

OFF

For the full amount you owe to, so that you can, if you will, go back to the club direct from here and pay every thing on one condition.

"You must promise to put your hand on my shoulder, and pledge your word that you will have no further dealings with him."

"But why should you do this for me?" the prince exclaimed. "I do not know what I shall ever be able to pay you."

"If you succeed to the throne, you will be able to pay me," the Baron de Grot said. "If you do not succeed, remember that I am a rich man, and that I shall make this one no more than the stipend which you might throw to a crossing-sweeper."

The prince was silent. His host unrolled a small book and took from it a pile of notes.

"Tell me the whole amount you owe," insisted, "every penny, mind."

"Sixteen hundred pounds," was the broken reply.

De Grot counted a little roll and laid upon the table.

"There are \$2,000," he said. "Listen, my friend, a name such as yours carries with it certain obligations. Remember that, and try to shape your life accordingly."

"Take my advice—go back to your own country and find some useful occupation here, even if you only remain your regiment and wear its uniform. The time may come when your country will require you, for his work comes sooner or later to very man."

"You are leading a rotten life over here. Life which might have led to disaster and dishonor, a life, as you know, which might have ended in your rooms tonight with a small bullet hole in your forehead. Have men do not like that. Take up the money, please."

The Baron de Grot sent a cipher despatch to Paris that night and received in answer which pleased him.

"It is a small thing," he read, "but it is well done. Particulars of a matter of grave importance will reach you tomorrow."

EXPENSIVE

Age are quickly settled. If the bolt has not already been lost, it ought to go on for ten days. Lost to the bolters, three thousand three hundred dollars. If Mr. Borden were to prove really stubborn, the period might be prolonged, and the cost extend to an appalling figure. The Herald knows that a great many Conservatives are openly, or secretly, distrustful of the Liberal Commissioners turned out and Conservatives put in their place, and rejoice that the bolters must be thrust to bolt. But we put it to them fairly. It is reasonable to expect the members to sacrifice three hundred odd dollars a day with little or no prospect of reimbursement for the sake of getting things well paid off for three possibly underserving persons? From our point of view it does not appear that the members are called upon to make any such sacrifice. It is true they have been made to look a little ridiculous, as they complain, but what is that beside the loss of fifteen dollars a day each, to which they will certainly be condemned if Mr. Borden has the nerve to call their bluff? Will they hold out? It is hard to believe they will.

Miss Annie Magill—Old rose silk poplin with black velvet trimmings.

Miss Amy Murphy—Champagne poplin with pale silk trimmings.

Miss Colwell—Receded green silk with coral trimmings.

Miss Frost—Pretty costume of rainbow silk.

Miss Ethel Armstrong—Wisteria silk.

Miss Hazel Crabbe—White silk with silver fringe trimmings.

Miss Gertrude Tibbitts—Cream pouce with pale blue trimmings.

Miss Alma Armstrong—Cream voile with peach colored velvet and touches of black.

MONCTON'S NEW CIVIC COUNCIL SELECTED

Moncton, Jan. 30.—Moncton had one of the quietest civic elections today in years, the absence of a majority contest contributing largely to this result. The contest for ward aldermen, however, was quite lively, and in one and two the vote was close for the second man. The following was the result, the first two highest being elected:

Alfred A. Large—W. K. Gross, 742; J. T. Forbes, 603; W. D. Martin, 453; Joe. Gardiner, 143.

Ward 1—S. A. Humphrey, 232; A. J. Tingley, 157; J. N. Boudreau, 145.

Ward 2—H. W. Price, 250; E. A. Fryer, 233; J. A. McLean, 227.

Ward 3—J. S. N. Brown, 214; B. Tuck, 109; F. E. Whelan, 138; Wm. Crockett, 118; J. W. Clarke, 102.

Frank C. Robinson was elected mayor by acclamation.

WANTED

A second or third class female teacher for District No. 11, Simonds, St. John. Co. Apply to Leonard Parker, Box 10, Yarmouth Creek, N. B.

WANTED—A girl for small family at Rosethay. Good wages. Apply, Mrs. Andrew Blair, Rosethay.

WANTED—An experienced housemaid, with references. Mrs. T. E. G. Armstrong, 27 Queen Square, St. John.

AGENTS WANTED

RELIABLE representative wanted, to meet the tremendous demand for fruit trees throughout New Brunswick and present. We wish to secure three or four good men to represent us as local and general agents. The special interest taken in the fruit-growing business in this province offers exceptional opportunities for men of enterprise. We offer a permanent position and liberal pay to the right men. Stone & Wellington, Toronto.

SALESMAN WANTED

SALESMEN wanted for Nursery Stock, Seed Potatoes and Automatic Sprayers. Either or all. Cavers Bros., Ltd., Ont. 25-29-30

SPEAKS WELL OF

PROPERTY VALUES

HERE IN ST. JOHN

(From "Canada," London.)

The arrangement between the dominion and provincial governments for the building of the St. John Valley Railway, the forthcoming development of the port and harbor of St. John and Courtenay Bay, and the promised assistance of the federal authorities in endeavoring to divert some part of the stream of immigration to the maritime provinces are all factors which justify the optimistic views expressed by the journals of New Brunswick and Nova Scotia, irrespective of party, regarding the future of their provinces.

That Canadian capitalists share this faith is shown by the growing attention which they are giving to real estate in the winter ports. It is the man on the spot who has the chance of "getting in on the ground floor," and whatever may be said in criticism of real estate exploitation in some areas of the dominion, even the most conservative speculator

will not suggest that there has been anything like an overdue discounting of the future in the eastern gateways of the Dominion.

The work actually authorized and about to be undertaken in and around St. John alone will cause the expenditure of many millions of dollars during the next few years—money, however, to be spent upon work which must inevitably become immediately reproductive and permanently provide additional employment and greater facilities for interprovincial as well as for transatlantic trade and commerce.

In connection with the improvement of the harbor facilities in the neighborhood of St. John, it is satisfactory to note that the plans of a well-known English contracting firm, Messrs. Norton Griffiths & Co., seem likely to be adopted, while in other parts of the dominion where provision for larger vessels and expanding trade has now become an absolute necessity, it seems certain that other British firms will have a full share of the contracts to be given, and in all cases an absolutely fair treatment in the matter of tenders.

The Post also prints the following from St. John:

"The Consolidated Pulp & Paper Co., Ltd., is seeking incorporation, with \$500,000 capital, to erect a paper mill beside the large pulp mill at St. John. This C. P. Co. announced last week that the company had in contemplation further large expenditures for improvements at St. John."
