QUESTIONS AND ANSWERS. Miscellaneous.

WOOD AND MEALS.

A is an old lady living alone. She owns two acres of land and a cow, and by a little help from her neighbors is trying to get a fair living, and now, and for months past, has had no wood only what she could gather along the roadsides. B has plenty, but just lives wherever he can, and has for over twenty years been coming quite often and having meals, and has not given or offered anything for them, except just lately B has offered some wood if A could get someone to draw it, which was soon done. A does not ask B to come to the house, but B comes and splits some wood or cleans out the stable, and then steps into the house, and when the meal is ready, A tells B to sit in.

1. Can B, in any way, or any time, collect pay for the wood?

2. Can A collect anything from B for board?

SUBSCRIBER.

Ans.—1 and 2. From the statement of facts, it does not appear that A can collect anything for the meals. Whether B can collect anything for the wood will depend upon how it was offered. From the statement as submitted, we do not see that he can.

JAPANESE FERN—DEVELOPING VELOX PRINTS.

1. Will a Japanese air fern freeze during the winter if left in a room where there is no fire?

2. How should velox photo prints be developed so they will not fade? After they come out of the developer, I put them into a bath composed of hyposulphite of soda 1 ounce to 4 ounces water. I leave them in this for 15 minutes, then wash them. Is this sufficient?

3. Should the hypo soda be dissolved beforehand, and what proportions of it and water should be used?

SUBSCRIBER.

Ans.—1. If by "Japanese air fern" you mean the greenery usually sold in stores under that name, we may assure you that it may be left any place. Unless we have been misinformed, it is simply a sort of seaweed, and is quite disdainful of all such trifles as drouth or temperature.

2. The method of procedure stated is correct. Acid hypo, however, should be used, and is prepared as follows: Water, 64 ounces; hyposulphite soda (crystal or granular, 16 ounces). When thoroughly dissolved, add following, dissolving chemicals separately: Water, 5 ounces; sulphite soda (desiccated), 4 ounce; acetic acid, No. 8, 3 ounces; powdered alum, 1 ounce.

3. Use hypo as above.

HYPOTHEC.

A holds a mortgage, or, as it is called on the paper, obligation, from B to A. It reads: "B, of the township of —, farmer, hereby acknowledge myself to be indebted to A, of the township of —, the sum of two thousand dollars, payable in five years from date thereof, with interest at five per cent. per annum, payable annually, with interest on arrears of interest at the same rate, and for securing the payment of the principal and all interest that may accrue thereon as aforesaid, I hypothecate all that piece of land being known in Book of Reference, Township of —, Province of Quebec, under number —. As B has had the money on obligation three years now, and has not paid any interest, if it runs on for five years without him paying any interest, can I hold place for the principal and also all the interest. I have been told I could only collect two years' interest if I let it run, and he does not pay me any interest.

SUBSCRIBER.

Ans.—No, that would not be your proper course. You are entitled to sue, and, having obtained judgment, proceed for a judicial sale of the property, and to be paid out of the proceeds of such sale. But you cannot safely let the matter stand for the five years. You ought, rather, to place it in the hands of a lawyer now, in order that your interests may be properly safeguarded, and your claim realized in due course.

WRITE TO THIS WOMAN

IF YOU WANT TO STOP A MAN FROM DRINK

She Cured Her Husband, Her Brother and Several of Her Neighbors and Prompted by Her Restored Happiness, she Generously Offers to Tell You of the Simple, Inexpensive Remedy that she so Successfully Used.

For over 20 years the husband of Mrs. Margaret Anderson was a hard drinker, but nine years ago, by using a simple remedy, she stopped his drinking entirely. He has not touched a drop since.

MRS. MARGARET ANDERSON

She Will Tell You How To Stop a Man From Drink

The remedy can be given secretly, so there is no publicity of your private affairs. She wants every man or woman who has drunkenness in their home to write to her so she can tell them just what remedy she used. Hundreds have freed their homes from drink by using the information she gave them, but there are still hundreds of others who need and should have it, so we earnestly advise every one of our readers who have a dear one who drinks, to drop her a line to-day.

The proofs of the hundreds of really remarkable cures are too strong to be doubted or denied. Yet she makes no charge for her help, (she asks for no money and accepts none); so there is no reason why you should not write her at once. She only requests that you are personally interested in curing one who d-rinks. Send your letter with confidence to her home. Here is her address:

Mrs. Margaret Anderson, Hillburn, New York.
183 Home Avenue,
Note: (Write your full name and address plainly—do not delay.)
