

## KEEP AMBULANCE SERVICE AS NOW

Hospital Commissioners' Decision Yesterday—Winter Conditions.

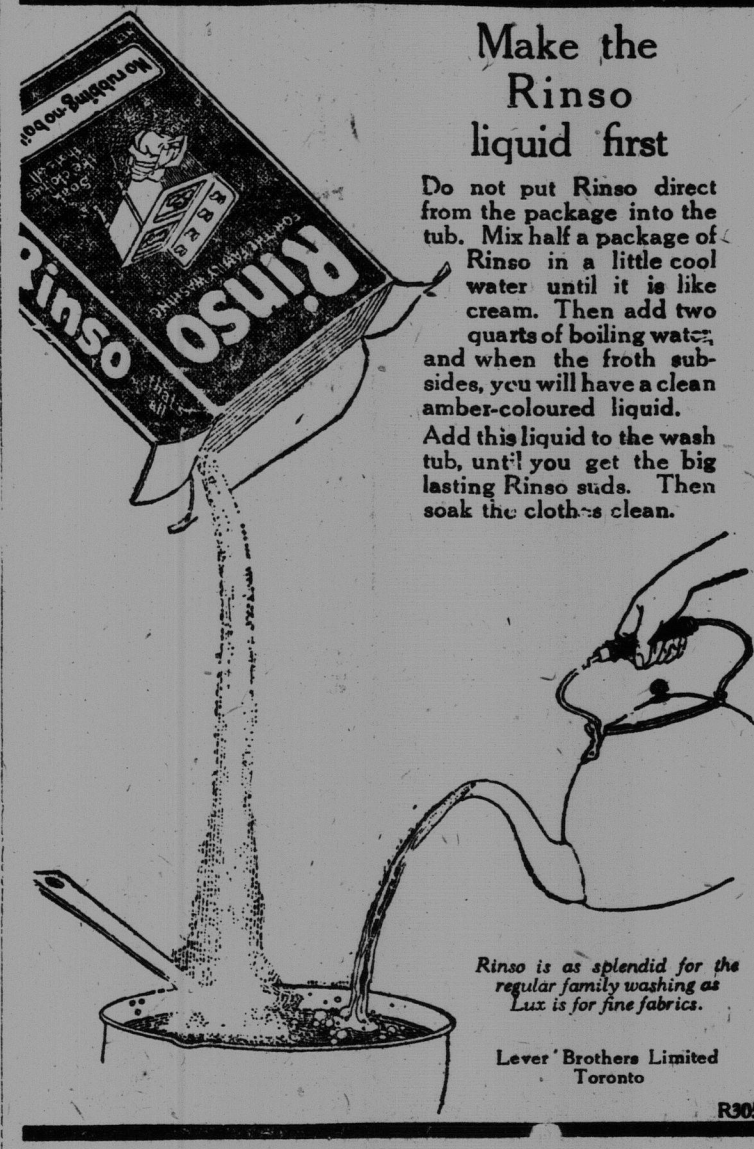

The Commissioners of the General Public Hospital yesterday passed a resolution favoring the continuation of the ambulance service as at present. J. King Kelley, K. C., presented a committee report on the matter. He said

that at present the city was supplying a general ambulance service, if the hospital took the service it would become more of a private service. The cost of the service he estimated would be about \$7,500 a year. The report contained some further recommendations which Mr. Kelley himself voted against on further discussion, and which were voted down by the whole meeting. These recommendations were that an interne might accompany the ambulance when it made accident calls eastward of the hospital, that the Workmen's Compensation Board might take steps to arrange a medical service in conjunction with the ambulance for service in southern and northern sections of the city as well as in the Parish of Lancaster. The committee considered the presence of Dr. Kenney and Dr. Ellis in West St. John sufficient to cover

## Nonsuch LIQUID STOVE POLISH

It's Economical Cleaner Quicker Easier

Established, owned and made in Canada for over 30 years by Nonsuch Mfg. Co. Limited Toronto.

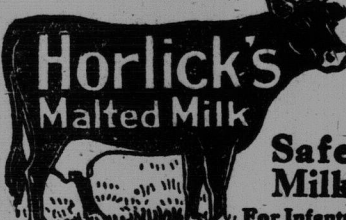

## Make the Rinso liquid first

Do not put Rinso direct from the package into the tub. Mix half a package of Rinso in a little cool water until it is like cream. Then add two quarts of boiling water, and when the froth subsides, you will have a clean amber-colored liquid. Add this liquid to the wash tub, until you get the big lasting Rinso suds. Then soak the clothes clean.

Rinso is as splendid for the regular family washing as Lux is for fine fabrics.

## If tiny lines appear hateful signs of early ageing . . .

Study how the society woman keeps her skin so young

Like the society woman, you need not allow your skin to betray fatigue, or age, or the harsh effects of weather.

FINE lines around your eyes, your nose, the corners of your mouth. Do not think of letting them stay—to grow deeper and turn into wrinkles!

These premature lines are only the troubles of a skin allowed to be too dry. You must learn how to give your skin the suppleness it needs. Learn from the women who have discovered how to keep their skin young, how your skin can be kept so beautifully soft it cannot form lines.

The famous method women use who tax their skin the most

The society woman keeps her skin smooth and fresh season in and out. That is because she has learned the two fundamental needs of her skin. And she knows that she must meet them in order to go on exposing her skin to fatigue and weather and still keep it in the fresh supple condition that social usage demands.

These two needs are the basis of the famous Pond's method of two entirely different creams. The daily cleansing that softens and relaxes her skin, frees it from all dust, dryness and cosmetics. Then the protection that prevents all drying out and coarsening and besides has the wonderful property of instant freshening. With this method she keeps her skin smooth and unlined years longer than most women who give their skin far less wear.

Every skin needs these Two Creams—

Pond's Two Creams used by women who tax their skin most and keep it loveliest

Every night cleanse your face thoroughly with Pond's Cold Cream. Apply this cream softly with a piece of moistened cotton. Wipe it off with a soft cloth. Do this twice—already your skin feels less tight and drawn. Now apply more cream and let it stay on. Pat it in especially around your eyes, nose and mouth where wrinkles form first. Feel how your face softens and relaxes as the fine light oil of this cream restores its natural suppleness.

Then in the morning apply Pond's Vanishing Cream very evenly—just enough for your skin to absorb. This wonderful softening cream will prevent your skin from drying out again. The wind cannot whip out its new suppleness. You will love its smoothness. And you need not worry about early wrinkles. They will not form in your soft supple skin.

Keep your skin soft and young with this perfect daily care that women who must have beautiful complexions give their skin. Buy both Pond's Creams in jars or tubes today in any drug or departmental store. The Pond's Extract Company, 146 Brock Avenue, Toronto, Canada.

132 years' experience in creating the finest Cottons the world has ever known, made possible the perfecting of HORROCKSES "DIAPHALENE"—the dainty cotton for lovely underwear.

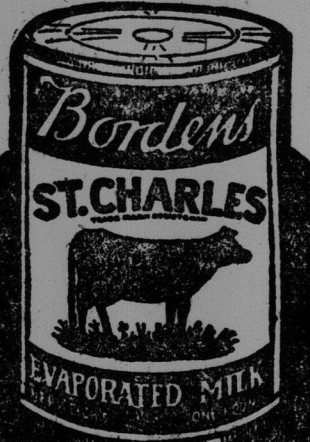

The girl who makes her own "Undies" can fashion the Frenchiest, most fascinating Camisoles, Princess slips, Bloomers, Steppings, Combinations at a small part of the cost of imported silk underwear.

looks and feels like silk—soft and clinging—with a permanent silky finish—and has the splendid wearing qualities of all Horrockses Cottons, the standard of the world for more than a century and a quarter. It comes in white, pink, mauve and fascinating art shades. Look for the name HORROCKSES on the selvage.

immediate calls for medical attention on ambulance service. A Minority Report. Dr. Crawford presented a minority report as a member of the committee, stating that he believed the time was opportune to establish a hospital ambulance service because the present quarters of the ambulance were unsatisfactory and because the ambulance attendants could not give the proper attention in some cases where medical care might be essential. The minority report was ordered filed.

Dr. Crawford pointed out that much of the expenditure listed was already provided for and the money was being paid out to maintain the present service. He was told the present service cost \$5,000 a year. With regard to extra interne service which maintaining the ambulance at the hospital would entail, he said the service of these internes would be given to the hospital for seventy-five per cent. of their time and the hospital would soon have need of more interne service.

Dr. E. J. Ryan said he considered the ambulance service at the present time highly satisfactory. The General Public Hospital during the summer time, usually a slack season, has been practically full, the closing of wards and rooms for renovation having aggravated this condition, and at yesterday's meeting of the Board of Commissioners it was said that in all probability in the coming winter accommodation would be difficult to secure. The medical staff found much to commend in the recent improve-

ments in the hospital and in the paving of Waterloo street, as well as improved ambulance service. M. E. Agar, president, others present were Commissioners Mrs. McLellan, Alexander McMillan, Dr. G. F. Crawford, Dr. E. J. Ryan, J. L. O'Brien, W. E. Emerson and J. King Kelley and R. H. Gale, superintendent. The superintendent's report contained the following information. In the month 179 patients were admitted, the total number was 286 and average length of stay was 13.2 days. There were 132 remaining in the outpatients' departments there were 632 treatments and 128 operations, and seventy-six operations were performed in the operating room.

The superintendent of nurses reported sixty-eight on the nursing staff. Classes were to commence soon. Miss Rheta Wilson was recommended for a bonus on graduation and had accepted the position of head nurse on third floor until December. The recommendation was approved.

The visiting staff reported only three cases of typhoid and considered the smallness of the number might be due in some degree to pasteurization of milk. There were many diabetic patients receiving treatment. The accommodation for surgical patients was insufficient, making it necessary to discharge some patients before it was altogether advisable. The staff asked that inquiries should be made into the cost of electrical therapy apparatus and a committee was appointed for this purpose.

The visiting doctors undertook to help out while the four internes, Drs. Chesley, Chestnut, Evans and Inches, were in Montreal taking the Dominion medical examinations. If a stenographer were provided to take case records. This was agreed to.

The social service nurse reported seventy visits, seven cases referred to other care, and through the efforts of the Women's Hospital Aid, funds had been secured to send a boy to his home overseas and a girl to her home in Nova Scotia.

The internes were granted leave of absence to go to Montreal. Dr. Thur-

## DEFY GRAY HAIR

NO matter what your age, gray hair grows on you old. If at 20 or 40 your hair has grayed, "Brownatone" will be your greatest boon. "Brownatone" is a woman's best friend in preserving the "look of youth." It has restored dull, faded hair to its natural color, and has bleached hair to any shade of brown or black. ## Make Better Porridge in a Quaker Double Boiler

It preserves the Oat flavour It does not burn

Worth \$2.50

You can get it FREE

Porridge never burns when cooked in the Quaker Oats Double Boiler. It retains all the flavour of the oat.

Quaker Oats are milled from only the plumpest, best flavoured grains—and their rich, distinctive flavour is preserved for you by the sealed carton. This delicious oat flavour is brought out best when Quaker Oats are cooked in the Quaker Double Boiler.

To make it easy for every user of Quaker Oats to get a good double boiler, we place a coupon in every carton of Quaker Oats. By saving the coupons, you can get, free of all charge, a two quart cooker made of the finest aluminum. Each coupon gives full particulars.

## Quaker Oats Are Unrivalled

Quaker Oats have a flavour that is unrivalled, because they are oats of unrivalled quality. They are the cream of the oat crop—sifted in the milling until none but the plump, well-flavoured grains are left. All puny, or imperfect grains are discarded. In the milling process, all bothersome hulls are taken away. If you have been using other oats, try Quaker. You will learn how much better porridge can be. Remember that Quaker quality is to be found only in the Quaker carton. Insist on getting it.

## Thousands in use

Thousands of housekeepers are now using the Quaker Double Boiler. They are delighted with it. Here is a letter typical of many received: "I certainly was delighted with the Quaker Double Boiler. I always use it for cooking cereals, and other things as well. I find so many uses for it." (From Lingan, N.S.)

The Quaker Double Boiler can be used for every stewing and boiling purpose. It is a splendid article of kitchen ware. It costs you nothing. Order a package of Quaker Oats and start saving the coupons to-day.

Large package 30 cents; enough for 30 breakfasts
