A Roof of Slate Never Attracts Lightning

Think of the risks—the fire losses—endangerments of life, stock and property that a roof of slate on your home, barn or out-buildings will forever eliminate.

Think of having a roof that lightning, sun, fire, water, snow, ice, or the action of air cannot affect—that cannot warp, crack, rust or decay.

Think of having a roof of natural rock, that is solid, enduring, ornamental; that lowers fire insurance premiums; increases property values; better the appearance of any building it covers and never wears out, and you must think of—

Sea Green and Purple Roofing Slate

The one roofing by which all patent or artificial roofing preparations are compared—by which the test of service and satisfaction of any roofing material is judged—is **Sea Green and Purple Slate**.

Don't allow the misleading low first cost of these cheap roofings to prevent you from having a roof that lasts forever—that will never need repairing. Specify Slate and settle your roofing problem for the balance of your life.

AGRICULTURE.

"I am highly satisfied with my recent course with you. The studies in the science of farming are very helpful. I especially enjoyed the paper on Diseases and Insects of the Farm, and consider this alone well worth the money," writes Fred. M. Haynes, Fullerton, Ont.

YOU CAN LEARN from us, at your own home in your spare time, Agriculture, Stock Raising, Poultry Raising, or any one of 100 courses of study. Tell us what interests you, and get full information.

Standard Wire Fence

Before.

In the "Standard" Wire Fence, you get the durability that comes with strength. Made of all No. 9 Hard Steel Wire, well galvanized—which means no rust and long wear.

"The Tie That Binds" hooks on the running wire and locks smooth on both sides.

Then—there's the Standard Steel Fence Posts that hold the wires without staples—won't rot and are very durable.

We make a specialty of Galvanized Gates, too.

Our new books are chock full of fence facts. Write for free copies and sample lock.
