United as we now without the aid of the fire apparatus. said a moment ago, it will be '78 over again.

"The recent elections in Manitoba "The recent elections in Mathematical Sir only the beginning of the end, and Sir Wilfrid Laurier and his cabinet realize it. The Conservative part there had to meet and contend against the Dominion gov-ernment led by Mr. Sifton, and the local government led by Mr. Greenway, who with the forces of those two governments and parties in a solid phalanx, and the Conservatives, led by Hon. Hugh John Macdonald and myself, had to meet them in the same way on their own ground. By uniting the supporters of the Conservative party in the Dominion, and of the local Conservative party in Manitoba, we met and overcame the two gov-ernments, which used the most desperate and unscrupulous means it is possible to

and unscruptions means it is possible to resort to, yet we secured a good Conserva-tive majority, instead of being badly de-feated, as we would have been had we giving the names of all the electors who at McGill University, Montreal, has been

feated, as we would have been had we adopted any other course. "T think the policy of the Liberal party in this, and indeed, in all the provinces, will force the Conservatives to fight local issues on party lines. There is much to be said both for and against this course, in a general way, but I don't think the Conservatives will find that they have any in a general way, but 1 don't think they have any may vote for aldermen in every ward in other mines of the camp.
