A week ago he was under treat-ment at the hospital for neurasthenia. It is thought that while still weak and during a period of despondency he attempted to take his life Lieut.-Col. G. H. Williams, senior chaplain of the division, was with Private Henderson at the hospital during this afternoon.

Elaborate Training Areas.

Elaborate Training Areas. One of the most impressive features of the entire camp is the bayonet fighting and physical training areas. One of these areas is practically com-pleted and will be used tomorrow for the first time. These areas are quite elaborate, including trenches of vari-ous sizes, labyrinth trenches, hurdles, scaling walls, seven feet high, and dynamies suspended by wires and lying in the trenches. These special training areas are designed according to the very latest system introduced at the British military camps and suthorized to be followed in Canada by Lieut.-Col. May, director and in-spector of bayonet fighting for the Dominion. Capt. R. V. Conover is directing this training in the Toronto military division. Lieut. Hugh Gale of the second company Engineers is su-perintending the area construction work.

work. Lt.-Col. F. F. Clarke's command, the 127th York Battalion, marched to Al-Maton, six miles away this afternoon. It will bivouac there tonight and re-turn to Camp Borden tomorrow. — Two London Units Inspected. Major.-Gen. F. L. Lessard, inspector of the easten Canada forces, visited the camp today and reviewed the 110th Perth and 118th Berlin Battalions. He commenced on their efficiency. At 7.45 p.m. he left for Toronto. — The latest parade state shows the camp strength at 29,614 troops. Of these 20,967 are in camp, 7110 on har-vesting furlough and other special leave and 1587 absent without leave. — An advance party of the 227th New Ontario Battalion arrives here to-Ontario Battalion arrives here to-morrow. Thirteen Casualties.

Thirteen Casualties. Thirteen local men appeared on yes-terday's casualty list, this being the largest number of casualties received in one day for the past two months. Fite. Andrew Orr, 45 First avenue, has been killed in action and Capt. Paul Powis, 64 East King street, is reported to be seriously wounded. Fite. W. Houston, 53 Harmony avenue, is miss-ing and others are reported to be suf-fering from slight wounds. There is not likely to be an early set-tlement between the electrical workers and the contractors. At a meeting of the contractors and the men in the labor hall the former refused to recog-nize the closed shyp, and all hopes of a settlement were ended. The men are determined not to go back to work until that point is conceded by their employers.

Untario Fire Keliet A Committee has been formed to receive Funds for the Relief of Sufferers

TO DE TREATLY THAT THE PIT

The Northern Ontario Fire Relief Committee, consisting of representatives of the Dominion and Ontario Governments, City of Toronto, Ontario Associated Boards of Trade, Toronto Board of Trade, and Canadian Manufacturers' Association, has been formed at the request of the Ontario Government to solicit and administer funds for the immediate relief of fire sufferers. The Dominion and Ontario Governments have each subscribed One Hundred Thousand Dollars, and the City of Toronto Fifty Thousand. It is estimated that at least Four Hundred Thousand Dollars is needed to effectively relieve the situation, which is very serious. Citizens are urged not to make contributions through other than the Toronto central organization, in order that duplication and waste may be avoided.

Subscriptions are earnestly and urgently requested, and should be made payable to T. Bradshaw, Commissioner of Finance, Toronto, Treasurer of the Fund.

the disposing of them to a tacit decision to do as little further fighting as possible.

The feature of the British operations in the battle of the Somme yes-terday was the work of the Australians in advancing the British lines 200 yards on a front of 600 yards northwest of Pozieres. This progress came after the making of an advance north of the same village in the course of the course of British percentages with British * * * * * the preceding night. The co-operation of British aeroplanes with British infantry brought about the destruction of several German guns and the explosion of some German magazines. British machines also set a train afire by dropping bombs. German aircraft, while seeking to avoid combats, were active and several, despite their caution, were damaged by British scroplanes and infantry fire.

* The French infantry effort was directed yesterday to the taking of a trench north of the Hem Wood, previously recaptured by the Germans, and the making of progress in a spirited action north of the Hem Wood on the Somme battle front. Artillery actions only were fought on the Verdun

* * * * * * The Russians have reached points within striking distance of the important railway centre of Stanislau by their latest actions in eastern Galicia. They have now crossed to the right bank of the Koropiec River and routed the Teuton rear guards. They have cut another railway, the Nizniow-Monasterzyska, and their advanced guards in the region of Tysmienitsa have advanced in the direction of Stanislau. Many villages have been occupied, important heights have been stormed and 7400 prisoners have been taken up to Aug. 7. Of these, 3500, or nearly half,

* * * * After the Italians captured the Gorizia bridgehead and the two mostimportant heights commanding the Isonzo lines, on Monday, they cleared out the surviving Austrians from the rest of the high ground west of the Isonzo, threw detachments across the river, constructed bridges and re-paired those that the Austrians had damaged in their hasty retirement, and entered Gorizia yesterday morning. Thus they have overcome the formidable defensive lines of the Isonzo. These were constructed with great skill in times of peace and, built in solid limestone for the most part, the attacker had endless difficulties in consolidating his positions for a siege. The Italian operations against the Isonzo line were conducted by regular methods of siege warfare, as shown by the construction of underground passages to the critical points, from which infantry could cash under cover of artillery fire and enter the Austrian lines with the minimum of loss before the defenders could have time to rally and put up any sort of defence. It is quite probable that the Italian losses were remarkably small. It seems that the Austrians could do nothing but run from their artillery fire. It reached a terrific volume.

GALT CAUSALTIES.

GALT, Ont., Aug. 9 .- Pte. John Duncan, who went overseas with the 1st Battalion, was today officially reported missing on July 9 and thought to be killed. He was 30 years of age, single, a naive of Dundece, Scotland, and

a naive of Dundeee, Scotland, and came to Galt 10 years ago. Ptc. Walter Richards of Hespeler was today reported wounded. He work-ed at Forbes Mill and lived on Queen street. He enlisted at Galt and is 38 years of age, a native of Bradford, Eng., and married.

MOTOR CAR KILLED WOMAN.

LONDON. Ont., Aug. 9.-Mrs. L. Tripp of this city was struck and fat-ally injured at noon today when she became condused while crossing Dundas street near the Market Lane and stepped backwards directly into the path of a passing automobile. The car was being driven by Vincent Colgan, a city salesman of the British-American Oil Co., and according to witnesses was traveling at a low speed. The machine passed over the woman's body and she died shortly afterward at the Victoria Hospital. The accident is said to have been unavoidable in so far as Colgan was concerned.
