

B.C. 430 HAMMER DRILL IN OPERATION

## The Profit-Earning Drill

This type of Hammer Drill is equipped with automatic rotation of the steel. This, combined with the advantages of the "Butterfly" valve, produces one of the most highly perfected tools on the market.

Do these points appeal to you?

**All-Steel Constuction**

**Convenience in use**

**Good Lubrication**

**Least Time to Change Steels  
or Start New Holes**

They are among the leading features of our Hammer Drills. May we send you our literature? Our nearest branch office will be glad to learn your drilling conditions, and to advise you accordingly.

**CANADIAN INGERSOLL-RAND COMPANY, LIMITED**

**Commercial Union Building MONTREAL, CAN.**
