"BOBS" TELLS CANADIANS TO TRAIN FROM BOYHOOD FOR COUNTRY'S DEFENCE

Only Way to Ensure National Security—Dwells on Advantages of Good Rifle Shooting and Playing All Games on Square.

OTTAWA, Aug. 5.—(Special).—Lord Roberts received a large number of book hands with one hundred South African veterans at Rideau Hall this afternoon.

Incidentally, he made the only speech delivered by him since his arrival in Canada, during the course of which he took occasion to thank the Canadian people for the kindly welcome that he extended to him.

His speech in part was as follows: "It is with deep regret and disappointment that I have given up my proposed visit to Toronto, that great centre of thinking and active interest in imperial affairs."

"I believe me, it is not unnecessary to say this. Nations have often forgotten this need in times of great material prosperity. If we look back on history, and history is our surest guide, we shall find that the downfall of all great nations from Phoenicia to the Netherlands has been about the same—falling in this essential duty. Flourishing and prosperous as these nations were, they fell an easy prey to those who coveted their riches, because they neglected to take ordinary precautions and refused to undergo personal sacrifices that were needed to ensure the security of their valuable possessions."

"In my judgment it is absolutely essential, even at the present day, for the safety and well-being of the nation, that the whole male population should be prepared to take their share in its defence in times of danger."

"The training should, I think, commence with boys and be systematically carried out between the ages of ten and eighteen. I am desirous to learn from Sir Frederick Borden, minister of militia, that a beginning of such a system has already been made in all other provinces, for I am convinced that the results of such training, habits of order, obedience and punctuality will be of great use to them in all occupations of civil life."

"I believe myself that the advantages of such a training would be so manifest that public opinion would soon reach the point where it would demand that all able-bodied men attaining the age of eighteen should complete their training and so fit themselves to take a part in the defence of the country should their services ever be needed."

"This would be an easy matter and interfere very little with their civil avocations, for the training that had undergone in boyhood discipline and self-control that would be thus inculcated would be of inestimable value."

"There is another point about which I would like to say a word. I notice that your young people take great interest in athletic sports. I am a believer in their value, if carried out in true spirit and moderation, but I hope your young men will always remember that in athletics as in all other relations of life they must play the game in the true sense of the word. They must play for the sake of the game, preferring to lose it fairly rather than to win it unfairly. They must be ready not to grudge their opponents every fair advantage and thus be prepared to lose with a good temper and win without boasting."

ALL EFFORTS NOW TO PREVENT DISEASE

Systematic and Stringent Regulations in Force in Refugees' Camps—Pillagers Are Lashed.

FERNIE, B.C., Aug. 5.—(Special).—Festilence is now feared in Fernie and Cranbrook, for there is an entire lack of sufficient sanitation in both places.

Especially in Cranbrook is the situation very serious, for two thousand women and children refugees are crowded very closely, and the weather is exceedingly hot.

Two new cases of smallpox developed in Fernie last night. The greatest care is being taken to isolate them. Passengers on all trains coming into Fernie are warned not to get off, but every train brings some people who wish to see the ruins.

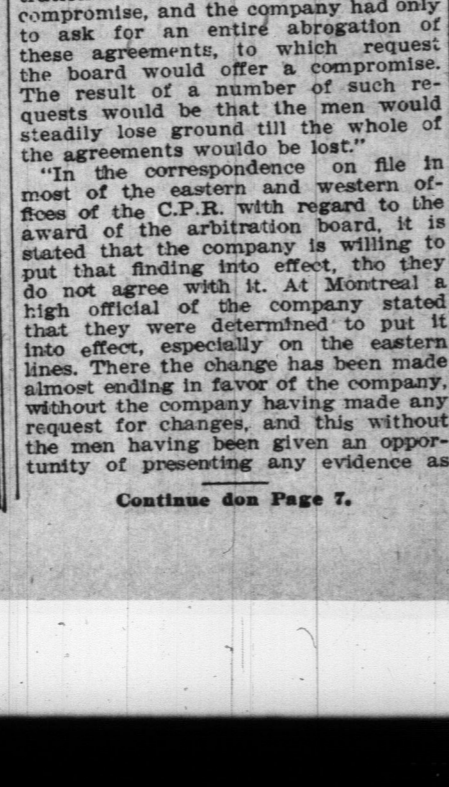

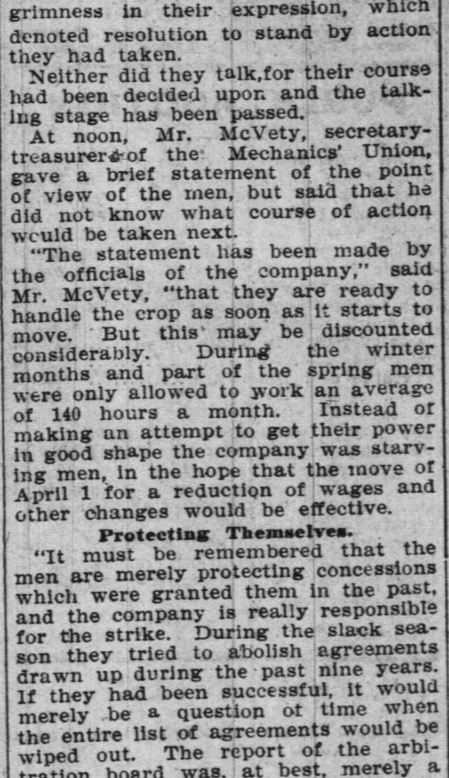

Mechanics are not wanted, for there will be nothing to do for weeks until the insurance is adjusted. Very little looking is going on, for there is hardly anything to loot, but several men have been caught rifling trunks. They were immediately stripped, lashed on their bare back and compelled to leave town immediately. One Japanese was sentenced to six months in jail.

Women are carefully guarded, and a lynching would follow any attempt to molest them. The first funerals were held yesterday, when several unidentified bodies were placed in one grave. The remains of another victim were found at the outskirts of the town to-day. The bones fell apart, but were gathered in a bucket and carried to the cemetery.

Systematic Work. NELSON, B.C., Aug. 5.—The prospects in Crow's Nest Pass are brightening a little, but much work remains to be done before a fresh start can be made at Fernie. Contributions and offerings of assistance continue to come in from every quarter. The relief organization at Cranbrook, headed by Mayor Fink, is doing splendid systematic work, and all offers of help or enquiries should be directed there and not to Fernie.

The sanitary and general hygienic conditions at Cranbrook have been improved by Dr. King, M.L.A., Dr. Green, Dr. Mercer and Dr. Coppell. Patrols of special constables are in charge of the camps, taking special care that the most stringent measures are carried out. There is not one case of sickness amongst the refugees, and all offers of help or enquiries should be directed there and not to Fernie.

1500 Children in Camp. There are some 1500 children, of from a day old to two years, and these are being fed with fresh milk and other food to which many of them appear to have been utter strangers. Many of them are now clothed comfortably and their parents are fully prepared with blankets and bedding in the tents, while those in the public buildings are provided with spring beds. There have been some 13 births during the past two days, and the little people are doing excellently.

Three Canadians who will figure prominently in the great strike of Canadian Pacific machinists, inaugurated yesterday, are Sir Thomas Shaughnessy, president of the C.P.R. (in the centre); J. W. Leonard, C.P.R. general manager, who is said to have "generated" the preparations for the clash, and Hon. Rodolphe Lemieux, minister of labor, whose conciliation act staved off the trouble for a time and who will likely endeavor to again bring the conflicting parties together without delay.

"If the railways of Canada are to be of any service to the people, it would appear to be necessary for the government to take over and operate them."

TORONTO GIRL FATALLY HURT

While on her way to Toronto to see her father, Denis H. Lehane, 320 West Wellington, Irene Lehane was struck and fatally injured by a breaking fender of the Muskoka Navigation Co's steamer Kenoyah at the Muskoka Wharf at 7.40 last night.

ZEPPELIN'S SHIP DESTROYED BY FIRE

Disaster Caps Wonderful Voyage of Great Balloon—Benzine Upset By Storm Ignited.

STUTTGART, Aug. 5.—During a storm to-day the Zeppelin airship broke away from its moorings, took fire and disappeared in the air.

The Zeppelin airship had just completed the most remarkable voyage in the history of aerial navigation. It was the first time that a Zeppelin airship had exploded at Botheningen and was a total wreck crashed like a thunderbolt over the festive preparations for a reception for the famous aeronaut at Friedrichshafen.

NEW COIN ISSUE NOT UNLIKELY EVENT

Finance Department Do Not Deny That Such an Intention is on the Books.

OTTAWA, Aug. 5.—(Special).—The officials of the finance department, when asked if there was any truth in the report that the department has under consideration new designs for Canadian coins, declined to say anything on the subject.
