We desire to state that the publisher of the RECORD is editor of the C. M. B. A. column, and is alone responsible for all that appears therein. Our purpose is to deal with all matters connected with the society in the fairest manner possible, and if our strictures bear heavily at times upon any officer or officers of the association, or upon the Sapreme or any of the Grand Councils, we will at all times give them ample space for defence.

An American Opinion,

An American Opinion. We publish below an editorial article and hast week's issue of the Catholic Knight, of Chevland, Ohio. It is useless to argue that the Supreme Council are blanneless in refer-ence to the course of the Week'y, in the face of the subsidized by the Supreme Council, and that the Supreme President, only a few weeks ago, decorated the editor with the title of 'Delegate at Large,' as a reward for his services. There thus appears to be a conflict of opinion between the editor of the Knight at the Supreme President, as to the posi-tion of the Week'y and its editor; for while the there holds him in the highest esteen, the fatter holds him in the highest esteen, the former calls him an "Officious meddler", who is "doing all be can to stir up strife supreme Council."

between the Canada Grand Council and the Supreme Council " In another column of this issue will be found an article from "Justice," deploring the appar-ent enumity of a leading member of the C. M. B. A. towards a large body of that organiza-tion. What makes the animus of the editor of the C. M. B. A. Weekly more apparent is the fact that he distorts and misrepresents the actions of those with whom he does not agree, thus doing a grave injustice to the entire organization. Verily the Supreme Council of the C. M. B. A. and the fair-minded members thereof can earnestly say. "Save us from our fool friends." The C. M. B. A. Weekly has been for a long time an officions meddler, and is doing all it can to stir up strife between the Canada Grand Council and the Supreme Council. If the supreme officers have any influence with the traveling publisher of that paper they should at once "call him down," and insist upon the attacks and foolish charges of his upon the attacks are dopish to a close. The local members of the association—those who believe in its motto of friendship and fraternity—are thoroughly disgusted with the course of the Weekly, which publishes ooly one side, and that distorted, of a contro-versy in which upwards of one hundred thousand Catholics are deeply and financially interested. Catholic societies are too often influenced

thousand Catholics are deeply and financially interested. Catholic societies are too often influenced and their members misled by tactics similar to those of the publisher of the Weekly. An honest paper will publish both sides of a con-troversy, or else remain silent altogether on the subject. When societies allow tricksters to steer their course and influence their actions, then, indeed, comes beginning of the end, and a very large sized clog has been wedged into the machinery of the organiza-tion.

The Knights of St. John have suffered in the past by such members, and the C. K. of A. has been three times robbed by dishonest officials. What we write we publish as of vital importance to the continued success of a grand and noble organization. To be silent would be criminal.

Editor of Catholic Knight :

Editor of Catholic Knight: Indice that Bro. Deare, of the C. M. B. A. Weekly, still continues his un Christian attempt to stir up dissension between the American and Canadian councils of the C. M. B. A. I cannot understand what good he ex-pects to accomplish by keeping up such a continuous blathering about matters that otherwise would in due time right themselves. The course of the Weekly is positively detri-mental to the best interests of our society, especially as the Canadians seem to be im-pressed with the idea that the Supreme Coun-cil is encouraging Bro. Deare in his attacks. As the Weekly is an "official organ, we can not wonder at the Canadians for possessing this feeling. But I cannot believe that the highest body in our society - a body supposed to embarce level headed, representative men —would stoop to such trickery ; and regard the whole business as a piece of Bro. Deare's intermeddling. Indice that Bro. Deare, of the C. M. B. A. Weekly, still continues his un-Christing attempt to stir up dissension between the American and Canadian comeils of the C. M. B. M. C. J. HICKEY, Supreme Recorder. Supreme Recorder Hickey seems to be very much annoyed in regard to our articles on "Beneficiaries Unpaid," and "An Injust-ice" which appeared in our issues of May 21, and June 11 respectively; but in his letter he has not successfully contradicted any statement we made. We stated facts: gave the names of a num-ter of members in Canada whose decease took place at least three months prior to the dates on which their beneficiaries were paid, and said that in nearly all the cases cited the Supreme Council had not fulfilled the require-ments of the constitution. To object in writing the artfeles was solely to endeavor to have the constitutional provisions carried out, and the defect rem-edied. The C. M. B. A. constitution, as also the Act respecting Insurance corporations in Ontario, requires the beneficiaries to be paid on or before sixty days after due notice. We have carefully examined the assess-ing of death have been received. We have carefully examined the claims within the constitution and again boasted of their responsibility to the beneficiaries, but it capacity on their part to have one of the fun-ternally violated. The on-payment of assessments Nos, 5 and for a few Branches has very little to do with

corporation and a member, contain nothing which would prevent such a fund being established.
 "They provide in substance for assessments being made upon members to raise a fund from which to pay to the family of any member on his death a sum not exceeding \$2,040\$.
 "The time and method of making the assessment, whether in advance or after the death ; whether on each occasion of a death or by including two or more death payments in one assessment, are matters of detail left entirely to the discretion of the corporation.
 "It may be suggested that this reserve fund brings the business of the corporation within the description of a life insurance business. I cannot see how it changes the business in any arcs. That is, deduction of 5 per cent. Is taken from a present assessment, to be used in place of a future one. To that extent ft anticipates it. SPENCER CLINTON." February 25, 185.
 "By motion of Bros. Mutholland and Toden."

The C. M. B. A. Weekly is weaving a very "tangled web" around the Supreme Council officers ; and the sooner they condemn the Weekly's tactics, and show the C. M. B. A. membership at large that the Weekly's edi-torials are erroneous, and that it has no right to speak for them, the better it will be for the association.

Supreme Recorder's Office. Brooklyn, N. Y., June 16, 1892. To the Canadian Membership: C. M. B. A. the Canadian beneficiaries. It appears that the purpose of the writer is to create an impression that such delay was due to the negligence of the officers of the

The rothe negrigence of the officers of the Supreme Council. It is not necessary for me to inform those who have carefully examined their assessment notices and my monthly financial statement, that such criticisms are entirely unwarranted. The following explanation may be necessary in order to satisfy those who do not make such examination, that there has been no unneces-sary delay in paying claims in Canada or elsewhere. All claims are paid in their regular order, provided the proper proofs and papers have been received—a fact which can be verified by checking the date of death on each assessment notice against the date of payment.

A great many of the branches in Canada are very slow in paying their assessments, the New York Legislature in 1890? Verily while others are prompt. If all would only we have watchful pilots across the border

tect our membership against fraud as the Supreme Council, but we likewise desire to protect the widows and orphans of our deceased brothers; and we contend that the Supreme Council should have demanded from their informant something more than his mere "asy so," before establishing such a dangerons precedent. It is all very well for Supreme Council officers, when their actions are criticised, to protest that they can rely on the Supreme Council to protect and promote their best interests." But actions speak loader than words, and we would remand the Supreme Council that the great majority of our Cana-dian brothers joined the C. M. B. A. for the benefit of their wives, children and heirs ; and the success of any such organization as the c. M. B. A. depends on the prompt pay-ment of the claims of the widows and heirs of its deceased members. Thickey says the death rate for the past five months has been nuusually high, in the the number of deaths required mearly three assessments a month, but that even two assessments a month is quite a burden. Yes, but instead of the Supreme Council dopting some means of lightening that burden (which will be continually gritting havier, judging from the twenty-one deaths in New York State appearing on the last assessment notice) they are actually endeasy-ing to make it heavier by increasing the Roserve Fund, thereby extending the theme at which the members can receive any benefit therefrom. If the limit of the Reserve Fund way left at \$250,000 the present membership might reasonably expect to drive some bene-fitsmit, in accordance with Section 11 of the Roserve Fund Article ; but if the limit be made one million five hundred thousand, how many of our members will derive any benefit mereased. church, in fact, was closed; the congregation locked out, and no Mass celebrated in the par-ish. When I came to the mission in Novemher, psei, there was a debt of over four thousand dollars to be met on the church, and consider-able repairs were needed. There was no pro-chial residence. There are only forty-five families in the mission able to contribute any-thing. The outlock was discouraging. The optihon was freely corressed that the church would never be paid for. I could not place the new burden of a residence on this poor people, and was compeled to board in a hotel for three years. Inspired by a holy zeal, and a desire to see the priest have a house, the congregation rallied, and made every effort that could be made by a noble and generous people to clear the church of debt and build a priest's house. A suitable residence has at last been built and modestly furnished, but if mid t absolutely im-possible to pay for it without appealing for ald to all our friends who sympathize with the struggling Catholics of Stayner. ties besetting his parish: Stayner. Ontario, March 17, 1802. DEAR FRIENDS.-I am making a final effort to clear the Stayner mission of debt. The church was built in Nr3, but the parishioners, most of whom are in poor circumstances, were unable to pay for it. Payment of the interest was almost all they could accomplish. The church, in fact, was closed; the congregation locked out, and no Mass celebrated in the par-ish.
