Dear :

As you are aware, Canada actively participated in the Negotiations, under the General Agreement on Tariffs and Trade (GATT), referred to as the Tokyo Round, whose results are currently being implemented by GATT member countries, including Canada and the U.S.A. In reviewing those results, we have zeroed in on items which are benefiting from very significant tariff reductions e.g. that were 10% or higher in 1979 but are in the process of being cut by 50 to 60%. Attached is a draft article which you may wish to include in your next publicity release to your member companies which could be of special interest.

Yours truly,
