MONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A wast trial of its virtuee, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the addicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by white preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection gainst the early HOME TESTIMONY.
St. JOHN, N. B., March 26, 1873.

MESSES. R. C. MARGESON & Co.—Gentlemen: I have been afflicted with gravel and stone upwards of a year and a half—tried everything I could hear of for its relief, without avail; saw your advertisement of CALCULIFUGE in the Halifax papers—took three bottles according to directions, and in the short space of four weeks am entirely cured. I willingly add my testimony to its value, and heartily recommend it to all afflicted as I have been.

Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tending need this de.ence; and it is unwise to without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Cherry Pectoral is invaluable; for, by its timely use, multitudes are valuable; for, by its timely use, multitudes are valuable; for, by its timely use, multitudes are very medical from promature graves, and saved to the lave and affection centered on them.
