.**

# TREAD POWER

We are willing to guarantee that our Tread Power will develop more power with the same elevation than any other tread power on the market. Examine the cuts in our catalogue, or, better still, go and see the Tread Power at the Farmers' Institutes Farm; notice particularly the centre track and the centre rollers. Each horse has a bearing on each side of him in contrast with other machines without this; the want of them causing the bridge to bend, bending the rods, causing friction, thus taking away power and shortening the life of the machine.

Get a long-lived machine when you buy and send for our catalogue.

**MATTHEW MOODY & SONS**  
TERREBONNE, QUE.

**WATERLOO MANUFACTURING CO., Limited**  
WATERLOO, ONT.

Extract from Annual Report for 1897

of the Consulting Chemist of the **ROYAL AGRICULTURAL SOCIETY OF ENGLAND,** published in their Journal, 31st December, 1897, page 732:

"It has been necessary to call attention to the fact that under the name of 'slag,' and sometimes even under that of 'basic slag,' have been sold refuse materials of a very different character, and having little or no manurial value. These have not been the product of the now well known 'Basic' or THOMAS process of iron or steel-making, and have contained little or no phosphoric acid such as basic phosphate has. Several instances the purchasers believed that they were buying the true basic slag. It behoves one, therefore, to be careful to stipulate for THOMAS-PHOSPHATE, and to have a guarantee of phosphoric acid contained, and of fineness of division."

We handle the only true

# Thomas-Phosphate Powder

sold in Canada; and to be sure of genuine material, see that the bags have our name and address.

# The Spramotor

Mrs. Partridge would say: 'Many fruit-growers and farmers are induced to buy cheap sprayers, for one reason and another, and they always regret it.'

Cheap sprayers are always in need of repairs, cheap sprayers are always made of iron or mostly iron, and iron sprayers are useless in copper mixtures. You would not use a cast-iron carving-knife, because it is unsuitable.

The only way to prevent this trouble is to put a stop to it before it happens, or at least before it happens again.

The **SPRAMOTORS** are the result of the best efforts of the brainiest manufacturers alive.

The **SPRAMOTORS** embody more good features than all others combined, and that is the reason of the great demand. It is not only necessary to have one good feature, but one to be in the front rank must have all the good features.

The **SPRAMOTORS** shoot mixtures stronger and even faster than any, which fact has greatly increased their sale.

The **SPRAMOTOR** will last longer than any other, and is therefore economical to buy.

The **SPRAMOTOR** is made of brass, is the result of **THREE PATENTS** and others pending, is carefully made and less liable to need repairs.

Many times more **SPRAMOTORS** are used today in Canada than all others combined, which is one of the best arguments why you should buy one and be up with the procession. Nearly every first-class store in this country carry **SPRAMOTORS** in stock.

All the first-class brewers in Canada are using the **SPRAMOTORS** for whitewashing and disinfecting work.

**SPRAMOTORS** are recognized as being the standard of the world, and they have proven it by **EVERY TEST** that a machine can be put to.

They cost from \$5.00 upward, and a catalogue will be mailed you on application.
