

NURSES RECEIVE DIPLOMAS FROM MATERNITY HOME

Large Audience Attends Graduation Ceremony at Centenary Church

The graduating exercises of the 1926 class of six nurses of the Evangeline Maternity Hospital were held in Centenary church hall yesterday afternoon under auspices of very happy augury. Commissioner Charles Bowton had remained in the city especially to be present and to preside, and was making his last public appearance in Saint John as Salvation Army Commissioner for Canada East.

Rev. R. G. Fulton, pastor of Centenary church, offered the opening prayer and addresses were given by Commissioner Bowton, Dr. W. F. Roberts and Colonel Desbriay, women's social secretary for this territory. Vocal solos by Mrs. A. E. Logie and Colonel Ashby, young people's secretary, were much enjoyed. Dr. A. E. Logie led the nurses in the solemn Florence Nightingale Pledge and they received their diplomas and pins from Adjutant Sibbick, superintendent of the hospital, and Ensign Jess, head nurse. Their dedicatory prayer was offered by Mrs. Major Knight, wife of the new commander of this district.

THE CLASS.
The whole front of the hall platform was a mass of flowers which had been received as gifts by the members of the graduating class. They were Miss Gladys Kirkpatrick, of Miramichi; Miss

VIEWS THE HEART OF EMPIRE

Premier Bruce of Australia, immediately after his arrival at London for the Imperial Conference, was taken to the roof of the Savoy Hotel by Nicholas J. Mockett, the head porter, who is here shown pointing out the landmarks of the great city.

Alma Carr, of Saint John; Lieut. Albert Williams, Charlottetown, P. E. I.; Miss Vera Watters and Miss Mabel Banks, of Westfield, and Miss Genevieve Irvine, of Milford. The large audience filled the hall and at the close of the exercises many friends thronged about the graduates to extend congratulations. A reception was held in their honor in the church parlors, and afternoon tea was served at small tables, each centred with a red rose in a bud vase. The addresses of the afternoon were

MANY ATTEND STUDENT DEBATE

Court House Filled as Law School Members Hold Mock Trial

The Court House was filled to capacity, even standing room being at a premium, when the U. N. B. law students gave their mock trial last night. The system of debate followed by the local law school this year is the moot system, which has been in vogue in Oxford University for a number of years and has proved most satisfactory and beneficial to the students. It requires more detailed research into law and only the points of law are argued. The case is stated by a local barrister and witnesses are dispensed with.

H. A. Powell presided and the case last evening was stated as follows: "A certain merchant, B, who pays for a local fishmonger, D, and the final purchaser, A, and the servant C. In a court below judgment was given in favor of A. An appeal is brought by B, C and D."

Those taking part were as follows: For the complainant, counsel, Harry Hickman B. A., and solicitor, George Penton; for the respondent, counsel, Albany Robichaud, B. A., and solicitor, Gordon King Kelley, B. A.

THE ARGUMENT.
In general the appellant argued that the pearl was a thing apart from the oyster and that the property in it did not pass when the property in the oyster passed to the final purchaser, and that the pearl was a thing unowned by any one until found by the servant, and that his possession of it gave him a better title to it than any of the others who claimed ownership to it actually had.

The respondent submitted that the pearl was not a thing separate and apart from the oyster, but was actually part of it, and he presented a periphrastic of authorities to support the contention. He claimed that the restaurant proprietor acquired a good title to the pearl in purchasing the oyster.

Mr. Powell delivered judgment for the respondent, and complimented the students on the excellent manner in which they presented their cases. In the mock trials that are being carried on by the local law school the "moot" is being eliminated as much as possible. The only "moot" being at all present being in the fictitiousness of the case. That the public are taking so keen an interest in the work is very much appreciated by the students, and they feel that the attendance last evening not only repaid their efforts, but also warrants putting on even better efforts in the future.

HALLOWEEN PARTY GREATLY ENJOYED

Altar Boys and Orchestra Members at St. John The Baptist Celebrate

The altar boys and the members of the junior orchestra of St. John The Baptist church had a wonderful time last night at a Halloween party in the parish hall, which had been appropriately and very artistically decorated for the occasion. There was a large number in the party, and for the series of games that had been arranged they were divided into groups, each group having its turn at every contest and every game.

It was good fun all the time, and nearly every one was winner in one or other of the events, about twenty different games being played and 40 prizes awarded. Some races were run off also, and they were keenly contested. A luscious Halloween supper with all the "fixin's" was served by the ladies of the parish, and was done complete and angle justice by the young people.

They were very reluctant to bring their night's enjoyment to a close and very heartily thanked those who had provided the good times for them. The games were supervised by Byron Eldridge and Ernest Wallace.

COL DESBRIAY.
Colonel Desbriay said that on that happy occasion comrades throughout the territory were thinking of the graduates. One of the most handsome bouquets of flowers had come from the Grace Hospital in Windsor, and the Mothers' Hospital in Montreal had sent a telegram of greeting which she read.

The graduating exercises were the sixth she had attended this year, she said, and at those six there had been a total of 35 nurses graduated from the Army hospital, of which, she said, there were now eight in Canada East territory. She recalled that the Evangeline Hospital in Saint John had been one of the first, if not the first, Salvation Army hospital in Canada, and said that recently she had come across a picture of the first premises, a small building in King street east.

She extended congratulations on the work now being done and urged the graduates to emulate Florence Nightingale in qualities of heart and mind and in obedience to the will of God.

DR. ROBERTS.
Dr. W. F. Roberts, who gave the address to the graduates, said Saint John was to be congratulated on having an institution like the Evangeline Home which had given a wonderful service for humanity during a quarter of a century, and he spoke of the Salvation Army as one of the most telling forces for religion in the world today.

He spoke of the profession of nursing as a noble one, dignified by such women as Florence Nightingale, Edith Cavell and Annie Stanger, of Saint John, and as a useful one, especially in this province where the high mortality among mothers and infants had made the public health department deeply ashamed when vital statistics were first obtained in 1920.

The profession, he said, was also a responsible and sacred calling, and an exemplary one. The initial letters of the qualities he had enumerated he pointed out formed the word "Nurse." The nurses themselves he urged to strive for the special qualities of personality, alacrity, thoughtfulness, industry, efficiency, neatness, and, and he pointed out that the initial letters

operating efficiency. You experience a new degree of gasoline economy—increased warmth inside your car—summer-time smoothness and flexibility in your motor.

Installed in ten minutes
Winterfront is made in sizes to fit all cars—designed to add beauty as well as protection, and built to outlast the car itself. Drive in—we'll install it while you wait. There is nothing to get out of order—nothing to remember. Winterfront automatically takes in just enough cold air to keep your motor at the correct temperature for most efficient operation. It is the only automatic radiator shutter on the market. It will save you many times its cost in a few months of use. Have your car equipped now—and note the amazing difference Winterfront makes in the operation of your motor.

"Warm up" and stay warm with a Winterfront
With your car Winterfront equipped, the "warming-up" period is cut to seconds. You form the habit of using the "choke" as it should be used—for starting only. Your motor is kept always at the correct temperature for highest

Models for All Cars Priced \$29.25 to \$39.50

NEW PASTOR IS GIVEN WELCOME

Young Men's Club of Central Baptist Church Plans for Winter

The Young Men's Club of Central Baptist church has been re-organized for the winter and has mapped out a schedule of meetings and athletic plans that suggest a very busy and useful season. President Arburs was in the chair at the meeting and a hearty welcome was given to the pastor-elect, Rev. R. D. Knott, B. A.

Rev. Mr. Knott expressed thanks for the cordial welcome and promised hearty co-operation with the young men in co-ordinating the interlocked activities of the church and Sunday school. He was delighted to find so much capable and willing material for carrying on the departmental work of Central church and delivered a helpful address on a theme dealing with the materials that contribute to character building.

Character has been defined as the joint product of nature and nurture. Nature supplies the raw material while character is the finished product. We start at zero and learn physical laws through experience. We soon discover that fire burns, that knives cut. Next we are subject to domestic and communal laws, which if accepted and obeyed, give strength to character by learning the need of subjection to discipline.

Temptation plays its part, too, protection yields innocence and lulling with temptation yields virtue. We are stronger by conquering forces that oppose our well-being. Even monotony contributes to character building—"blessed be drudgery," someone has said. Unless we can patiently meet the Son of God who stands forth in all the beauty of His manhood, a manhood which has met and mastered all the forces which men meet in their life of building and rounding out a worthwhile character.

Schooner "Archie Mackenzie"
Stocked \$29,190.04 in 6 months
Powered with a Fairbanks-Morse 60 h.p. "C.O." Engine

THE above illustration shows the schooner "Archie Mackenzie," 93' over all, 21' 4" wide, 9' 1" deep, 63 tons net, built by the Shelbourne Shipbuilders, Inc. A 60 h.p. Fairbanks-Morse "C.O." Engine was installed in this boat and she started out on October 20th, 1925. When she quit on May 1st, she had stocked \$29,190.04, and the crew shared \$74.95 per man.

The performance of this boat and of many others proves that reliable, economical power as supplied by the "C.O." Engine certainly pays. These engines start instantly from cold. They operate on any grade of fuel oil that any Diesel engine will operate on, and are very economical of fuel. Will operate at exceptionally slow speeds and will idle satisfactorily.

Write for list of installations of Fairbanks-Morse engines, both marine and stationary, in your vicinity.

Every Muscle Supported - Relaxed - Resting

Marshall Special Mattress
\$25.00
A Remarkably Low Price made possible by tremendous production

Price is no barrier to your owning a Marshall Spring Mattress. This superb, new comfort mattress has changed the sleeping habits of generations. Yet it costs less per year to own than the ordinary stuffed mattress.

The many hundreds of highly resilient springs in the Marshall Spring Mattress give even, gentle support to the entire contour of the body. Natural even body support ensures complete muscular relaxation, an essential requisite to true healthful sleep.

Feel full of renewed vigor and vitality by sleeping on a Marshall Spring Mattress. The Marshall complete musculoskeletal relaxation, the one essential to perfect body-building sleep. The cost is within reach of all.

Cold is Here
Enemy of your motor
Today—correct this costly error that is bringing damage to your motor

WRONG
Thousands believe that a motor car needs protection only in freezing weather. This erroneous belief is costing car owners millions. It is the cause—authorities agree—of 50 to 75% of all premature motor wear. Correct this belief—prevent the damage it does.

RIGHT
Cold starts its work of destruction at 60° Fahrenheit. That's when you need Winterfront. Makers of many fine cars provide Winterfront protection the year 'round—guarding their owners against the damage wrought by cold. At 60° Fahrenheit, have a Winterfront installed. Don't give cold a chance at your motor.

COLD doesn't worry the owner of a Winterfront protected car. He thinks little of hard starting—quick freezing. He knows next spring will bring no costly repair bills as a result of needless damage done by cold.

Excessive "Choking" does the damage
The minutes you must drive with the "choke" open to "warm up" your car. Experts agree it's the excessive use of the "choke" in cold weather that causes 50 to 75% of all damage to your motor. Flooding your motor with raw gasoline is a costly "warming-up" process. It washes cylinders and cylinder walls clean of the oil film of protection. Metal to metal contact follows. Scoring, pitting and rapid cylinder wear result. Fouled spark plugs, extreme carbonization, corrosion and rapid cylinder wear follow. Gasoline consumption is increased at a tremendous rate.

"Warm up" and stay warm with a Winterfront
With your car Winterfront equipped, the "warming-up" period is cut to seconds. You form the habit of using the "choke" as it should be used—for starting only. Your motor is kept always at the correct temperature for highest operating efficiency. You experience a new degree of gasoline economy—increased warmth inside your car—summer-time smoothness and flexibility in your motor.

Installed in ten minutes
Winterfront is made in sizes to fit all cars—designed to add beauty as well as protection, and built to outlast the car itself. Drive in—we'll install it while you wait. There is nothing to get out of order—nothing to remember. Winterfront automatically takes in just enough cold air to keep your motor at the correct temperature for most efficient operation. It is the only automatic radiator shutter on the market. It will save you many times its cost in a few months of use. Have your car equipped now—and note the amazing difference Winterfront makes in the operation of your motor.
