į,

GENTLEMEN :--- Were I to consult my own inclination, I would not occupy any portion of the by an address, but, as the tyrant custom requires it, I must conform, and will be as concise as possible. I avail myself of the earliest opportunity which presents itself to thank you for the honor you have conferred upon me, in electing me your President, but I regret that language fails me to express the depth of my feelings. It has often been my good fortune, during my long professional career, to have been complimented in a similar manner, but never in the same degree. When I see around me so many distinguished members of accusations brought against them. this Association who would have filled this chair do justice to the office without your kind indul no committee was named at that meeting. profession were at stake, -- semper paratus !

One of the subjects that will engage the attention of this meeting is the proposed alteration of the By-Laws. The Committee appointed at the Fifth Innual Session of the Association, held at Monteal, in September, 1872, to amend the Constitution and By-Laws, reported to the Annual Meeting held at St. John, N. B., on this day twelve months past, and recommended, "that the plan

of organization of the Canadian Medical Association adopted at the conference of the medical profession, held at the city of Quebec, October, 1867, and the Code of Medical Ethics, be continned without amendment;" and further recommended, "that a Constitution and By-Laws be adopted instead of those heretofore in force." A copy of the labors of that Committee is now before you, entitled, "proposed alterations to By-Laws to be considered at the Annual Meeting at Niagara Falls Wednesday, 5th August, 1874.

Having carefully examined the proposed alterations, I am of opinion that they will be a great improvement on the present By-Laws, with some slight changes and additions.

In Ethics, for example :

It is proposed "to continue the Code of Medibrief space of time allotted to your Annual Meeting - cal Ethics without amendment," but no provision has been made in the proposed By-Laws for a permanent Committee on Ethics. Such a committee is in fact a necessity, to which, in my humble opinion all cases of presumed infraction of the Code should in the first instance be referred for report, before any public action is taken by the Association, or This would prevent the odium record made. which might attach to persons falsely charged; and would avoid the needless wounding of the sensibilities of such as were really innocent of the

So strongly was I impressed with this conviction so much better than myself, and when I look back that I gave notice of motion in 1870, and, on the and remember your-I mean our-happy choice 14th Sept., 1871, carried a motion unanimously, of the able and eloquent chairman, who presided and it was resolved, "that the Nominating Comover our deliberations during the first three years mittee be instructed to name a Permanent Comof the existence of this association with so much 'mittee on Ethics, to be composed of ten n.embers, lact, talent, and success-the Hon. C. Tupper, M. representing each province of the Dominion." P., C.B., &c.-I feel all the more my inability to The session, however, adjourned so soon after, that Ι. gence, although I will yield the palm to no man would therefore respectfully recommend that, as it for professional zeal-my maxim having ever been, is proposed to continue the Code of Ethics, a where the public interests of our noble and humane | Standing Committe on Ethics should also be added to the proposed By-Laws.

> Registration, Medical Statistics, and Public Hygiene, are all subjects which call for action with a view to legislation.

> Committees were named at the first Meeting of this Association, held on the 9th and 10th of October, 1867, at Quebec, to report on the best means of obtaining these desirable objects. The Committee of Registration, of which I had the
