RECOVERING WRECK VICTIMS DENTISTS IDENTIFY BODIES

From Description of Work Done in Other Places—First Burial on Vancouver Island.

Victoria, B.C., Feb. 3.—A rude cross placed at the head of a new made mound on the black sands of Long Beach, where miners washed for placer gold a few years ago, marks the grave of the first victim of the Valencia to be buried on the Vancouver Island coast.

CASTORIA. The Kind You Have Always Bought Bears the Signature of

has secured the remains of his sister, Miss Laura Vanwyck. The features were not recognizable and there were no clothes to allow of identification, but this was accomplished beyond doubt by an examination made by G. A. Rosch, a local dentist, to whom description of dental work done at San Francisco was submitted.

The body of I. J. Bruer, of Minneapolis, was identified this afternoon, by his niece, Miss Minna Bruer, by the dental work done at San Francisco and was identified by the description found on his body in a memorandum book.

It is expected that other bodies washed ashore will hereafter be buried on the scene, as they are now much mutilated and decomposed.

QUEBEC SCHOOL PROBLEMS MAY PERPLEX GOVERNMENT

Premier Gouin "Corrected" and Told That One of His Cabinet Isn't With Him.

Montreal, Feb. 4.—(Special.)—Quebec Province has now two or three school questions on her hands, all of which are within her own borders, and which will probably be a good deal more troublesome than those of the Canadian Northwest.

In the first place, the details which are being worked out by the cabinet are not in the hands of the cabinet, but in the hands of the provincial secretary, and the cabinet is not in a position to discuss them.

It now remains to be seen if the Quebec government will persist in bringing down the measure, which has been pronounced objectionable by the majority of the council of public instruction.

Then the bill providing for the election of Catholic school commissioners in Montreal by the people and presented by G. Langlois, M.L.A., will also be up this week, and it is sure to provoke a spirited debate.

PRIEST GOES TO PRISON FOR RESISTING POLICE

Street Fighting Between Catholics and Antis Occurs in Many French Provinces.

Paris, Feb. 3.—The making of inventories of church property under the provisions of the church and state separation law took place in three churches to-day, but passed off without violence.

A number of the prisoners taken into custody for assaulting the police during the disturbances earlier in the week were tried to-day and were given various terms of imprisonment.

Members of the chamber of deputies will meet shortly to consider how to end the delicate situation.

Telegram from the provinces show that the spirit of resistance is still active.

At Dijon, the commissioner making the inventory was driven out by a mob of three hundred persons.

At Dijon, the commissioner was forced to knock out a panel of the main door of the church of Notre-Dame in order to gain entrance.

A police judge to-day sentenced to prison several persons who took part in Friday's disturbances, among them a priest.

Rayonne, Commissioner Touzet was wounded in the abdomen with a hatchet while making an inventory at the Cathedral of St. Andre.

South York Conservatives. Notwithstanding the cold temperature of the room the annual meeting of the South York Conservatives, west of Yonge-street, for the election of officers to-night, was well attended.

Many present were of the opinion that the government did not act wisely in re-appointing the Reformers as justices of the peace over the heads of good Conservatives, since such conduct would be a reflection on the wisdom of the government.

President Edwards drew attention to the necessity of calling members frequently together to keep up an interest in the work of the organization.

After such splendid victories as had been experienced in South and West York, the state of lethargy was likely to prevail and the system of organization should always be kept up.

The officers elected are: President, John Bayless; first vice-president, John A. Buchanan; second vice-president, John Burns; secretary-treasurer, John H. Heaton.

George Syme, Junior, took up the celery question. He suggested a great many ideas for the cultivation of celery, but the blight which was caused by the soil. The best kind of soil for the plant was a sandy loam.

The rotting blight was caused by insects. It could be stopped in the first stages by mixing a bushel of lime, a pound of Paris green and a pound and a half of Arsenic and spreading it around the bed.

The rhubarb situation was taken up by Thomas Dilworth of Weston. In response to the growing of the plants in greenhouses under the benches, he said that he deemed it advisable to board up all but five or six inches at the top in order to shut out the light.

When the plants were put out they would stand two or three pullings. If grown in total darkness the roots would weaken after one pulling.

Just enough truth in it, however, to make an offer such as this of to-morrow emphatically pointed.
