

SURGEONS' REPORT.

—:O:—

The Surgeons of the Toronto Eye and Ear Infirmary in presenting their tenth annual report desire to congratulate the Directors upon their having secured premises better adapted to the requirements of the Institution.

The record of the Infirmary during the past ten years they had supposed was sufficiently creditable to have secured for the Institution some recognition by the members of the Government, when public moneys were placed at their disposal for the benefit of the poor of the Province, who are suffering from diseases of the eye and ear. However, so long as the subscribers and Directors continue their generous support, the Surgeons will be glad to continue their gratuitous services

The number of patients under treatment for the year was 519, divided as follows ; *Intern* or resident patients 96 ; *Extern* or dispensary patients 423, being an increase of about 15 per cent in the number of *extern* patients, and the number of *intern* patients was exactly the same as the previous year.

The statistics for the year are as follows :

INTERN PATIENTS.

Cured.. .. .	27
Improved.....	42
