

Do nothing after fullness.

BRONCHITIS, COUGHS, CONSUMPTION, DIPHTHERIA,

And all Pulmonary Diseases Cured by Radway's Sarsaparillian
Resolvent.

Few persons but are troubled, more or less, with difficulty of raising Phlegm, a thick humor or matter, deposited from the blood, that obstructs the air-passages and glands of the Bronchiae, etc. The accumulation of this matter leads to Ulceration, Tubercles and Consumption, and the patient suffers great distress until it is removed. One teaspoonful of the Resolvent will loosen the Phlegm and enable the patient to expectorate with ease. Every person troubled with Cough, Bronchitis, Catarrh, Tightness of the Chest, Phlegm, Inflammation of the Lungs, Congestion, etc., should take a teaspoonful of the Sarsaparillian at once, and bathe the chest with Radway's Ready Relief. If the Cough is constant, take the Resolvent regularly—three or four times a day—or whenever a fit of spasmodic cough seizes you.

It secures a good appetite, makes sound and healthy flesh and fibre, gives strength to the weak and repairs the waste with healthy material. Let not the Consumptive neglect this warning, nor reject the hope held out. Exclusive direct remedies, that act only on the lungs, will not cure; they may smooth and soften the path to the grave, but never will they restore the patient to health.

See pages 60 and 61, "False and True."

Consumption, Night Sweats and Hoarseness Cured.

SAVANNAH, GA., May 31, 1880.

DR. RADWAY & Co.—Dear Sirs: In the year 1867 I was for six or eight months in bad health from various causes. I thought several times I had consumption if I had let it run on longer. I could taste blood every time that I coughed, and I tried all the cough syrups I could hear of, and I had the doctors to mix me up several remedies, but none of them did any good. Every night I had night sweats, with a pain in my breast. I got one bottle of your Resolvent, and I tell you the difference it made in me, it is no use for me to try to write it. I am most ready to say it cured me, but my blood was in a bad condition, and I took several of them since that time. I asked a friend, "what are you whispering about?" He said: "I have not spoken a loud word in two weeks." I told him to get one bottle of Radway's Resolvent and take about six or eight times a day about one teaspoonful at a time, just enough to keep the glands of the throat wet, and a dessert spoonful on going to bed. It made him talk aloud in one day. It is no use for me to try to explain the virtue of your medicine. About two weeks ago I bought six bottles. I am now taking it. I can sleep good and I feel all right. I always take it in the spring of the year to keep my blood right. So I will come to a close.

Respectfully yours,

JAMES S. FOY,

Savannah, Ga.

BRONCHITIS, or CLERGYMAN'S SORE THROAT

Is cured with GREAT CERTAINTY with Radway's Resolvent. It seems to act by shifting the disease, as it were, to the surface, throwing out sometimes pimples, little boils, etc.

Diphtheria, Influenza, Hoarseness, Croup, Pleurisy, Sore Throat,
Congestion of the Lungs, Cured in a few Hours.

Reader, if suddenly seized, or if suffering with either of the above frequently fatal maladies, do as follows, and you will be at once relieved from the distressing symptoms that either of these diseases inflict, and in fifteen minutes free from further trouble.

DIPHTHERIA.

Preventive measures are the best in all cases. The moment you feel a dryness in the Bronchiae or glands of the throat, with soreness, apply the Ready Relief, and bind a flannel saturated with Relief around the throat—take six of Radway's Pills; do this, and no further trouble will follow. If seized with it, and the membrane has become thickened, with all the accompanying symptoms of Suffocation, etc., rub the throat and chest freely; also, apply the Ready Relief clear, by means of a sponge fastened on a stick, to the inflamed glands and tonsils; give the Resolvent in small doses of half a teaspoonful every half

Liquids replete more easily than solids.

The flesh of a wild creature is easier to digest than that of a tame one.

They have fierce fevers who have sordes grown about their teeth.
