## Severe Pains In The Liver, Had Several Doctors.

A COMPLETE CURE EFFECTED BY  
A FEW VIALS OF  
**MILBURN'S LAXA-LIVER PILLS**

Mr. F. H. Wood, Crystal, Ont., writes:  
"For several years I was greatly troubled  
with severe pains in the Liver. I had  
several doctors attend me but without  
any success. At last I was advised to try  
Milburn's Laxa-Liver Pills, and after  
taking a few vials I was completely  
cured. It is, now, about six months  
since I took them, and I have had no  
return of my trouble since. I can hon-  
estly recommend them to every person  
who is troubled the same as I was."

Milburn's Laxa-Liver Pills are 25c per  
vial or 5 vials for \$1.00, at all dealers or  
will be mailed direct, on receipt of price  
by The T. Milburn Co., Limited, Toronto,  
Ont.

STRAWBERRIES GROWN IN ALBERTA BY A. G. BENNETT

### GROWING FRUIT IN ALBERTA

It is rather difficult to understand  
why the farmers of the West are so  
reluctant to take advantage of their  
opportunities for the profitable growing  
of fruit on a commercial scale. Not  
only do they ignore the commercial  
possibilities, but only a very few here  
and there are growing fruit for their  
own use. At least 98 per cent. of the  
strawberries consumed in the Edmonton  
market are imported from British  
Columbia, at a cost for carriage alone  
equal to what fruit can be grown for  
here. Further than that, the fruit  
is inferior in size and appearance to that  
produced locally, is picked green and  
reaches the consumer over-ripe and  
often out of condition.

Yet it has been amply demonstrated  
by a few individuals here and there that  
strawberries can be grown with abso-  
lute certainty and with very satisfactory  
profits, anywhere in the partially wood-  
ed mixed farming country in Central  
Alberta. I enclose herewith a photo-  
graph of strawberries sent in to market  
from the farm of A. G. Bennett, about  
forty miles west of Edmonton. The  
writer recently has seen berries of  
equally attractive appearance on the  
farm of Robt. Easton, some twelve  
miles east; at D. W. Warner's, three  
miles east; and at Mr. Chegwin's, about  
thirty miles to the southwest of this  
city. There is no reason at all why  
this fruit should not be grown com-  
mercially on an extensive scale. For  
some reason or other our farmers ap-  
pear to think they have not time to  
give to products of this sort.

Practically the same conditions ap-  
ply in regard to many other garden  
products, even the ordinary vegetables,  
which can probably be produced in  
Central Alberta, in more profusion and  
to greater advantage than in any other  
portion of the Dominion, are largely  
imported from our more industrious  
neighbors in British Columbia. This  
is one of the anomalies of western farm  
life which somebody might explain.  
The accompanying photograph of a  
cauliflower, grown in the open air here  
in Edmonton and cut July 19th, shows  
the possibilities in this direction.

Alta. F. T. FISHER.

### PRODUCING VEGETABLE SEEDS

There is profit in raising high-grade  
seed. Seed crops of sweet corn, garden  
peas, and beans of good quality are in  
ever-increasing demand, and the quan-  
tity needed yearly has become so large  
that the seedman is obliged to have  
the major portion of his stock grown  
for him by others. Within the last  
few years there has been an enormous  
increase in the quantity of seeds pro-  
duced for commercial purposes. This  
has been due in large measure to the  
development of seed growing and  
handling as a business. There are now  
nearly one thousand seed firms doing  
business in the United States. One of  
the largest of these uses buildings with  
an aggregate floor space of more than  
16 acres. This space is much larger  
than was occupied by the entire seed  
trade of the country only fifty years  
ago. The quality also has vastly im-  
proved. One of the most encouraging  
developments in the growing of garden

est repairs, highest efficiency and eco-  
nomical and dependable under every  
condition of service is the

### American Centrifugal Pump

There is not a valve or other get-out-of-order  
feature about it—just the easiest possible  
curved flow-lines without a sudden change of  
direction in passage through the pump, en-  
abling water to be raised with less power than  
with any other pump in existence. It's the  
modern way in pumping. There's 41 years of  
manufacturing experience behind it. All gold  
medals given to centrifugals at the Alaska-  
Yukon-Pacific Exposition at Se-  
attle in 1909 were awarded to  
this pump.

### Watches that

### Keep time

In buying a watch here you run no risk,  
for our watches are fully guaranteed  
by the makers; besides, we stand back of  
them with our guarantee to refund money  
if they do not prove satisfactory.

At \$10 postpaid, this is the best watch  
ever offered in the West—a 15-jewel  
"Ressor Special" movement, an accurate  
and reliable timekeeper, in a solid nickel,  
solid back, dust-proof case; the same  
movement in 20-year gold-filled case,  
\$14.00.
