icals bring forward, too, the
that the Negro, being of a
group, will always be over-
by others. From the point
of the selfish elements this
true, and certainly it has
us for some time; but things
ways work out according to
ical calculations. In fact
icant developments in his-
never been thus determin-
ly the temporary and the
1 be thus forecast. The hu-
r is always difficult for the
t to evaluate and the pro-
f the alarmist are often up-
y should we expect less in
of the Negro?

we suggest that the Negro
ise in the business world,
, we do not desire that the
all accumulate wealth to
avishly in the destruction of
n as the richest people of
are doing. What we want
o to do is to learn by co-op-
o keep within the race suffi-
lth to life a larger number
dgers and provide sufficient
develop the unusual talent
ice. The desired wealth is
means to an end; and this
ted in adequate quantity wh
e opportunity to do things
ll be a greater contribution
acquisition of material things
h in turn may be the means
cing more wealth to serve
er good pupose. Fortunate-
Negro is more talented than
the fine arts, and he can

HOLD MASS MEETING
RE BAN ON COLORED
STUDENTS AT U.W.O.

A mass meeting was held in the B. M.E. Church on the no-non-white race shall enter the Western U. Mrs. Jenkins, Editor of the Dawn of Tomorrow, acting secretary for the evening, was also reinstated as secretary on the Offense Committee and Rev. Daly of the 1st Baptist Church, who was a speaker for the evening was reinstated in Rev. McNeil's place on the Board.

The first speaker for the evening, Rev. Daly, gave a splendid address encouraging our people to stand up for our rights in due respect to our white brethren. Congregational singing was indulged in. The second speaker, Lawyer Pitt then addressed the assembly.

Lawyer Pitt in his address claimed that there are times when we must speak and be heard. This is the time registering our protest against the ban set on the colored students in the Western U. Mr. Pitt Asked to be read again President For's statement Again he does not deny that there is a ban on our race. He, President Fox, claims there is no such legislation or any passed. Mr. Pitt claims he has proof that there is such and has just come to light. If not then why must a statement be sworn before an attorney that you are of a white race. The reason claimed by Mr. Pitt that this affidavit was asked for was because they woke up over night and found that which they expected to be white was not white.

The press says, and he, Lawyer Pitt says that he has evidence in his possession that it was through something happening in 3 or 4 years.

Referring to Dr. Hughes, he is from the same country as Lawyer Pitt, the West Indies of the British Empire. And if the Government knew of this act would it not resent it as it contributes to its needs. Mr. Pitt says no man should be judged by his color but by his qualifications. Nothing could be more inhuman than for any institution of education to shut the doors in the face of an educated race. Mr. Pitt says he, for himself, would not care to attend Western if it did not willingly welcome him there with open doors.

A University, a school, we look to them to raise up children and educate them. If we are to have instit-

utions that put in the minds of boys and girls superiority and tries to put Christianity in the same atmosphere it is impossible. The same boys who heeded and took up the cause of the Empire and helped make it safe for democracy then we must make the school safe for democracy. In conclusion Mr. Pitt encouraged the race to go on and not slip back at this time. He also presented a resolution to be sent to all those concerned and to every newspaper where our people are, to be published and a copy to be submitted to the government notifying them of the conditions that exist in the Western U. so they will know our race will not lose time and thought of entering.

Questions on the Subject:

Mr. Williams asked: Are the requirements read by Mr. Pitt the original? Mr. Pitt: Yes.

Are the resolutions to be supported by the public or boy present? Mr. Pitt: yes, by both. I have grounds by which to go about to clear it up one way or the other.

Resolution read.

Moved by Mr. Hamilton and seconded by Rev. Daly that the resolution be accepted and supported. Carried. Question by Mr. Hamilton: Is this due to citizens of Canada or otherwise? Dr. O. A. Proctor. As a citizen, anything that affects one of us affects the whole race. The American Negro is not particular about going to Canadian Universities. They have a splendid field in the U.S.A. to choose from.

The rst operation to be performed on a heart and the patient live was performed by one of our Negro men, Dr. Dan Williams. You see what our race has taught the world and what this lone university is trying to do to cripple our race. I have been in practice for 7 years and have only had 4 objections. It is not the color. It is the qualifications. This color ban, if it exists, should be thrown out and we as a race should support the resolution.

Mr. Daly. This is one of the greatest things aimed at our people across the border. I want every one to know I am whole-heartedly in sympathy with the resolution. It is the first touch down in Canada and they mean to take away privileges ye have and Western does not want us there and the greatest word in the world is the race question.

Rev. Jackson in expressing his sentiments feels that if our people are to succeed it is now in the greatest swim Canada has ever known.

ORGANIZES COLORED
FORCES FOR DRIVE

Washington, D.C., Aug. — Declaring that Negroes could expect nothing from the Republican Party in the future, The National Democratic Negro Voters League, with Dr. F. O. Williston as president and James H. Howard journalist, as secretary, launched a campaign for a half million members.

Discussing the campaign Dr. Williston said that the present Republican administration had ignored the Negro and had catered to lily white in the effort to build up the party in the South. During the Wilson administration, according to Dr. Williston, there were 200,000 Negroes enrolled on the roster of the League and before the forthcoming election this number will more than reach the half-million mark.

"We have not asked the Democratic National Committee for one cent" said Mr. Williston, "but we will call upon the Negro Democrats throughout the nation for financial support.

SAYS YOUTH MUST BUILD

Guilford College, N.C., Aug. "The 'world tomorrow' must be built by the young people of all races, lending their united effort to solve the grave racial and economic problems that clutter up this 'world today.' The old people may tear down the war system, but it is up to the youngsters to establish a world of social justice; we determine whether these problems will be solved intelligently or whether the world will resort to force." With these words the Hampton Institute Peace Caravaners called on the Young Friends of North Carolina to face their problems of social justice with the open-mindedness of youth and the dynamic spirit of Quakerism.

MARKET EMPLOYS COLORED

Los Angeles, Calif., Aug.— When the third of the chain of big markets operated by E. P. Smith was opened here at 43rd street and Central Avenue, 15 colored persons were employed as clerks, helpers, and porters. Curtis Carpenter, former manager of the Lincoln theatre, is in charge of the storerooms.

DUKE ELLINGTON'S
CREOLE RHAPSODY

That incomparable master of jungle harmonies, Duke Ellington, is generally conceded to be the foremost colored orchestra leader in the world. So great is his influence that he has become the musician's musician," as they all come to hear him whenever he is within traveling distance. Never has such unanimous enthusiasm been shown anyone in recent years as that accorded the ever-smiling Duke. And, in the language of advertising, such popularity must be deserved.

But the one phase of his talent that is most likely to perpetuate Duke Ellington's name is his genius as a composer. The writer of "Black and Tan Fantasy," "East St. Louis Toodle-o" and "The Mooch" has been consistently mining out one musical gem after another, and when he produced the now famous "Mood Indigo" not long ago, the attention of the high-brow music critics was drawn to Ellington's work.

With the appearance of "Creole Rhapsody," Ellington's reputation as an American composer of importance becomes firmly established. In this composition he captures the spirit of the jungle and transforms it into a thing of pulsing beauty. Wild and barbaric as its rhythms may be, the "Creole Rhapsody" is musically correct in form and structure, and is considered by Ellington to be his crowning effort. The number has already been recorded by the major phonograph companies.

"GREEN PASTURES"
CLOSES IN NEW YORK

New York—"The Green Pastures" is now scheduled to end its long run at the Mansfield Theatre on Saturday August 29th at which time the Marc Connelly play will have reached its 638th New York performance. After a week's rest the all-star colored company, headed by Richard B. Harrison, who plays the Lord, will reopen at the Illinois Theatre, Chicago, on Labor Day.

The play, which was first presented here on Feb. 26th, 1930, was announced last spring to close on June 27th
