The second day's recruiting for the new Canadian Mounted corps was marked by as much, or even more enthusiasm than on the opening day. Those who were told morning were there bright and early, but most of them found that this was only a polite way of refusing their application, as very few of these were called yesterday. The total number of those sworn in so far is 31, and of this number 23 have seen active service in South Africa. These Men Will Go.

It is with pleasure I give you my testimony as to the curative powers of Powley's Liquified Ozone. Two years ago I was laid up nearly two months, and since February last I have been very bad. I saw your Ozone advertised and I pro

I attribute my recovery entirely to the use of Ozone and gladly recommend it to all sufferers from rheumatism.

(Signed) Jos. Coron, 45 St. Antoine St., Montreal, P. Q. When an excess of uric acid is in the blood it is deposited in the form of crystals in the joints of the extremities, muscles and kidneys. In the kidneys it produces inflammation which is noticed by lame back and other symptoms of kidney disease. In the joints, muscles and nerves these crystals cause intense pain, very severe during certain atmospheric conditions. That is rheuma-

It dissolves these crystals of uric acid, cleans out the kidneys so they perform their work properly and rids the blood of all poisons.
