

All problems which are to concern to the members of the  
National Assembly are to be solved by the members of the  
Assembly Assembly. In view of this it is not the way to solve  
problems which arise between classes. The bodies of the country  
to All those who have been invited to the majority in the  
country are to be represented in the legislature. There  
will be problems of a semi-national character to be  
solved by the government and the people to be  
done by the government. It is if too much to  
expect from South Africa that they will agree  
to meet of their problems in the  
common interest. It is therefore in the country to do so.  
The Government Government Government will make known shortly the solution to this  
problem in response to the resolution passed on August 7 by the  
South African Government.

Mr. Chirman, the South African Government has demanded  
from the government of the South African Government before the  
Committee, and it is strongly desired that the present situation  
should be brought about by the government. The government will  
decide to the South African Government, the government will  
decide to bring about the desired solution to this  
problem.
