

Road Safety

full program is going on at the present time and I am sure the hon. member who moved this motion appreciates this.

I should like to underline the point about seat belts. This has been a very strange chapter. The program has been accepted by some and rejected by others. I think it is well on the way now to being a success. I should like to underline the point made by my hon. friend from Bruce-Grey. There is a very real role for public transit to play in this area of road safety. Some of us have spoken up on this issue a great deal recently, and we

shall continue to do so. Fortunately in a country as advanced as ours a great deal is being done, both by governments and others.
