❀ SUMMER ❀ HOMES. ❀

Probably no point along the coast of Maine and New Brunswick has a more favored location than St. Andrews. The old place has been a sort of "Sleeping Beauty" of the seaside for generations. It was marked and admired long before it was dreamed of as a possible summer resort, and always has had a certain patronage of pleasure-seekers, even in times when summer excursions, trips, or vacations had little or no plan or part in the life of any class.

Its marked characteristics led to the formation of the St. Andrews Land Company, and their purchase of property in the choicest locations, with a view of securing for those desiring summer homes selected spots from every one of which panoramic views are had. Close to the water in Indian Point Park (30 feet above sea level), and scattered along the rising ridge of Barrack Hill (150 feet high), until reaching the amphitheatre of encircling hills (220 to 250 feet above tide water), stretching across the peninsula from Passamaquoddy Bay on the east to the St. Croix River on the west, are presented building sites which are adapted to meet the most diversified tastes, and can be purchased subject to reasonable and proper restrictions.

Plans of the properties may be seen at the Company's offices in Boston and St. Andrews, and correspondence relating thereto should be addressed to
