Some time ago there lived in Edinburg a well known grumbler, named Sandy Black, whose of ten-recurring fits of spleen or indigestion produc-ed some amusing scenes of senseless irritability. which were highly relished by all except the

brute's good, patient little wife. One morning Sandy rose bent on a quarrel; the haddies and eggs were excellent, done to a turn, and had been ordered by himself the previous evening and breakfast passed without the looked-for cause of complaint

"What will you have for dinner, Sandy," said Mrs. Black.

" A chicken, madam," said the husband. "Roast or boiled?" asked the wife.

"Confound it, madam, if you had been a good and considerate wife, you'd have known before

Sandy; "you know how it should have been

At the instant a broiled chicken, with mush-

"How dare you spend my money in that "They were a present," said the wife, inter-

Raising from his chair and rushing from the room, amid a roar of laughter from his friend, he clenched his fist and shouted, " How dare you

receive a present without my leave!"

Pleasant Neighbors.

One's pleasure, after all, is much affected by the quality of one's neighbors, even though one may not be on speaking terms with them. A pleasant, bright face at the window is surely better than a discontented, cross one; and a house that has the air of being inhabited is preferable to closed shutters and unsocial blinds, excluding every ray of sunlight and sympathy. We like to see glancing, cheerful lights through the windows of a cold night; or watch them, as evening leepens, gradually creep from the parlor to the deepens, gradually creep from the parlor to the upper stories of the houses near us. We like to watch the little children go in and out the door, to play or to go to school. We like to see a white-robed baby dancing up and down at the window in its mother's arms, or the father reading process with greater facility. The yarn is stronger. The cloth is very durable, though we are no Paul Pry; we will assert make a pleasant neighborhood to those who live for comfort instead of show. Sad, indeed, some morning on waking it is to see the blinds down and the abstract of our cheerful neighbor; and to miss the white-robed baby from the window, and see the window, and see the window, and see the promoter of the manner of the proper of the Interior of the Secretary of the Interior and others, the precise as a children of the secretary of the Interior and others, the precise as a physician and Midwife in Boston.—"If the one of Physician and Midwife in Boston.—"If upper stories of the houses near us. Weakness or Debility induced by over Fatigue.

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the Bowels be either confined or unduly acted upon, It may seem strange that Holloway's Fills should be recomended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acrid humors from the system, This medicine will give tone and vigor to the whole organic course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

Volunteers Attention! Indiscretions of Youth.

Sores and Ulcers, Blotches and Swellings, can with certainty be radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another ... Whereas this Ointment will re-move the humors from the system and leave the Patient a vigorous and healthy man. Javne's Sanative Pills. A Mild, Prompt, and Effective Remedy.

The Ere is a scarcely any disease in which purgative medicines are not more or feas required and much sickness and suffering might be prevented were they more generally used.—No person can feel well while a costive habit of body prevails; be sides, it soon generates serious and often fatal diseases, which might be avoided by timely and judicious use of proper Cathartic medicines.

Convinced of the correctness of these views, Jay ne's Sanative Pills, are recommended with the greatest confidence, experience having demonstrated them to be far superior to any other in use; being more mild, prompt, safe, and uniform in their operation. While using them no particular care is required, and patients may eat and drisk as usual. Age will not impair them, as they are so combined as to always readily dissolve in the stomach. In small doese they are alteratives, and general laxative but in large doses are actively catharic, clean sing, the whole alimentary canal from all putrid ritating, and fecal matter.

For Dyspepsia, these Pills are really an invallable actively catharic, clean sole article, gradually changing the viriated secretions of the Stomach and Liver, and producing healthy action in those important organs. In cases of long standing a cure will be more speedily effected by usuing, in conjunction with the Pills, either JAYNE'S ALTERATIVE, OR TONIC VERMIFUGE, according to directions.
