It is a fact that cannot be disputed. There is no such variety and display, no such cacellence and style, anywhere else in Cannada as may be seen in our Dress Goods Department. Every desirable Dress Need has been anticipated. The world's leading markets have been searched by our experts for the goods we want. Buying direct from the best makers, for cash and with the facilities we alone command, gives us unequalled advantages for selling — advantages. Fashionable dressers and women of taste appreciate this fact and every day are doing much to add to the supremany we have gained and maintained for so many years.

Mr. Tesla's object is to create as strong a current as possible and to transmit it as high up in the atmosphere as possible. By means of an apparatus he has invented, Mr. Tesla is able to produce an electrical pressure of two million volts and over. One may get a fair idea of the invention by imagining two aerial shafts, one situated, say, at Niagara Falls, the other at Toronto. On the top of the former is one of Mr. Tesla's transformers or oscillators, by means of which

Generally ill-health in a woman is due to disorders or derangements of the delicate and important feminine organs which are the cradle of the race. No woman who suffers in this way can retain her good looks or her attractiveness. The daily burden of torturing, dragging pains that she carries, will soon make her a physical wreck, and eventually either kill her or drive her to insanity. Any woman may restore and retain her health and strength in a womanly way by the use of Dr. Pierce's Favorite Prescription. It cures absolutely and completely the weakness and diseases peculiar to her sex. It does away with the necessity for the obnoxious "examinations" and "local treatments" insisted upon by nearly all physicians, and enables her to treat herself in the privacy of her home. It is the invention of Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Any woman may consult him by letter free of charge. All correspondence sacredly confidential.

I have taken four bottles of the 'Favorite Prescription,' one bottle of the 'Golden Medical Discovery' and three bottles of the 'Pleasant Pellets,' These medicines have cured me. I feel as well as I ever did. Seven of the best doctors in the land treated my case, but gave me no relief."
