is not anticipated that there will be a dominion government contribution. The ministers had the question under consideration in council yesterday, and it was decided to be guided altogether by imperial precedent. In the past the home government has never made a direct contribution to an Indian relief fund, relying solely on local works and voluntary contributions. The department of trade and com-Rica has given notice of the denunciation of sections 5, 6, and 7 of the treaty of commerce and friendship, whch has been in existence since 1849 between Great Britain and the republic, and which applies to all the British colonies: Section 5 is the most favored nation clause and its abrogation will mean that Costa Rica is depriving herself of our tariff applicable to the articles mentioned in the French treaty. Advices received from Portland, Me. indicate an extraordinary concession on the part of Hon. Mr. Davies, minister of marine and fisheries. For three or four years the fishing schooner Sir Knight, of Rockland, Me., has been upon the Canadian black list for violation of the fishery laws. She has been kept out of Canadian waters since, fearing seizure, but evidently the owners are tired of this and have succeeded in inducing the minister of marine and fisheries to restore the vessel to good standing by the pay-ment of a nominal fine of \$100. This action on the minister's part is surprising when it is borne in mind that other United States fishing vessels have been far more severely punished, and not inadequately so, for less grave offences than those of which the Sir Knight was guilty. For instance, a year or two ago the schooner John I. Nicholson was fined \$400 simply for putting a man ashore. If Hon. Mr. Davies thinks he is going to pave the way for a reciprocity treaty by leniency of this kind, he is greatly mis-
