

2.—The list prescribed by § 1 must be forwarded regularly twice a year, at least a fortnight before the commencement of the summer and winter services. Any modification must be notified without delay.

3.—The International Bureau draws up, from the information entered on the Forms AV1 and the other communications which it receives, a list of general information concerning the Air Mail service.

This general list, which must conform to Form AV1, is distributed to Administrations without delay.

The International Bureau is also entrusted with the preparation of maps indicating the internal and international Air Mail lines of all countries.

4.—For provisional information, a copy of list AV1, referred to at § 1, is forwarded by each Administration directly to all Administrations which request it.

5.—In addition Administrations communicate regularly to all Administrations with which they are connected by Air lines, complete time-tables of their internal and international air services at least a fortnight before the commencement of each season. In their relations with other Administrations these particulars are furnished only on demand.

CHAPTER V

Accounting Regulations

ARTICLE 15

Statistics

1.—The general accounting for the charges for air conveyance is based on statistical returns taken in the seven days which follow the 14th of June and the 14th of November in each year. The data obtained from the June statistics form the basis for the payments due for the summer service; those from the November statistics form the basis in regard to the winter service.

2.—The statistics relating to services which are not in operation during the regular statistical periods are taken after agreement between the Administrations concerned.

3.—As a temporary measure, the Administration responsible for the conveyance by air has the right to demand that the settlement of accounts shall take place quarterly or half-yearly on the basis of the gross weight of the mails or of the net weight increased by 10 per cent of articles sent *à découvert* actually conveyed during the period in question. In this case, the provisions of Articles 17, 19 and 20 hereafter, are applied to the verification of the weights and to the preparation of the accounts, it being understood that the statements AV3 and AV4 must be drawn up monthly for all the air services performed.

ARTICLE 16

Make-Up of Ordinary or Air Mails During Air Mail Statistical Periods

The provisions of Article 162 of the Detailed Regulations of the Convention are not applicable to the half-yearly statistics for calculating the charges for conveyance by air. However, during these statistical periods, the labels or addresses of mails containing Air Mail correspondence must be conspicuously marked "*Statistique-avion.*"
