

18164-21

Feb. 10th. 1938.

Sir:-

EX'D.

In reply to your letter of the 2nd. inst. advising that you have located several mineral claims on the Upper Similkameen Reserves Nos. 2 and 2A I have to state that it will be necessary for you to submit a survey plan of these claims and apply for a lease from the Department of the surface rights, before any active mining operations are undertaken.

When you receive such lease, and ship out ore having a base metal content, it will be necessary for you to file with the Department a certificate from the smelter showing the actual content by smelter test of the lead and zinc that is associated with the precious metals.

Yours very truly,

TRLM

Secretary.
T.R.L. MacInnes.
