"Eddie Collins" versus "Nap" Lajoie

Comparing the Second Basemen

When "Connie" Mack sold his star second baseman, "Eddie" Collins, to the White Sox for almost enough money to make up the Athletics' losses of last season he chose Lajoie, one of the oldest players in point of service in the game to-day, to hold down the keystone sack for the Athletics, declaring that a change of surroundings would greatly benefit the Frenchman. A comparison of the work of these two stars from the opening of the season through April 23 therefore is interesting. Collins took part in ten contests with this result:—Times at bat, 25; runs, 14; hits, 7; two base hits, 2; put outs, 15; assists, 25; stolen bases, 4; and error, 1. In eight games "Larry" performed thus:—Times at bat, 23; runs, 1; hits, 8; two base hits, 1; put outs, 13; assists, 20; no stolen bases and 6 errors. To a fellow in the middle of the road it would appear that Collins is several laps ahead and going fast.

er on Black's alleys last night.

In the first game they took three points from the Tigers, while in the second game they captured the four points from the Elks. This is the last game in the second series for the Ramblers who are in the lead. Tonight the Sweeps and Giants play and should the former team win four points they will tie the Ramblers for first place; failing to win four points the Ramblers capture the second series. The Sweeps won the first series and the prospect is that they will have to roll off with the Ramblers for the championship.

LARGEST SAILING YACHT

Boston, April 28.—A yacht of far more than ordinary interest is scheduled to be launched at the yards of George Lawley & Sons, of Neponset, Mass., tomorrow. The vessel was designed by Wm. Gardner & Co., of this city, for Alex. Smith Cochran, the enthusiastic yachtsman, who defrayed the expenses incidental to building and racing the America's Cup defence candidate the Vanitie last year.

The new yacht is to be christened the Sea Call, and she is the largest sailing yacht ever built in this country. She is a three masted schooner yacht, with a waterline length of 150 feet and an over-all length of 215 feet, while her beam is 32 feet 8 inches and she draws 18 feet.

The Sea Call will be equipped with a special interval combustion motor of eight cylinders and developing 400-horse power at 250 revolutions per minute. All materials entering into the construction of this sailing yacht and her motor are specially selected as being the very best for their respective purposes, and she will be the most important addition to the great fleet of American yachts in many years, bearing Cup Defence yacht.

The Sea Call is to be used by her owner for long off shore cruises and ocean racing. Mr. Cochran owned and raced the schooner Windward, which she started in European waters.
