KROEHLER  
—MADE—

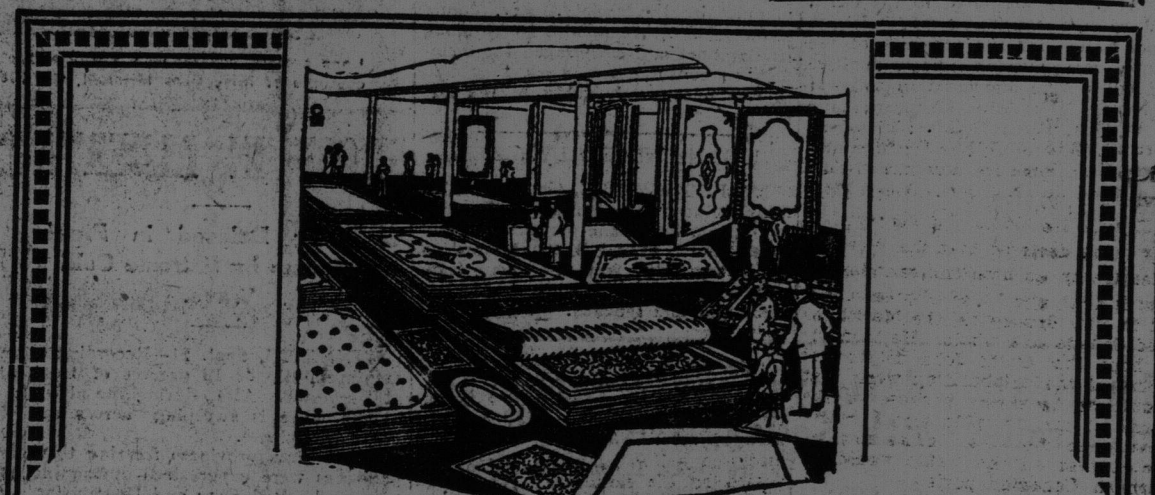

Nothing will brighten up the home quite so effectually as a luxurious Chesterfield suite, and first of all, your ideas should be brightened up by a visit to our show rooms. There you will find all sizes and colorings to choose from and every one fully guaranteed. Of special interest to those having small houses or apartments are the Kroehler Living Room Suites which reveal a luxurious bed, with unsagging cable spring and thick roll-edge mattress, at a moment's notice. No hint of a bed at any other time—just as much day-time comfort as any other Chesterfield—yet your problem of a spare bed-room is solved, and you get "twenty-four hour a day" service at a very small extra cost.

### Chesterfields Take Away that Bare Look

Years ago you could fill a room with stiff back chairs and call it the right welcome for company. No wonder the family spent other evenings in a "sitting room." No wonder it was an art hard to learn—to feel at one's ease on formal calls—in those good old days when etiquette called for awkward clothes, and perching on the edge of a punishing chair, with a determination to smile and stay on at all costs.

The Chesterfield has made "comfort" the proper pose. A true welcome and assurance of being at one's ease. An eye-filling spectacle of substantial well-being and full bodied beauty. A suite that makes a half dozen reluctant to move. Supporting one with such delicious rest on its yielding springs and deep stuffing that home is the most comfortable place of nights. A powerful means of holding the family together.

You see such a great number of Chesterfields side by side at Marcus' that you choose wisely. Their reputation is so long-standing their guarantees must mean more—they have so much at stake. Every suite bonded as moth-proof by both makers and J. Marcus Ltd. Every one upholstered on all sides and built to critical standards. Extra quality Tapestry suites as low as \$147—Mohair as low as \$176. Bigger buying power brings better value for you.
