

DR. BELL TALKS OF SUMMER'S WORK

Age of the Flying Machine
Has Come, He Says

No Longer a Question of Invention but
Improvement—Will Remain at
Baddeck for Some Time.

HALIFAX, N. S., June 2.—"The age of the flying machine has come. It is no longer a question of invention, but of improvement, and I have no doubt that this year I will succeed in flying my kite with a motor attached. This year I will endeavor to lift a man and a motor with my kite, and I shall remain at Baddeck until I see the machine in the air," said Dr. Bell.

Dr. Bell, who arrived on the Plant line from Boston tonight, en route to his summer home in Baddeck, N. B., was accompanied by two of his assistants. He has spent the winter in gathering materials for his experiments, which will be resumed at once. The new and very light motor and seven thousand tetrahedral cells will be used.

BROTHER AND SISTER ARRESTED AS ELOPERS

French Police Thought They Were Going
Across to England to Get Wed.

PARIS, June 1.—M. Georges de S., a wealthy Parisian living in the Rue de Longchamp, is very indignant at the treatment received by his nephew and niece, aged respectively 17 and 19 years, while on their way to England yesterday.

ARBITRATION EFFORTS WILL BE FUTILE

NEW YORK, June 1.—The Trans-Atlantic steamship lines made it plain last night that efforts to get them to compromise with the striking "Longshoremen" will be futile. It had been reported that both sides were willing to arbitrate. To set the question at rest the following statement was issued on behalf of the lines: "On Wednesday, May 29, five former longshoremen called on the officials of the International Mercantile Marine Company, who were definitely informed that the company would not accept any conciliation or compromise, but that if any of their old employees wished to return to work at the wages in force before the strike such of them as could now be used would be re-employed." This statement it was said applied to all the thirty-five lines which have decided to resist the strike.

Last year the Kirk of 1200 cells was successfully down by Dr. Bell, who with 7000 cells expects to have no difficulty in lifting his motor, which weighs one hundred and twenty pounds. Dr. Bell is confident of making many improvements in his flying machine this summer. He leaves for Baddeck tomorrow.

ANNOUNCEMENTS FOR SECOND HAGUE CONGRESS

Practically Nothing Has Been Worked Out in Advance,
but Proceedings Will Follow Those of First Conference -- Great Britain Careful in Dealings with Germany.

THE HAGUE, June 2.—The plan of the proceedings at the second peace conference probably will closely follow the procedure of the first congress held in 1899. Practically nothing has been worked out in advance. The Dutch government, realizing the representation of the forty-six powers who will assemble here June 15, must be the complete masters of the situation, has refrained from in any way attempting to control or arrange the programme or method of procedure. It simply offers its possibility to the conference. The same is true of the Russians.

It is safe to assume, however, that the general line of procedure of the former conference will be duplicated. The first thing in order will be the appointment of committees to consider the various subjects inscribed upon the Russian programme. These will hardly number more than five. Unless the question of reduction or limitation of armaments is injected into the proceedings at the outset, in which event the main struggle may be at once precipitated, the plenary body will probably not meet again for ten days or a fortnight in order that the plenipotentiaries may have an opportunity to prepare reports for submission. In general it is not expected that the conference will meet more than once a week until the work of the committees justifies more frequent sessions.
