FASHIONABLE WEDDING EARLY THIS MORNING

Frank J. Likely and Miss Bessie Armstrong United in Marriage in St. John's (Stone) Church.

A pretty wedding was solemnized this morning at 6 o'clock in St. John's (Stone) church, when Rev. G. A. Kuhring, pastor of the church, united in marriage Frank Jordon Likely, son of Joseph A. Likely and Miss Bessie Fiske Armstrong, daughter of Col. and Mrs. A. J. Armstrong, of Wellington Row. The ceremony was performed in the presence of the immediate relatives of the bride and groom.

The bride, who was given away by her father, looked charming in a travelling suit of Copenhagen blue, wearing a hat to match and carried a bridal bouquet. She was attended by her sister, Miss Bertie N. Armstrong, who wore a white serge costume, black and white hat, and carried a bouquet of yellow chrysanthemums. The groom was supported by his brother, J. Gordon Likely.

After the ceremony breakfast was served at the home of the bride's parents. The young couple left on the Boston train for Boston, New York and other American cities. On their return to the city they will reside at 86 Duke street.

The popularity of the bride and groom was attested to by many beautiful gifts. Among the remembrances was a handsome piece of bronze statuary from the City Union of the King's Daughters of St. John.

CITY COUNCIL TRANSACTED ROUTINE BUSINESS ONLY

Yesterday's Session Short and Comparatively Unimportant —To Use Exhibition Building for Warehouse Purposes.

At the meeting of the Common Council yesterday afternoon it was decided to require holders of permanent booths in the exhibition building to pay rental and to let at a small charge space in the building for warehouse purposes. Commissioner McLellan was authorized to buy feed for the fire department in quantities as required to the end of the year. Most of the business was of a routine nature.

Com. Schofield presided, and there were present also Com. Agar, Com. McLellan and the Common Clerk. After the adoption of the minutes the report of the Commissioner of Public Safety was read as follows:

Public Safety.

He reported that the feed supplies for the fire department were nearly exhausted and it is necessary to purchase further supplies. He recommended that he be authorised to make such purchases to meet the immediate requirements, and that the unexpended balances in the fire department appropriation be transferred for such purposes as the commissioner may consider necessary.

Com. McLellan said that oats had been delivered in too large quantities and that about 150 bushels had spoiled this year. He did not think the price obtained by tender warranted the acceptance, and thought he should be permitted to purchase for the balance of the year as needed. He said that while there might be twenty-five or more bushels in one station, there might be only one bushel at another, and his recommendation was adopted.

He also recommended that he be authorized to make a charge for warehousing space in the exhibition building, on the basis of the following rates:

Machinery Hall—5 cents per sq. ft.

Main floor—3 cents per sq. ft.

Balcony—2 cents per sq. ft.

and that the holders of permanent booths in the said building be charged accordingly.

Com. McLellan said that warehouse space was lacking in St. John, and he thought the proposed charges would yield sufficient revenue to pay the annual repairs on the building. He had written to holders of permanent booths, and one firm had replied that they would be glad to pay the rental.

The recomemndation was adopted.

Harbors, Ferries and Lands.

The commissioner of harbors, ferries and public lands reported that he had entered into an agreement with John A. Adams the contractor for planking a portion of the area between Saint John street and the Pettingell warehouse, so as to take in the whole of the area between said street and warehouse, at the price named in his contract, namely: seventy-five cents per square yard, and he asked that his action be confirmed. This was agreed to.

Water and Sewerage.

The commissioner of water and sewerage recommended that $118.14 expended on repairs to the Aboideau at the Marsh Creek be charged to the Aboideau account and that in future the maintenance of the Aboideau Creek be placed under the control of the commissioner of public works, but the expenses in connection with such maintenance be borne equally by the departments of public works and water and sewerage.

He also recommended that the Builders Iron Foundry, Providence, R. I., be paid $470 balance due on Venturi meters purchased by the city and that catch basins be put down on Hammond street and on old Dorchester street extension in the rear of the Phoenix Foundry.

All sections were adopted.

A letter was read from the recorder stating that in his opinion there was no legal objection to changing the name of the Marsh Road to Rothesay Avenue, and on motion of Com. Agar it was decided to give notice of the intention to change the name of the street.

Privileges Asked For.

Joseph Wiezel, Union street, wrote asking for permission to erect an electric sign in front of his store.

Com. Schofield thought they should be careful about according permission in order to prevent the possibility of erecting objectionable signs.

Com. McLellan thought the objection to signs some years ago was their dangerous character. He could see no objection to properly constructed illuminated signs.

The matter was referred to the engineer.

Allison and Thomas requested permission to erect a lamp post in front of their office like that of the McAvitys. The matter was referred to the general committee.

Oak is Scarce.

Com. Schofield said his department had called for tenders for oak for sheathing the piling of the ferry floats but had received no replies. He had made efforts to secure the material in other places, but had been unable to do so. He was sorry, but the work would have to lay over for the winter.

New Bye-Laws for Hackmen.

Com. McLellan said he was having new bye-laws governing hack driving in the city, and would submit them as soon as possible to the consideration of the commissioners and then to the hackmen. He was satisfied the hackmen intended to comply with the bye-law requiring them to carry lighted lamps after Nov. 1, and in view of the increased cost of horses, carriages and maintenance, he felt they should be allowed to charge higher fares. He would take the earliest opportunity of getting the amended bye-law through the council, so they could enjoy the new rates.

Council adjourned.

"DOKEYS" HOME AFTER FINE TIME IN HALIFAX

Members of Dramatic Order Knights of Khorasson Electrified Haligonians by Unique Street Parade.

After a very enjoyable time in Halifax members of the Dramatic Order of the Knights of Khorassan, Adela Temple, returned to the city yesterday morning. The party landed in Halifax on Sunday morning, and in the afternoon were given a drive around the town by the Knights of Pythias, and were shown the old citadel, the yacht club, and the public gardens.

On Monday after the Herald road race, they held a parade through the principal streets. There were 175 in line, and the various features were of a very interesting character. At the head was the band. Then came an auto bearing the royal vizier, R. S. Ritchie and the imperial nawab, followed by divan of Adela Temple in gorgeous costume. Next came a group of oxen, drawing a huge cage, containing a goat and two candidates. After this feature came a life-sized camel, dragging 65 candidates roped together by a ship's hawser. A band of Arabs followed, and then came a barouche containing John Beamish, founder of the K. of P. in Canada, George E. Ritchie, 1st Halifax Dokey, and Frank Marr, P. C., of Halifax. Members of Adila Temple, arrayed in full regalia, brought up the rear.

All along the route the streets were lined with people who testified enthusiastically to their appreciation of the spectacle. A cinematograph took a panoramic picture of the parade as it passed Dalhousie College campus, and the pictures will probably be shown here.

After the parade a luncheon was served at the Y. M. C. A. rooms, and the ceremonies incident to the exemplification of the degrees were started at 2 p. m. and continued till six o'clock, 65 victims being taken on the journey across the desert. That gave them a huge appetite, and the banquet in the evening was much enjoyed.

Those in the party from St. John were: R. S. Ritchie, Max Ross, E. W. Bonnell, J. Beamish, K. F. Bonnell, James Moulson, S. C. Young, Alex. Corbett, F. W. Munro, Robert Slipp, G. M. Johnson, A. C.
