How Our Ontario Stocks Have Advanced in Price During the Past Few Weeks.

rapidly on the Bullion and Sirdar mines in neighborhood. It will be interestof Manager Rogers, of the Bullion Mining Company, owner of the property. He has ordered a compressor plant and all accessories, which are expected in a short time. In the meantime the work of sinking and of exploration will be done by hand drilling. When the machinery is in place the shaft will be crowded to the deepest levels contemplated, at least 500 feet, with all possible speed, when a mill will be pro-

possible speed, when a mill will be procured.

By the way, it is interesting to note how Ontario mining stocks have recently advanced in price on the local and other exchanges. Olive sold at 75c a few weeks ago. The present price is 93c bid and 98c asked. Golden Star was selling around 40c about four weeks ago. It is now selling at around 72c. Sabaskong was selling at 50c a month ago, and now it is 75c. hammond Reef was at 35c a month ago. Now it is around 44c. Sentinel has advanced from 40c to 16c. No Mikado shares are obtainable, as they are all held in England by the parent company. If the Sultana were a stock company the shares would ogelling high up in the dollars, but it is a wivate concern. Toronto and Western sold at \$1.10 in February. Now holders ask \$2 and upwards, with buyers at from \$1.25 to February. Now holders ask vals, with buyers at from \$1.25 to

Albert E. McMauus, secretary of the Star Mining Co., is in town and is red at the Rossin. He has nothing regarding the mine, asserting that ere on legal business.

Big Three to the Front. gratifying news to the share...is understood that the mine will ber by Dominion Day.

s the Fort Steele, B.C., Prospector: lie the district (East Kootenay) with and we will give the world gold, sk-copper and lead in return." East-enay is the district now being opened to the Crow's Nest Pass Railway.

Opening Michipicoton Mines.

News from Michipicoton this winter continues to be encouraging to those interested in the district. A Michipicoton city correspondent of The "Soo" Star says that the Lake Wawa Gold Mining and Milling Co. are working the mine commonly known as Mackie's Point. They are following a ledge of quartz which goes down at an angle of about 20 degrees, and purpose to drive a cross-cut at the 200-foot level to catch other veins coming down from the top of the hill. Mr. James Mackie and Paddy Lynn sank a shaft 13 feet on top of this hill last winter and got quite a lot of free gold. Nice showings of free gold are got every day where they are working now. They are in 38 feet.

Mr. B. R. Gordon has finished work on the McKinnon property, from which some very nice ore has been taken. This claim is two claims west of the Enniskillen, but appears to be a copper proposition.

The Jubilee has been shut down until navigation opens, when they can get in machinery. The shaft is down 105 feet, and Opening Michipicoton Mines.

appears to be a copper proposition.

The Jubilee has been shut down until mavigation opens, when they can get in machinery. The shaft is down not feet, and achievery. The shaft is down not feet, and the end of a 6-foot circuit it assayed \$20 to the ton.

The Cora has made another rich, strike. The shaft is down about 23 feet, and nice showings of free gold can be got anywhere in the quartz at the bottom. The rich is fine feet at the present depth. There is 100 tons of milling ore on the dump at present, and from any part free gold can be panned.

Mr. Vansyeles' claim, Two Hearts, is avery promising prospect. He has found to opper also.

Hert Blackington's claim is proving up richly. The vein is about six feet wide and nice showings of free gold are found occasionally, withough it ail pans well. He also gets mative copper and copper pyrites.

Mr. Lewis, his partner, is in here now the Jubice.

Harry Sayers has made another rich find hear the Diamond Jubilec, which carries heavy ballast of vegy rich samples.

Harry March has just finished is a limited to the Jubice.

FREE GOLD MINES

coming from higher up the mountain. They occasionally strike free gold in stringers, but as they are drifting through waste rock it is seldom they find gold.

Ranson's men are down on their vein about twenty feet and get some nice looking ore that pans well. They also get a little copper and some galena. They also drove a tunnel into the mountain to tap the vein, but as the rock was very hard they abandoned it and sunk in the vein.

The Quigley-Brown claim is looking very weil and they occasionally strike nice shows of free gold.

Mr. Aedy's claim is showing up well. They have not struck free gold, but their ore is very rich in iron and copper pyrites which carries a considerable quantity of Measure I. December 2012.

A Big Order for Mining Machinery

quartz and showed up some very fine specimens of gold. They are in six feet on the tunnel they are driving in to catch another vein. They have five men at work.

Mining in Hastings County, Ont.

From Marmora Herald.

A regular shipment of gold buillon weighing over fitteen pounds was made by the Cordova Exploration Company of Belmont Gold Mine on Monday.

The Canadian Goldfields of Deloro made their bi-monthly shipment of buillion on Monday. They sent off a large handsome brick. Both mines ship through Carscaller's bank.

There are 100 men working at Belmont gold mine at present, and seventy at Deloro.

A representative of The Herald made a visit to the mines of Malone on Monday. A little east of Malone station twelve men are busy taking out iron ore from the Old Dufferin mine. Three shafts are being sunk jost to the west of the old cut. Twenty tons per day is being shipped to Hamilton.

The Gawley property was next visited.

Engineer Edgecombe of the Okanagan Free Gold Mines telegraphed yesterday from Wenatchee, Washington, that the 10-Engineer Edgecombe of the Okanagan Free Gold Mines telegraphed yesterday from Wenatchee, Washington, that the 10-stamp mill had arrived there, and that arrangements had been made for its transportation up the Columbia and Okanagan Rivers to a point some 20 miles from the properties of the company. From thence it will be transported on wagons to the proposed mill site.

Above property is being worked day and night. The machinery, including a 10-stamp mill, cyanide plant and sawmill, is on the way to the mines. June 1 is the date set for the first clean-up.

Strachan Messrs. Currie & Kiteley, in their dally review on mining shares, say: The principal interest in mining shares to-day centred around Evening Star and Minnehaha. The latter stock sold up to 30½c, and closed with that figure bid. There is very little of this stock on the market. A week ago we advised our clients to buy this stock, when it was selling around 23c. Some are now making a good profit. This stock is really worth 50c, considering the amount of development work done on the property and the financial position of the Minnehaha treasury, and those who buy now will not regret it. Rathmullen is active around ic and Sc. Victory-Triumph is also active. The market is stronger than at any time during the past two weeks, and those who Cox, 9 Toronto St.

The WIARTON is located between the properties of the famous Carlboo Company and the Waterloo, which is fast developing into a phenomenal property. The Carlboo ledge passes through the entire length of the WIARTON and into the Waterloo ground. The property consists of about 43 acres, is CROWN GRANTED, and is owned by the CAMP McKINNEY DEVELOPMENT COMPANY, a British Columbia corporation, with a capital of 600,000 shares of \$1 each. The treasury stock consists of 200,000 shares, which will be treated as a reserve. The owners of the property take 200,000 shares as part payment for the property; the other 200,000 shares will be sold from time to time, and out of the proceeds \$10,000 in cash will be placed in the treasury of the company and spent upon the property before any of the treasury stock will be offered for sale.
