HOPEWELL HILL, March 18 .- Nathaniel Peck, a well known and respected citizen of Riverside, and one of the oldest residents of the parish, passed away last night, aged 88 years. Although suffering from the physical infirmities of age for some time, Mr. Peck retained his mental faculties to a marked degree, and took an active interest in affairs until very lately. The deceased was a son of Reuben Peck, one of the early residents of Hopewell, his brothers being Albert, who died many years ago, and John, whose death occurred a few years ago at an advanced age. He is survived by his second wife and two sons. Edson E. of Hopewell Cape and Reuben of Washington State, children of his first wife, who was a Miss Calhoun of Hopewell. Mr. Peck lived all his life this parish, except three years which he spent, when a young man, in Australia. He was a man of more than ordinary intelligence, a life-long temperance man, and a very regular attendant at the services of the Baptist church at this place, to which he belonged. The funeral will take place

SACKVILLE, March 20 .- The Tribune Co. purpose putting up a hand-some brick building in the early spring and plans are now being prepared for it. It will be situated on Main street. CARTER'S FOR HEADACHE. FOR BILIOUSNESS. FOR SALLOW SKIN. FOR THE COMPLEXION

OURE SICK HEADACHE.

A RIGHT WAY and A WRONG WAY

Many people have many ways to bring about the same result. Most of them are mistaken ways, but this is not known until the test of time points plainly to the error. Practically there are but two ways to accomplish anything; a right way and a wrong way. Take, for instance, a man with a bad back, there are lots of them, and of various kinds, some with stiches and twitches, others with cricks and twinges; then there's the dull, heavy continuous kind that lasts all day and doesn't sleep at night. They're all bad enough, they're all hard enough to get rid of. Some people rub the back with liniment, others cover it with plasters, either or both means often bring relief, but the pain comes back—it's the wrong way to cure the trouble.

DOAN'S KIDNEY PILLS

have a way to cure backache, a way that's all their own—the right way. They're made for the kidneys only. When the kidneys fail in their work of filtering the blood the back aches because they are situated in the small of the back; backache is the kidney's warning of trouble, and every day you let the warning go it brings you nearer to urinary disorders, Diabetes, Bright's Disease, etc.

Doan's Kidney Pills cure every form of kidney ills and that's why they bring such quick relief from bachache. Mr. Fred Gray, Good Corner, N.B., writes: "I was greatly troubled with pain across my back. I procured a box of Doan's Kidney Pills, and received so much benefit from them that I consider them the best remedy for kidney trouble there is. I would not be without them in my house."

Price 50 cents per box or three boxes for

EXTENSIVE MUTINY AT SEBASTOPOL

Is Sensational Report Which Reaches St. Petersburg

Sailors Said to Have Massacred Their Officers—Fortress Fired Upon the

City—Story Doubted.

ST. PETERSBURG, March 20 .- Most ensational reports are current tonight that the execution of former Lieuten ant Schmidt, which has made a deep impression throughout Russia, has een followed by an extensive mutiny of sailors at Sebastopol, the massacre of their officers and the fortress firing upon the city. The truth of the story is doubted, this being the "psychologial moment" for the appearance of such wild reports. No press despatches confirming the story have been received, but if the report should prove to be true, the absence of these might be accounted for by the imposition of a censorship

The alleged news came in the form of two cipher telegrams to a prominent member of the social revolutionary party such as the revolutionaries have sometimes been able to transmit through accomplices in the telegraph offices when the public, and even the government, have been unable to communicate. As translated and displayed at the

offices of radical newspapers here, the telegrams say briefly that the sailors, infuriated by the refusal of Emperor Nicholas to pardon Lieut. Schmidt, and their fellow sailors, rose in their barmajority of their officers. The despatches add that the city of Sebastopol

SENSATIONAL BANK ROBBERY IN MOSCOW

One of the Largest Institutions of Ancient City Broken Into by Burglars.

MOSCOW, March 20.-The Credit Mutual, one of the largest banks in Moscow, was mysteriously robbed by masked men at dusk tonight, the robbers securing \$32,500. It was an extremely daring job. The facts already developed raise the suspicions that the robbery was committed by or under the direction of someone at present or previously employed in the in stitution. The bank is situated in Ilinks street, in the heart of the city. The last of the clerks had just departed, leaving an inside guard of three men, while under the porte chere outside were a policeman and the house porter. The street was crowded with people hurrying homeward. According to the story of the guards, in the twinkling of an eye they were confronted with revolvers in the hands of twenty masked men ,who had entered silently by the main door, which had been locked when the office force left. After a command to the guards to hold up their hands not a word wa spoken. The guards were quickly ound and gagged and thrown into a dark corner. The robbers then took up positions at all the entrances and the curtains of the windows were lowered. The chief of the robbers, who directed the operations of his associates by gestures and without speaking, showed thorough familiarity with the location of delay. You'll feel stronger, eat heartthe vaults. When all was ready he went to the heavy, burglarproof safe gain more in weight. and, with a few whirls of the knob Mr. Ed. MAKES A RECORD IN BUSINESS LIFE

Stephen J. Lauckner in the Same Stand 52 Years

And Was a Partner With His Father for a Long Time Before That-Who Can Beat This Record ?

Probably the man who has been in ousiness in St. John for the longest period of time is Stephen J. Lauckner, of 119 Sydney street, and not the least interesting point in his history is the fact that he has occupied the same premises for no less than 54 years. Mr. Lauckner will, on the 2nd of May, celebrate his 80th birthday, and he has been in the baking business for practically his whole life His parents settled in Halifax after

coming from Germany, and some time later removed to St. John. Here the elder Mr. Lauckner became an apprentice in the belief the transfer became an apprentice in the baking business with Mr. Gables, who occupied the corner now known as Scribner's on the north side of King Square. When Stephen J. Lauckner was quite a young boy his father started in business in the block on the northern corner of Horsfield and Charlotte streets. This was then a Catholic hall, and was the only meeting place in St. John for members of the Catholic church. As young Lauckner grew up he became more and more acquainted with the business, and in 1852, he and his father moved to 119 Sydney street. The elder Mr. Lauckner died a few years afterward, and the son has since caried on the business He is still the head of it, and personally attends to all the details, although within a few weeks of the four-score mark.

Mr. Lauckner tells that the building he is in at present is only the third that has been occupied by either himself or his father. The premises they first occupied on Sydney street were burned in the fire of 1877, and Mr. Lauckner lost about \$10,000. He had no insurance. He laughs when he tells of how he expected to save all his butter and lard. It was the general impression that the Victoria school would not be burned, and this building was filled full of furniture belonging to people whose places were threatened. Mr. Lauckner also allowed himself to be fooled, and caried over about \$1,800 worth of butter and lard to the school, piling it up against a side wall. He afterwards watched it running down the gutters to Courtenay Bay. George Nixon, the King street paper

dealer, has been in business for fiftyone years, but Mr. Lauckner had been a partner with his father for six or eight years before Mr. Nixon started in

dons Law to Push His Invention.

F. A. Harrison, lately of the law firm of Powell, Bennett & Harrison of Sack ville, was in the city yesterday. Mr. Harrison has invented an adding cheapness, will, it is said, surpass anything which has so far been placed upon the market. The machines will be manufactured in Newark, N. J., and this morning Mr. Harrison leaves for that city to superintend their manufacture. The capital for the enterprise Mr. Harrison secured in Montreal and Newark.

In speaking to the Sun, Mr. Harrison said that he has been working on HOW THINGS ARE GOING this invention for years and believed that it would prove a success. He has also a number of other inventions more or less complete, and will turn his attention to experimenting process with these as soon as he has the present enterprise well under way.
