
Teaching Pictorially

LANTERNS LANTERN SLIDES LANTERN LECTURES

AFTER the Sermon or Lesson is over is there a feeling that the message has not "gone home"? Do you feel that your energy and ability have gone for naught?

TRY TEACHING PICTORIALY.

You know how pictures impress an idea on the minds of children.

"Grown ups" are all children where pictures are concerned.

Users of the Lantern or Moving Pictures are enthusiastic about the results from every angle.

We want you to write us about our different Lanterns and Safety Cinema. You will be under no obligation, of course.
