PROF. MONTGOMERY TALKS.

What the President of Minnehaha Co. Said in an Interview at Vancouver

AFTER A VISIT TO THE MINE.

It is Stated in Toronto That Another New Strike Has Been Made on the Property.

The Vancouver Daily World of Aug. 23 has the following statement from Prof. Montgomery of Toronto, president of the Minnehaha, who is out in the west:

"The property, consisting of seven claims, has been worked for nearly two years. It contains three well defined quartz veins, on one of which a shaft of 190 feet has been sunk vertically and two crosscuts made. Forty-one feet down a fault occurred, the ledge being there five feet in width. Eighteen feet of cross-cut from the first level again met it and 200 feet of drifting disclosed perfect walls of a true fissure vein bearing high-grade ore. A second vein, eight feet wide, has been recently traced for 500 feet and exploring work is now in progress. The third ledge though traced for 100 feet has not been prospected. An 80-horse power boiler and 5-drill compressor plant are being installed under Engineer Coakley of Rossland, while Foreman Harry Shields, of English and Colorado experience, is pushing on the mining operations. The Minnehaha has now several hundred tons on the dump running from $50 to $100 in value, good ore on the 100-foot level, and lots of low grade whose value cannot be averaged until a mill arrives and stamping and concentrating get under way."

Regarding other Camp McKinney mines, Prof. Montgomery remarked that the Sailor has bright prospects. A large property, it contains several ledges, in one at least of which ore of good character and paying value is found and that increasing with the depth. Cariboo, too, is very highly spoken of by him, and the professor thinks that Camp McKinney is only beginning to be prospected and developed.

Another New Strike.

It was stated in Toronto yesterday that a telegram from Camp McKinney announced a new strike of much value on the Minnehaha property.

The Bullion, No. 2.

Reports from the property of the above company, adjoining the Mikado, dated 25th August, have just been received at the Toronto office, 37 Youge-street, showing that on two parallel veins shafts have been sunk to a depth of 70 feet on each vein with continued good results. Assays had just been made from the bottom of the shaft on the contact vein at that depth, and the sample taken as representing the average of the quartz assayed $59, while the samples outside the quartz, including the granite and trap on both sides of the vein proper taken to represent an average of the rest of the ore in the shaft outside of the quartz assayed $10 per ton.

The mill run recently made from this property yielded a value of $17 per ton, and as the result of that mill run the organization of the Bullion No. 2 Mining Co. has been proceeded with under an agreement with the original Bullion Company, by which the continued development of the property is guaranteed, and provision for sufficient capital for that purpose is made irrespective of the sale of treasury stock.

The company is organized with a capital of one million shares of $1 par value each, of which 400,000 are treasury stock. The Bullion No. 2 Company have a compressor plant sufficient to operate on both of the veins now being worked and also have the necessary hoists and a complete plant sufficient for operating economically, and as the Mikado workings have proved the contact vein right up to the boundary line of the Bullion property, and both the veins now being worked have been proved by diamond drill to a depth of over 160 feet, showing values at that depth of over $15 per ton, and a width of 30 feet in contact vein, it seems now beyond doubt that this property will turn out to be a good paying mine.

The officers of the Bullion No. 2 Mining Company are as follows: Sir Richard Cartwright, president; D. C. Cameron, manager of the Rat Portage Lumber Company, vice-president; John Moetz, London, England, 2nd vice-president; R. Rogers, Rat Portage, secretary. The Toronto directors are Walter Macdonald and R. K. Sproule.

The Hattie Belle, Gold, Copper and Nickel Co. of Parry Sound, Limited.

Sunderland, Aug. 30.—Work is steadily progressing on these properties, cross-cutting the vein on the Lafex at 65-foot level showing vein 20 feet wide in heavily mineralized ore. Apply for further information to J. A. McIlwain & Co., 94 Victoria-street, Toronto; John Sutherland, Esq., Ottawa; James Baxter, Esq., St. Mary's; James B. Mitchell, Esq., Waterloo, or to U. S. Yerex, secretary, Sunderland. The stock is selling freely at 25c. Send in your orders.

The Empire Mining Co. of Manitou, Limited.

The first general meeting of the shareholders of this company was held in the Manning Arcade Building on Tuesday, there being a large representation of the issued shares present. The report of Engineer Alex. Roy was submitted and discussed and general satisfaction expressed as to the present condition and future prospects of the properties. Plans were outlined for a continuance of the development work begun in July, and the engineer was empowered to increase the working staff to 25 hands, making three shifts working continuously throughout the 24 hours.

The following Board of Directors was elected: President, John Hodgins, barrister, Ottawa, Ont.; vice-president, Dr. Anthony Ochs, physician, Respeler, Ont.; directors, Charles M. Daly, U. S. Consul, Guelph, Ont.; W. J. Finlay, Esq., Mgr. S. F. Pulp Co., Sturgeon Falls; H. H. Beck, Esq., managing director Manitoba Assurance Co., Winnipeg, Man.; James H. Hallett, Esq., druggist, Toronto, Ont.; R. A. McLelland, Esq., banker, Brockville, Ont.; S. S. Merrick, Esq., grain merchant, Carleton Place; Dr. J. A. Mills, dentist, Toronto, Ont.; secretary-treasurer, John Sutherland, Esq., Trust Building, Ottawa, Ont.

An issue of 50,000 shares of treasury stock was decided upon, the same to be allotted in order of application to the secretary, Mr. John Sutherland, Ottawa, or to Mr. Thomas McLaughlin, Board of Trade Building, Toronto, from whom full particulars regarding the properties and the company may be obtained on request.

Yesterday's Transactions.

The advance in Big Three was the feature of the mining exchanges yesterday. It sold on the Toronto at 22 and on the Standard at 22½. In Montreal nearly 20,000 shares of the stock changed hands at 19, 19¼ and 18¾, closing at 18½ bid. The closing bid in the local exchanges was 19.

The mining share market was only fairly active. Golden Star went down again, selling in the afternoon as low as 42½ and closing at 42½ bid on the Toronto Exchange and 44½ on the Standard. A rumor that there had been a fire at the mine, and some of the machinery destroyed, is said to have caused the decline.

Minnehaha sold at 16, Cariboo Hydraulic at 149 and Rambler Cariboo at 41, Superior at 20 and Rathmullen at 8. Smuggler is the owest-priced stock on the market. It sold at 1 yesterday.

TALKED OVER ANNUITIES

The Committee of the Methodist Church Kept Busy Yesterday —Those Present.

The Superannuation Committee of the Methodist Church met yesterday at the board rooms. Dr. Carman, general superintendent, presided.

Those present were: Revs. Dr. Griffin, W. Kettlewell, Mount Forest; Dr. Chambers, LL.D., Dr. Langford, Owen Sound; Dr. Hannon, Chatham; Dr. Hunter, Cookcook, Que.; T. N. Campbell, Campbellford; and Drs. J. B. Wilmott and S. P. Ford, Norway.

A special committee was appointed to investigate applications from the Revs. Thos. Boyd and J. P. Bell for a change in standing in reference to years of service.

There was considerable discussion on the question of the Rev. J. B. Cutler, continuing as a superannuate. His annuity had been discontinued at a previous meeting of the board, but in view of new information it was decided to re-continue it; the legality of this action was questioned by the Revs. Kettlewell and Campbell.

A number of special requests for allowances outside the regular annuity were dealt with.

Permission was given the treasurers to dispose of property in Winnipeg and Toronto, held by the board.

The representatives of the Bay of Quinte Conference presented a resolution asking that the salaries of the office be curtailed, but it was shown that they were as low as could reasonably be expected.

Messrs. J. Barnett and F. Byrne were reappointed as auditors.

A statement of the receipts and expenditures was presented and adopted.

A large number of Hamiltonians came down on the Modjeska.

The sinking of the cribwork for the new wharves at the foot of Bay-stret was commenced yesterday.

The steamers Argyle, Arundel and North King commenced a daily service yesterday between Toronto and Charlotte.

Accident to a Beef Train.

The axle of a C.P.R. fast beef train broke yesterday morning between Milton and Campbellville, and derailed 14 cars. Traffic was delayed, as a result, for several hours. General Superintendent Leonard and Superintendent Williams were soon on the scene.

MARKET REPORT.

I have to report a slight weakening in prices due to various causes. BIG THREE, which I dealt in at 22½ and 22 during the morning, was offered during the afternoon at 20c. THIS, I UNDERSTAND IS DUE TO A BEAR MOVEMENT AGAINST THE STOCK, ORIGINATING IN THIS CITY. My advice to holders is not to let go at present prices. The mine is turning out much better than I expected. MONTREALERS are interested in these shares, and it would not surprise me to see them selling at 25c a little later on. GOLDEN STAR was slightly "off color." Besides Big Three, I dealt in odd lots of GOLD HILLS, WHITE BEAR and RAMBLER CARIBOO.

REPUBLIC STOCKS

These are a little quiet at the moment of writing. LONE PINE CONSOLIDATED is selling out west at low figures, and all that is being offered should be taken up. REPUBLIC is a trifle easier. MOUNTAIN LION the same. A quiet, healthy litterest is being taken in HILLSIDE CONSOLIDATED, and I am disposing of stock all the time. PRINCESS MAUD is strong, and BLACK TAIL is held firm at 20c.
