# Use the GILLETTE With the Angle Stroke Jack-knife—draw-knife—plane—scythe—lawn-mower—all edge tools cut cleanest and easiest with the angle stroke.

The angle stroke was the only thing that made the old open-blade razor possible—except as an instrument of torture.

Yet many men use the GILLETTE like a hoe and expect it to cut clean and easy. The superb quality of its cutting edge is proved by the fact that even when used in this way the GILLETTE gives a good shave.

But to get the real satisfaction which the GILLETTE is capable of giving you, you naturally must use the angle stroke. Then you will know and appreciate the genuine luxury of the clean, cool, comfortable, easy three-minute GILLETTE shave. Buy a GILLETTE and enjoy it—if you haven't one already. If you have one now, use it right and enjoy it to the full

Standard Sets \$5.00 - Pocket Editions \$5.00 to \$6.00. At your druggist's, jeweller's or hardware dealer's.
