THURSDAY MORNING, APRIL 7, 1910.

AMATEURS OR PROFESSIONALS.

Toronto is at present governed on the lodge model. You begin as outside auditor and get to be marshal. Then you have a turn as chaplain, and get on as deputy financial secretary. After that you may be treasurer if you are a solid man, or secretary if you are a worker. Then one session they elect you to the vice-chair and the year after next you are wearing the jewel of a past chief.

In the city, when you have gone thru some of the ward associations you apply to the proud position of school trustee. The next step is to be alderman. It takes longer than going thru the chairs, but it works just the same. By and by, if the evening papers cannot malign you out of existence, and the ward pulp holds good, you may think about being one of the board of control. After that it is a question of the survival of the fittest whether you may not one day be mayor of the city. Subsequently, and by recognized stages you go to the legislature, and even to the Ottawa pow-wow.

Toronto is out-growing this method of choosing men to do business. Some people do not think the city is big enough yet, or that its affairs are badly enough managed to stir the people up to a determination to have the city business done as well as it might be done.

Controller Ward is going to see how many business voters there are in the city next December, he says, providing the council will allow him to have it done. We believe if the case was fairly put to the people by all the newspapers and we fully realize the importance of unanimity among our contemporaries, there would be no difficulty in having government by commission established inside a year.

With the men that could be had under such a system, Toronto would be the best governed city on the continent, and it would be the most desirable city to live in. Property would be worth two to four times as much, and the tax bill would be cut down materially. Everybody would be proud to live in the capital of Ontario. And the effect of such a business example on other provincial cities would be vastly beneficial. Toronto has nothing to boast of in this respect at present. Business men declare there is only one ultimate alternative.

COMMUNATION RATES.

Some years ago, it is said, a certain resident in Brampton found himself in a position to control a large amount of freight business. He undertook to use this advantage to prevail upon the railway companies to withdraw the commutation rates in force at the time between Brampton and Toronto. The influence of the departmental stores was then only beginning to press severely on local business centres, while the comparatively recent movement from the centre of the city to the suburbs had not begun. A class of tickets was then in use upon all railways which enabled certain members of a family to travel upon one ticket, and it is stated that a brokerage business existed in these tickets for the purpose of loaning them to anyone who cared to pass under an assumed name. These tickets have long since been discontinued by the railways, and in their place a non-transferable 55-trip ticket is issued, which must be exhausted within one month. It is clear that no one who is not traveling practically daily could take advantage of such a ticket, so that the element of possible abuse of the privilege is eliminated. At the same time it is quite evident that the giving or withholding of these tickets from suburban places within a reasonable distance of the city may mean a great deal to the prosperity of any particular place. The principle that should be applied is that which the city in its application has asked for, namely, a radius prescribed by the railway board. The board should take into consideration all the circumstances in fixing such a radius, and might no doubt make exceptions within or even without the radius; but the idea of a radius is manifestly the only fair principle to apply.

ST-CLAIR AVENUE WIDENING.

There is not the slightest excuse for the delay about settling the widening of St. Clair-avenue. No improvement in the city is more needed, not even the Bloor-street viaduct. It can only be done now, before the buildings are erected that are being delayed by the lack of decision on the part of the city authorities. A year hence the improvement will be only possible at enormous expense. Now a reasonable arrangement can be come to, and the property owners must be moderate in their views. This is a point where the will of a strong man is needed to

put important city business thru without delay.

Little Eva and Topsy are saying things about each other.

Sporting men are now betting on whether the betting bill will go thru.

Andrew Carnegie's friends are said to be anxious lest he die before he gives all his money away.

They are having the greatest difficulty at Ottawa in keeping Mr. R. L. Borden from reforming the Conservative party.

The Daily Mail Year Book states that Rudyard Kipling had the degree of LL.D. conferred upon him by McGill University, Toronto! Thus do our great imperial authorities disseminate knowledge of the colonies.

Dr. Doyen has discovered a fluid which he calls mycolysine. He does not mean that you should call it his cologne. It acts by decoupling the activity of the phagocytes by the use of phagocytosis. It also acts without the assistance of a dictionary.

The ugly hair-pads worn by some women are now discovered to be as unhealthy and uncleanly as they are unsightly. Ottawa nurses have received instructions not to wear them, and self-respecting women will not need to hear further.

STILL AT IT.

"Special correspondence" of The Toronto News from Ottawa says:

The reorganization of the Conservative party in the house of commons is no easy task. Mr. Monk has misrepresented Quebec and demanded of his leader concessions that would ruin the party prospects in the other provinces. The issues raised in the litigation in which Mr. Foster unfortunately has become involved impair his influence as the chief Conservative lieutenant. This is recognized by the more progressive members of the party. He is much broken in health, and quite aside from the present political crisis he will not soon, if ever, be able to resume his former activity either in or out of parliament.

The reactionary Conservative members are recalcitrant. They do not view the spring house cleaning with favor, for it upsets the ancient order of favor and dried procedure, de-thrones the god of things as they are, and bids to relegate the storied past to the reserve list. The progressives feel that this relegation must take place, and they will not be reached by the younger men who reach the fighting line, and the Mr. Borden may have the benefit of their presence in his immediate entourage. Mr. Foster is by no means without sympathy. Friends who have visited his sick room say that he has not lost his courage. He is a sick man, and it is believed, a poor man. His presence as a stump speaker and his former effectiveness in parliamentary debate are not forgotten. I am told that he meditates coming down to the house some day soon for the purpose of receiving an organized "ovation" from the Conservatives. A hearty reception is due to a broken leader, and should such be given him, it will signify his reinstatement in his old position of authority.

BISHOPS IN WORDY WARFARE

Roosevelt Incident in Rome Unleashes Flood-Gates at St. Paul.

ST. PAUL, Minn., April 6.—Following the publication of a statement from Archbishop Ireland regarding the Roosevelt-Vatican incident, Bishop Robert McIntyre of the Southern Minnesota Conference of the Methodist Episcopal Church, who is visiting in Saratoga Springs, N. Y., telegraphed to The Pioneer Press in part as follows: "He calls my people vile, dishonest and calumnious. I bore the Fairbanks slander from him without reply, but my patience is now exhausted. I hereby brand John Ireland a double-tongued falsifier of God's people, a cowardly accuser of men better than himself, who are offering Italians the free grace of God without any terms of priestly monopoly. "I also challenge him to debate the question in American fashion on the open forum when I reach St. Paul. I have great Christian love for the Roman Catholic people, but the papal machine had a blood-red record that stains centuries of history." Archbishop Ireland in reply prepared a statement, which said in part: "The message is beneath my notice. He need not trouble himself about a debate with me on his arrival in St. Paul. I stand upright before men who deal in facts or arguments. I run away from mud-slingers. Bishop McIntyre ought to go to Rome. Judging from his present message, he is an expert in the lingo of the Roman Methodist preacher. It is just such low, insulting words, addressed to Catholics in Rome, as they now addressed to me by Bishop McIntyre, that arraign decent people in Rome against the Methodist propaganda."

St. Lawrence River Ferry.

OTTAWA, April 6.—The railway committee of the commons-to-day passed the bill incorporating the Morrisburg Ferry and Dock Co. The ferry is intended mainly to carry Canada wood pulp across from Morrisburg, Ont., to Waddington, N.Y. The Ottawa, Rideau Valley and Brockville bill as passed by the senate was subsequently put thru.

March Fire Record.

The Monetary Times' estimate of Canada's fire losses for the month of March is \$1,076,253, an increase of \$24,563 over the same month last year. The figure is also an increase over the previous month, but shows a slight decrease compared with the average monthly waste of 1909. The total number of fires exceeding \$10,000 was 20. During March there were 20 persons burned to death, against 15 for the preceding month, while the number of places burned in which loss of life occurred was 16.

"Do You Object to My Smoking, Madame?" "Not if Your Cigarettes Are TUCKETT'S."

Even if you've acquired a taste for inferior cigarettes, consideration for those about you should prompt the endeavor to find a brand that will prove inoffensive to your friends.

Aroma is a fairly true indication of cigarette quality, and the comparatively sensitive nostrils of the fair sex furnish a particularly accurate guide to the real worth of a cigarette.

If you have lost the power to discriminate in cigarettes, let your wife or your sister have a say in the matter. It's safe betting the choice will rest on TUCKETT'S.

Halgah v. Toronto Ry. Co.—W. T. J. Lee, for plaintiff. D. L. McCarthy, K.C., for defendant. An appeal by plaintiff from the judgment of the county court of York of 16th Dec., 1909. The plaintiff sued for \$200 damages from falling while alighting from a car of the defendant, alleged to have been caused by negligence of the company in starting the car, which was crowded, before plaintiff could alight. At trial the action was dismissed with costs, but damages assessed at \$250 so as to obviate necessity of new trial in case of appeal. Appeal allowed and judgment reversed. Appeal allowed and judgment reserved.

Beamish v. Bell—J. MacGregor, for plaintiff. R. G. Smythe, for defendant. An appeal from the judgment of the county court of York of 12th Dec., 1909. The action was one for trespass and claimed a mandatory order directing defendant to remove their building alleged to be on plaintiff's land, and an injunction to restrain further trespass, and \$1000 damages for the trespass committed from the plaintiff's roof, and directing defendant to remove same within six months. Also directing plaintiff within six months to adopt such means as will prevent rain water from flowing upon defendant's premises. The judgment also directed plaintiff to pay defendant \$75 damages for injury caused by the defendant's building, and gave thirty days stay. Plaintiff's appeal from that judgment argued and judgment reserved.

Sturdy v. Hamilton and Toronto Sewer Pipe Company—J. R. L. Starr, K.C., for defendant. W. M. McClelland (Hamilton), for plaintiff. An appeal by defendants from the judgment of Clute, J., of Jan. 12, 1910. Plaintiff, an employee of defendants, brought action for \$2000 damages for breaking, crushing and mangling of his right arm by reason of its being drawn in between rollers in defendants' factory which he alleges were not properly guarded. At the trial judgment was given for the plaintiff for \$800, and costs. Defendants' appeal therefrom argued and dismissed with costs.

Lindsay v. Imperial Steel and Wire Company—F. E. Hodgins, K.C., for defendant. C. A. Masten, K.C., for plaintiff. An appeal by defendants from the judgment of Clute, J., of Jan. 7, 1910. Plaintiff, an employee of defendants, brought action for \$2000 damages for breaking, crushing and mangling of his right arm by reason of its being drawn in between rollers in defendants' factory which he alleges were not properly guarded. At the trial judgment was given for the plaintiff for \$800, and costs. Defendants' appeal therefrom argued and dismissed with costs.

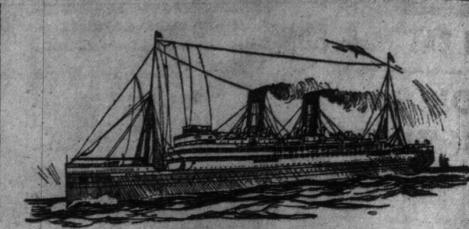

Robinson (Stratford), for plaintiff. It is alleged that the sidewalk where the plaintiff fell was covered with frozen snow and ice, of varying thickness, and was in a very slippery and treacherous condition, by which the plaintiff was thrown and received his injuries. The evidence, in my opinion, establishes that the sidewalk was, in the main, at that point, in a condition like that described in the claim. The plaintiff will not succeed in his claim, and the damages claimed, and I assess the damages at that sum. Judgment for plaintiff for \$350, with costs on the county court scale, and without setoff of costs—20 days' stay.

Before Teetzel, J. Peterson Lake Silver Cobalt Mining Co. v. The Nova Scotia Silver Cobalt Mining Co.—W. Nesbitt, K.C., and J. E. Robertson (Stratford), for plaintiffs. I. F. Holmsted, for defendants. Judgment: The plaintiffs are the owners of a mining location comprising 195 acres in Coleman Township, and the lands covered by the Peterson Lake. Defendants are owners of a mining location adjoining and location there to the east of plaintiffs' location, and the lands covered by them. Plaintiffs leased 30 acres of difficulty in defendants. I have no objection to the plaintiffs' land being intended to be leased, which in the negotiations for purchase were described as immediately adjoining the defendants' land. The plaintiffs' land is a wedge-shaped portion of the plaintiffs' land which lies between defendants' land and the plaintiffs' land. The plaintiffs' land is the land described in the lease on the west. The fact that this wedge-shaped portion of the plaintiffs' land was not included in the lease was not discovered until 1909. The defendants have expended large sums in development and mining operations thru this strip, and have paid the plaintiffs in royalties to the plaintiffs. Plaintiffs allege that defendants, through their executive officers, procured the plaintiffs' land, not for the purpose of developing and working the property for the benefit of the plaintiffs, but for the purpose of exploiting the lands owned by plaintiffs' company, to the benefit of defendants, and for their own personal use, and ask a declaration that defendants are not entitled to any interest in the lands mentioned in the agreement, on the ground that same was obtained by fraud. There is not a little of evidence to support this. Defendants, by counter claim, have asked to have the lease rectified by adding to the description the lands owned by plaintiffs' company, in block 162. Judgment will be dissolving the injunction, directing ratification of the lease as claimed in the counter claim, with reference to the master in ordinary to take the accounts ordered. Further directions and the question of costs reserved until after master's report.

Stomach Troubles

OFTEN COME FROM GREAT HAUSTED NERVES—GREAT RESULTS FROM USING Dr. Chase's Nerve Food

When the nerves become exhausted the first sign of trouble often comes from the stomach. The nerves which control the flow of digestive fluids dry up and the result is loss of appetite, indigestion, nervous headache and sleeplessness. Opium and narcotics cannot possibly do more than afford temporary relief, and aids to digestion are merely makeshifts. To get well you must cure the nervous system back into condition by such treatment as Dr. A. W. Chase's Nerve Food. Here is a letter which illustrates the point. Mr. John McLean, 318 Hunter-street, W. Hamilton, states: "My trouble was principally with my stomach. As a result of weak nerves my appetite was poor and I had severe attacks of indigestion. I found that Dr. Chase's Nerve Food relieved me, and since using it regularly for some time my digestion is excellent, my appetite is good, my nerves strong and vigorous and I feel altogether different from what I have derived from this medicine. If you are in earnest about a cure you will make it through by using Dr. A. W. Chase's Nerve Food regularly, and persistently until the whole nervous system is restored and you can again enjoy the joys of living. Dr. A. W. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers; or Edmondson, Bates & Co., Toronto, 23 last.

The Royal Edward and the Royal George

of the Canadian Northern Steamships, Limited, begin fortnightly sailings from Montreal and Quebec to Bristol, England, on Thursday, May 26th.

Bristol was the second city and largest port in the British Empire for hundreds of years. The new docks have been built to take the largest steamers at all states of the tide. Special trains for London—which will make the journey in less than two hours—will be alongside the "Royal Edward" and the "Royal George" on the arrival.

For those who do not want to rush on London Bristol is the ideal centre from which to get acquainted with England. Within a hundred miles of the city there are more historical landmarks, more beauty spots, more of the charm of unspoiled England and picturesque Wales than there are within a hundred miles of any other port.
