

LIST OF PLANTS COLLECTED ON THE PEEL RIVER  
IN 1906 BY MR. CHARLES CAMSELL.

*Papaver nudicaule*, L., Braine Creek.  
*Lupinus arcticus*, Wats., Stewart River.  
*Myosotis alpestris*, Koch., Bear Creek.  
*Echinosperrum deflexum*, Lehm., Bear Creek.  
*Pyrola rotundifolia*, L. var. *pumila* Hook., Beaver River.  
*Primula Mistassinica*, Michx., Beaver River.  
*Pinguicula vulgaris*, L., Beaver River.  
*Phlox Richardsonii*, Hook., Wind River.  
*Cypripedium guttatum*, Swartz., Hungry Creek.  
*Linum Lewisii*, Pursh., Wind River.  
*Dryas octopetala*, L., Beaver River.  
*Epilobium latifolium*, L., Wind River.  
*Hedysarum Mackenzii*, Richards, Wind River.  
*Potentilla fruticosa*, L., Beaver River.

## WILSON'S PHALAROPE.\*

On June 9th, 1885, a nest containing three eggs of the above bird was found on the south bank of the Grand River a half mile below Dunnville, Haldimand Co., Ontario. As the nest and eggs were strange and neither parent bird was present it was determined to leave it until the next morning and to visit it again in the hope that one or both parents would be at home. On the morning of the 10th a second visit was made when the male bird flew off the nest and was shot. When the nest was examined I was disgusted to find that two of the three eggs were hatched. The young birds were tiny bits of down, stripped and sotted with dark brown on a buff ground color. The egg was  $1\frac{1}{4}$  inch in length by  $\frac{3}{8}$  in width and very dark in color, in fact the large end was covered with two dark brown colors, while the rest of the shell was of a dark buff color spotted with dark brown.

The nest was situated on the bank of the river a few feet from its edge, near a tall tussock of marsh grass and was fairly well formed and made of a little moss and weeds such as grow in that locality. A depression seemed to have first been made in the soft marsh soil which was then lined with moss and fine grass.

The female bird was not seen. The rest of the family, as taken, are now in my collection.

G. A. MacCALLUM.

\*See The Ottawa Naturalist, Vol. XV, page 127, where this nest is credited to the buff-breasted sandpiper.—EDITOR
