BRITISH DOMINION WINE.

Manufactured from the Best Canada Grapes without the use of either artificial coloring or distilled spirits in any form.

After repeated chemical analyses of the Wines made by Robert Bradford of No. 595 Parliament St., Toronto, I do not hesitate to pronounce them to be unsurpassed by any of the native Wines that have come under my observation.

Analyses show them to contain liberal amounts of the ethereal and saline elements, sugar and tannic acid etc., characteristic of true Wine and which modify materially the effects which would be produced by alcohol alone.

Retaining to a high degree the natural flavor of the grape, they serve the purpose of a pleasant table Wine as well as that of a most valuable medicinal Wine.

The following remarkable statement to which we direct special attention, is from a Tenn. farmer.

My age is 63. I suffered intensely from catarrh 10 years, dry scabs formed in nostrils, one or both sides stopped up continually, dryness and soreness of throat, hoarseness, intense headache, took cold easily, and had continual roaring, cracking, buzzing, and singing in my ears. My hearing began to fail, and for three years I was almost entirely deaf, and continually grew worse. Everything I had tried failed. In despair I commenced to use the Aerial Medication in 1888, and the effect of the first application was simply wonderful. In less than five minutes my hearing was fully restored, and has been perfect ever since, and in a few months was entirely cured of catarrh. ELI BROWN, Jacksboro, Tenn.

HEALTH AND HOUSEHOLD HINTS.

Always cut onions, turnips and carrots across the fibre.

Salt rubbed on the black spots on dishes will remove them.

Use a short handled paint brush to wash the outside of window sills.

Wood ashes very finely sifted are good for scouring knives and tinware.

Try thin slices of pork on the breast of a turkey or chicken when roasting.

To clean a sewing machine of oil and dirt, go over it with a rag wet with coal oil.

Machine oil can be removed by rubbing it with brown soap in cold water, before the whole piece is washed.

Rain water and white castile soap in a lukewarm suds are the best mixture in which to wash embroideries.

If a shirt bosom or any other article has been scorched in ironing lay it where the bright sunshine will fall directly on it.

To take out mildew: Mix soft soap with powdered starch, half as much salt, and the juice of one lemon; lay it on the part, on both sides, with a brush; let it lay on the grass day and night till the stain comes out.

An old housewife says that the toughest beef and chicken can be made tender and palatable by using a spoon of good cider vinegar in the pot in which it is boiling, or in the juice in which the same are basted when roasting. It does not injure the flavor in the least.

Some of the new contrivances for cooking eggs are convenient. First there are the pretty little bakers into which one or two eggs can be dropped, baked and served. Then there are the individual boilers, in which the eggs can be closed up tight and cooked, ready to be eaten.

Marrow toast is a cheap and appetizing dish. For a few cents the butcher will bring you a lot of marrow bones. Take the marrow out as unbroken as possible, cut it into bits and boil for just one minute in salted water, which must be boiling when the marrow is put in. Drain, place in a saucepan with salt, pepper, chopped parsley, and the juice of a lemon. Keep hot and make toast and spread the marrow on it.

Dry toast should be served directly from the toaster. When this is not practical, pile it on a heated bread plate, cover it with a napkin and put it on the hearth or in the oven. Toast is given in all slight attacks of sickness because it is so easily digested. The thorough conversion of the starch the more easily and perfectly the system will manage it, for the change of starch into dextine by the action of heat is simply doing outside of the body what takes place in it, in the ordinary course of digestion, by the action of the digestive fluids. Therefore when this is accomplished by artificial means nature is spared so much energy.

Hermits.—One cup of butter, 1 1/2 cups of brown sugar, 1 cup of chopped raisins, 3 eggs, 1 tea-spoonful soda (dissolved in three-fourths cup of milk), all kinds spice, flour enough to roll out. Cut as cookies and bake in a quick oven.

Lamb Cutlets Broiled.—Bread crumb the cutlets the same as when sauteing them eight minutes before serving them, roll them in melted butter, broil over a slow fire, turning them on both sides, take them off when done and lay them on a plate, trim with fancy frills, then dress them in a circle on a very hot dish, pouring a little clear gravy into the bottom.

What is a Cold?—In the first place we must be paradoxical, and affirm that it is not a cold at all. It is rather a heat, if I might so express myself—that is, it is a form of fever, but, of course, of a very mild type, when it is uncomplicated by other diseases. It is certainly, in the majority of instances, due to the effects of cold playing upon some portion of the body, and reacting upon the mucous membrane through the intervention of the nervous apparatus. What is called a cold, then, is in reality a fever; and, though in the majority of instances it is of such a trivial nature as to necessitate few precautions being taken during its attack, yet in some cases it runs a most acute course, and may be followed by great prostration. Even when in the premonitory symptoms of a cold are developing themselves—when, for example, what a medical man calls a rigor, or, as it is popularly designated, a shivering is felt, when we would naturally suppose that the animal temperature is below par, it is at that very moment higher than the normal, thus showing the onset of fever.

The first great requisite is absolute sincerity. Falsehood and disguise are miseries and misery-makers.—Coleridge.

Child's Play

—washing with Pearline. Everything that makes it hard work is taken away.

Everything that makes the wear and tear, too—there's no rub, rub, rubbing about it. It's absolutely safe. Remember that, if you've had your clothes eaten, frayed or ravelled by cheap imitations. Pearline is as cheap as any thing can be that is safe. It costs no more at the start than common soap—and it saves money from the minute you start with it.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline" IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, do the honest thing—send it back. 37 JAMES PVLE, New York.

TORONTO COLLEGE OF MUSIC, Ltd.

IN AFFILIATION WITH THE UNIVERSITY OF TORONTO.

PEMBROKE ST.

FIVE FREE SCHOLARSHIPS.

One year's tuition FREE in

VIOLIN, under HERR KLINGENFELD.

THE WEEK

A JOURNAL FOR MEN AND WOMEN.

Is published every Friday at 5 Jordan Street, Toronto.

THE WEEK

Is an independent weekly review of Politics, Literature, Art, and Science, with serial comment on the most important Canadian, English, and foreign events of the week. Not to read THE WEEK'S special and occasional correspondence, editorial and miscellaneous articles on prominent political and social topics is to miss some of the best things in Canadian journalism. Its contributors represent all parts of the Dominion.

THE WEEK

Has been pronounced by a leading American journal to be one of the ablest papers on the Continent. It has a good and widely distributed circulation in all the Canadian Provinces, in England, and in the United States.

THE WEEK

Has ever aimed to promote independence in public life, and honesty and integrity in our legislature. Subscription, \$3 per annum. Sample copy free on application.

THE WEEK

AND ITS ADVERTISERS

The number of copies printed of THE WEEK represents but a small portion of the readers of the journal. The Public Libraries, Clubs, and Reading Rooms of Canada all have it on their tables. It enters the homes of the intelligent and the well-to-do. It stands alone in Canada. THE WEEK has no competitors. Prominent Banks and financial houses and other high class advertisers of all kinds send their columns constantly.
