

News Summary.

A distinct earthquake shock was felt in Malone, N. Y., Wednesday evening.

Prof. Charles Elliot Norton has retired from active service as one of the faculty of Harvard University.

It is announced in London that the Duke of Leeds will most likely be Lord Aberdeen's successor as governor general of Canada.

The dwelling of John Hargrove, farmer, of South Lake, Sunbury county, was burned with all its contents Sunday morning.

The United States is taking up the case of Dr. Cornelius Herz, who has a claim of \$3,000,000 against France in connection with Panama canal matters.

Arthur Zimmerman, former champion bicyclist of the world, lies nearly at death's door with the deadly Mexican fever, at Freehold, N. J.

Loaded with wealth, but deserted and starving, John Rochel, once a well-known manufacturer in Sioux City, perished last April on the trail between Dawson City and Dyea, Alaska.

Serious riots occurred Wednesday at Multan, India, between Mohammedans and Hindus. Knives were freely used and 36 persons were more or less seriously injured. Many arrests were made.

At the trial in Montreal on Tuesday of Detective Kellert, accused of stealing letters from the residence of Lieut. Carranza, late military attaché of the Spanish legation at Washington, Miss Madon, servant, identified Kellert as the man who visited the house just previous to the missing of the letter.

Triuro News says: The contractors are rapidly pushing the work of the construction of the Midland railway from the Windsor end. Contractor O'Brien has the first 20 miles; and is at work, and Mr. Rogers, who has the next ten miles, will soon have his men at work on his section. Local contractors have secured contracts on other parts of it.

Owing to the heavy ice floes on the north coast of Newfoundland that section has been blockaded for weeks past. Vessels laden with provisions have been unable to reach there and the people are almost destitute, having used all the winter's supplies. The condition of things is unprecedented in the history of the colony. The government is forwarding relief.

The Senate remained in secret session for three hours Tuesday. The entire time was given to a rather free discussion of the Hawaiian question based on a motion declaring it to be the sense of the Senate that the question of annexation should not be discussed in open session. At the conclusion of the debate the Senate voted viva voce not to pursue the subject further except behind closed doors.

In April, 1861, while on the way to the front at the opening of the civil war, the Sixth Massachusetts Regiment was mobbed at Baltimore and subjected to a fusillade of bullets and paving stones. Four men were killed and forty wounded. On Sunday the same regiment again passed through Baltimore on the way to the front. It was greeted everywhere with cheers, and girls on the line of march pelted the soldiers with flowers or blew kisses to them. The blue and the grey are blending.

The enormous proportions of the agricultural exports of the United States are shown in the fact that they already in the present fiscal year have reached the amount of \$720,000,000 in value. In the whole of the previous year the sum attained was \$683,000,000. As there are two months of trade this year yet to be taken into account it is estimated that the full valuation will be \$850,000,000. This is \$300,000,000 larger than exports of 1896, and it is about 71 per cent. of the total exports of the country.

Dr. Hermann V. Hilprecht, of the University of Pennsylvania, who has just returned from the site of the ancient city of Nippur, in Babylonia, where his archaeological labors have been so successful, while in Constantinople visited the Sultan, who gave him many valuable antiquities and invested him with the Osmanli decoration. The Sultan, indeed, is so well disposed to Prof. Hilprecht and his work of excavating the ruins of ancient Babylon that the University feels encouraged to continue the researches on an even greater scale.

In order to answer the thousand-and-one questions that people are asking in these days about the Philippine Islands, the Review of Reviews for June contains two valuable illustrated articles, one giving the observations of a very recent American visitor to the islands, Mr. Joseph T. Mahan, and the other, by Mr. Charles Johnston, late of the Bengal Civil Service, on "The Philippines in History." The relatives and friends of the thousands of young American volunteers who will shortly be called to serve in that distant part of the world, will be interested in what these writers have to tell about the islands and their inhabitants.

Summer tours by the Canadian Pacific Railway—We have received from the Company a copy of their summer tour book for 1898. Tourist tickets advertised therein are on sale from June 1st to September 30th, and are good for passage until October 31st. For the public these books are divided to show tours to the central portion of their line, viz., Quebec and Ontario, to the Maritime Provinces, to the Lake District, also across the continent to Banff, the Kootney District and the Pacific Coast. Anyone contemplating a trip during the summer will do well to procure a copy giving rates and routes to the points they wish to travel. Address correspondence to A. H. Notman, A. G. P. A., C. P. One of the last of the "wooden walls of Old England" is doomed. The Admiralty has given orders for the sale of Her Majesty's ship Nelson, which has been lying in the harbor of Melbourne for many years past. She has been afloat since 1814, and was at that time the largest English line-of-battle ship. Her figurehead is an admirable bust of Lord Nelson, with underneath an artistic scroll displaying the Trafalgar signal, "England expects that every man this day will do his duty." In the sixties the Admiralty lent her to the colony of Victoria for defence purposes. According to the Melbourne papers the oak of which she is built is as sound as ever.

A Wonderful Letter

From a Grateful Man.

Paine's Celery Compound Saved His Life.

Physicians, Medicines and Mineral Springs Failed Him in His Time of Need.

A Prominent Druggist Vouches for the Truth of Every Statement.

WELLS & RICHARDSON CO.,

GENTLEMEN—I think it my duty, without solicitation from any one, to write in the interests of other sufferers, and give you a testimonial in favor of your (to me) almost miraculous remedy, Paine's Celery Compound. For more than a year I was suffering from the agonizing pains of sciatica, and after trying all that medical skill could devise, and using many remedies, patent and otherwise, I concluded to try the Hot Springs at Banff. I took the treatment thoroughly and carefully for six weeks, and came home at the end of that time racked with pain and weighing 43 pounds less. At this juncture, when hope had almost fled, I heard of Paine's Celery Compound. It seemed suited to my case, and I sent to my druggist, Mr. J. W. Higginbotham, of this place, and asked about it. He recommended it to me, and I took a bottle. I soon began to feel better, and after taking the second bottle I was a cured man and threw away my crutches.

I keep a bottle on hand in case of any return of the complaint. I am now 53 years old, and I feel as spry and healthy and free from pain as I ever did in my life. I was born in Norfolk, England, and came to Canada when only 3 years old. I was brought up in the township of Cornwall, Ontario, and came to Manitoba eight years ago. Have always been a farmer, and am as able to do hard work now as ever I was.

With a heart full of gratitude for the benefits derived from the use of your remedy, and a wish to influence others who may suffer, I gladly and freely indite this letter.

Yours gratefully,
JAMES LEVERINGTON,
Virden, Man.

Mr. J. W. Higginbotham, the successful and extremely popular druggist of Virden, vouches for Mr. Leverington's statements, as follows:

I have known Mr. Leverington for two years or more, and can confirm what he says in regard to his cure by Paine's Celery Compound. Ever since his cure he has been sounding its praises, and he is a perfect enthusiast on the subject of Paine's Celery Compound. I believe him to be thoroughly reliable.

J. W. HIGGINBOTHAM,
Druggist.

Fat is absolutely necessary as an article of diet. If it is not of the right kind it may not be digested. Then the body will not get enough of it. In this event there is fat-starvation.

Scott's Emulsion supplies this needed fat, of the right kind, in the right quantity, and in the form already partly digested.

As a result all the organs and tissues take on activity.
