No. 8.—SPHINX'S QUERY.

What one word expresses absence and presence at the same time?

PUZZLE.

In each of the following verses, find a suitable word to put at the beginning of the first line; prefix a letter to this word to make the first word for the second line, and, to the word so made, prefix another letter to make the first word for the third line. Proceed in like manner in order to make the words that are to be put at the ends of the lines. Then, in each verse, the beginning words will rhyme by themselves, and the ending words by themselves. Thus: If the first word of the first line were "rain," the second line might begin with "train," and the third with "strain"; and, if the last word of the first line were "asp," the second line might end with "rasp," and the third with "grasp."

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary troubles, and diseases arising therefrom, such as rheumatism, sciatica, lame back and lumbago, and we feel that the public are entitled to particulars concerning it.

A prominent physician states that the excellent results that have been obtained from the use of the mixture are due to its direct action upon the kidneys, assisting them in their work of filtering all poisonous waste matter and acids from the blood and expelling same in the urine, and at the same time restoring the kidneys to a healthy condition.

He further states that anyone suffering from afflictions of this nature will find it to be very beneficial, and suggests that it be given a trial.
