We have secured the Canadian agency for the sale of the justly celebrated "Cluze" Patent Thumb Kid Glove. The advantage of this make of glove fully explains itself, as it is almost impossible to tear the thumb when pulling it on, as too often happens with the cut of glove now on the market. We are now showing a full range of these goods for fall (July delivery) in Black and all new shades, at \$9.00 and \$11.50 per doz.

## Silk Department Specials for June.

## LETTER ORDER DEPARTMENT
