Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty (King Edward Hotel), at the close of the market to-day:

Foreign markets were all higher. The world's shipments this week were the smallest in some time, being less than seven million bushels. Our domestic visible supply increased 900,000 bushels, or about one million bushels less than last year. The action of the market to-day shows plainly that the leading bulls are willing to sell some of their holdings on the hard spots at present, but we notice the same class of buying on the declines. Milling reports from the northwest were better, and indications point to an improvement in the general milling situation. Last year the stringency did not become apparent until after March 1, and we fully expect the situation to become acute earlier this season.

Corn—The market shows a decided bearish tone and indications point to lower prices. There is a large amount of corn back in Iowa, Nebraska and Illinois, and this corn we believe will be a pressure on the market for a considerable length of time. The visible supply increased 2,989,000 bushels. Seaside lots were 1c to 1½c lower. We advise sales of May corn.

Oats—The market to-day was slightly lower in sympathy with the declines in corn. Our opinion is that oats will be more or less dull and stagnant in the near future, and the difference between corn and oats will narrow several cents.

Provisions—The only feature in the provision market to-day was moderate sales of ribs and lard, which had been delivered by the packers on January contracts. We feel rather friendly to ribs on any further reaction, but would sell lard on any moderate rally.

Earls & Stoppani, Chicago, wired to J. L. Mitchell, McKinnon Building:

Wheat—Wheat has been nervous to-day, ranging from ½c above Saturday's close down to 1c below it, and closing near the low figures of the day. Statistics were generally quite bullish. Liverpool closed ¾d to 1d higher. Visible increased only 901,000. Severe cold weather is reported in Eastern Europe and no snow covering crop in France. Argentine weather is brilliant. No improvement as yet in flour trade. Northwest reported better prices and demand for cash wheat. The buying of wheat on the break to-day looked like a substantial demand from eastern sources. The selling early was for taking of profits and short sales by scalpers. Clearances, 113,000 bushels. Primary receipts 891,000 bushels, against 1,000,000 a year ago. This decline looks healthy, and purchases around $1.15½ should show profits in a day or so.

Corn—Corn has ruled weak thruout the entire session to-day. Offerings from commission houses were liberal and looked like liquidation of long holdings. Local stocks increased 720,000. The visible increased 2,363,000 bushels. Cash houses were good sellers, with principal buying coming from shorts. Seaboard business was twenty loads.

Oats—Trade in oats was dull, with prices easier in sympathy with corn.

Provisions—Prices ruled strong under good demand from the stock yards and on general outside buying, but sagged off towards the close on profit taking. January deliveries were light.

Options opened higher on bullish weather and foreign statistics and Liverpool cables, followed by reactions under liberal increase in visible supply figures and important selling west. On subsequent reports of a good northwest cash demand and better bull support the market rallied again, but finally broke under liquidation, closing 1c to ⅝c net lower. WHY GIRLS LEAVE HOME

THESE TWO STAGE-STRUCK

Now New York Police Are Looking for Carrie Outhwaite and Irene O'Byrne of This City.

Imbued with a desire to tread the mimic boards, 14-year-old Carrie Outhwaite, 14-year-old Carrie Outh-mimic boards, 14-year-old Carrie Outh-janitor at the Manning Chambers, and 15-year-old Irene O'Byrne, who lives at 65 Edward-street, deserted their respective homes on New Year's Day and ran away to New York, where they hoped to secure positions in the theatrical business. Their parents, with more experience of the ways of the world, are almost frantic, and Mr. Outhwaite and a friend have gone to New York in the hope of finding the truants.

Irene O'Byrne is the eldest daughter of a widowed mother, and with her brother has for some time added materially to the support of her younger brothers and sisters. Always a quiet girl and carefully brought up, she had very little knowledge of the outside world until a short time ago, when she met Carrie Outhwaite, a younger girl, but in all her ways older than Irene. The two girls chummed together and frequent visits to the theatre, combined with the fact that a relative of Irene's had married an actress, gave the two girls a longing which the workaday existence which Irene knew only made the tinsel and glitter of the stage the more alluring. She is a pretty girl and possessed of a good voice. Carrie, too, had longings.

On Sunday Irene attended mass at St. Michael's, and in the afternoon the two girls went, supposedly, for a walk. When they did not return anxious brothers inquired at the Union Station, only to find that they had bought tickets for New York. The New York police have set a strict watch on all the theatrical agencies and lodging houses, but so far the girls have not been found.

CHAIRMANSHIPS OF COMMITTEES.

Probable Division of the Honors at Disposal of Council.

Lobbying has begun among the members of the city council for positions as chairmen of the various civic committees. An attempt will be made to whip the council into line for the benefit of certain members, just as was done last year. The persons who engineered the deal at that time, however, have passed out of the civic arena. The chairmen are elected by the different committees, which are nominated by a special committee composed of the senior member from each ward. This year these are Ald. Stewart, Noble, Sheppard, Harrison, Dunn and Graham. They are equally divided in political feeling and will probably not have any trouble in naming the standing committees.

For the island committee, Ald. Jones will probably be chosen, as he has taken a great interest in the island, which is included in the Fourth Ward, and he would probably prefer this position.

Ald. Coatsworth will likely receive the chairmanship of the legislation and reception committee. The legislative duties connected with the position would be much to his liking.

No change will probably be made on the fire and light committee. Ald. Fleming has earned many compliments for his business methods in dealing with the fire department, and to interfere with the plans of reorganization now would be injudicious.

Dr. Harrison has had only a portion of a year as chairman of the board of health, having succeeded Ald. Bell when the latter took a civic position. He has filled the position acceptably, but Dr. Noble's name has also been mentioned for the place. Dr. Noble, however, will not seek the honor, as he strongly opposes any lobbying of this nature.

The only member eligible for the chairmanship of the parks and exhibition committee is the present chairman, Ald. Stewart, if Ald. Sheppard and Dunn secured their desires. Ald. Crane and Foster are now out, and Ald. Ward being a controller can hardly expect the honor. It is said, however, that Ald. Graham is looking for this position, but the rule has been that the chairman be appointed from the members of the previous year. Ald. Stewart has already secured considerable support, but as he has served three years he will meet with opposition from some source.

The slate will probably be as follows: Legislation, Ald. Coatsworth; works, Ald. Sheppard; property, Ald. Dunn; fire and light, Ald. Fleming; parks, Ald. Stewart; island, Ald Jones; health, Ald. Harrison. The meeting of council to-day will doubtlessly be made the occasion for much active work by the friends of the aspirants.

HOSSACK DIDN'T APPEAR.

The Organizer Fee Was on Hand at Owen Sound.

Owen Sound, Jan. 3.—(Special.)—Circulars were sent out privately calling a number of citizens to a meeting in the Y.M.C.A. hall to-day, to be addressed by Rev. D. C. Hossack in the interest of moral reform. About twenty-five people gathered and were met by W. G. Fee of Toronto.

Rev. Mr. Hossack failed to make an appearance. Mr. Fee, however, proceeded with the organization of the North Grey branch of the Canadian Citizens' League, and the following officers were elected: President, W. J. Shean; vice-president, William Rosebarrough; councillor for Sarawak, Secretary S. W. Craig.

The object of the organization is to put down corruption in politics, and with this object in view a strenuous effort will be made to defeat the Ross government in the coming elections. The organization, tho semi-private, is said to be provincial in extent.

It is whispered that a third candidate may be put in the field.

Here are some watches that were side-tracked in the rush of holiday business. Two sizes—ladies' and gentlemen's. Both American—which means the parts are produced and exactly reproduced by automatic machinery, so they give the watchmaker no trouble. They are gold-filled watches, in the back of each man's watch is the maker's guarantee that they will look and wear like gold for 20 years. Their time-keeping quality is also guaranteed.

A chain with each watch—silk fobs for men, silk guards for women. You would pay ordinarily $7.50 to $10 for the outfit, according to where you buy. Our clearing price for watches and chain complete, five dollars and eighty-five cents.

2 in 1

You know how it is in travelling around — how your boots become scratched and worn—Well '2 in 1' fixes that up in a 'jiffy.' I carry it along in my grip and a minute's heart-to-heart talk with my boots, assisted by '2 in 1' and a cloth, makes me as spick and span as anyone could wish."
