Clear, Smooth Skin Comes With  
The Use Of "FRUIT-A-TIVES".

NORAH WATSON  
M. Dayton Ave., Toronto,  
Nov. 10th, 1915.

A beautiful complexion is a handsome woman's chief glory and the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only the natural result of pure blood.

"I was troubled for a considerable time with a very unpleasant, disfiguring rash, which covered my face and for which I used applications and remedies without relief. After using "Fruit-a-tives" for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without "Fruit-a-tives".

NORAH WATSON.

Box A, box, \$ for \$0.00, trial size, \$0.00. At dealers or mail postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

### USING A MEDICINE DROPPER.

The More Planting It Is Held the Bigger the Dress Will Be.

When using a medicine dropper it is important to use it correctly, especially if measuring out drops of some powerful medicine like strichnine, morphine or arsenic, for drops vary widely in their size.

Dr. E. P. Green of London recently reported to the Lancet the results of some experiments he had made with a medicine dropper and a simple medicine. He measured the solution very carefully and then took it all up into a medicine dropper, from which he turned it drop by drop, holding the dropper at different angles and counting the drops as they fell.

With the dropper held vertically (at an angle of 90 degrees with the horizontal), its contents made 100 drops. Held at an angle of 45 degrees its contents made eighty-two drops; at 20 degrees they made sixty-eight drops; at 10 degrees they made sixty drops, and held horizontal they made only forty-eight drops.

In other words, the drops become progressively larger as the dropper is moved from the vertical position. A drop from a dropper held at an angle of 60 degrees is one-quarter larger than normal; thus, if the nurse has to give sixteen drops and holds the dropper slanting she is really giving twenty-four. And the more slanting the dropper the bigger the drops.

### Always Had Headaches

Liver Was Torpid and Bilious Spells Brought Sick Headaches  
—Lost Much Time, But is Now Completely Cured.

Here is convincing evidence that never much you may suffer from liver trouble and consequent biliousness there is cure in the use of Dr. Chace's Kidney-Liver Pill. For over twenty years Dr. Chace's Pill has been the most common cause of chronic liver ailment. For those who are specially accompanied by biliousness and vomiting, the bowel becomes irregular, constipation and sometimes alternating diarrhea is usual and you are irritable and down-hearted.

No treatment is quite so effective as the action of Dr. Chace's Pill. For this reason the medicine is wonderfully popular and has enormous sales. Dr. Chace's Pill is now sold in every drugstore and hardware store throughout the country and although it costs little, medicines and also many other patent medicines, it was without success. When I had the bad trouble I was told to take Dr. Chace's Pill and I did so. I was greatly relieved and had soon no trouble again. I was so much relieved that I continued to take them until I am now completely cured.

Dr. A. B. Scott, J.P., endorses the above statement, and says:—"This is to certify that I am personally acquainted with Charles H. Hartland and believe his statement in every way to be true and reliable. Dr. Chace's Kidney-Liver Pill and 'Be completely cured.'

#### OUR GREATEST TRAVELER.

**A CROSS**  
Like a streak  
From the west  
Gone riding  
To look  
This favored  
Country o'er  
And do  
What I may riding.  
To sleep  
At villages  
And towns  
At stable hands  
To the ring.  
The secret  
Or each place  
Found in his ear  
In stores  
And people  
Will appear  
To shake  
The brawny fingers  
And sing  
Great shouts for him  
The while  
The jingoes lingers  
Before  
The train arrives  
They'll hang  
Around the station  
Under tables  
Out in sea  
The ruler of the nation  
Day.  
It is  
For the last  
A busy year  
Vacation!

#### ENTHUSIASM WALES.

When the first baby comes it is a great sight to see papa taking off cigar as though he were the tobacco trust. Everybody must smoke on the only baby in the universe. Oh, it is business!

When the next household treasure arrives a few of his intimate friends who know all about it get one "on the quiet" just to keep them still.

After that they buy their own cigar. Papa is too busy bringing home more and more and the other members of the house take their turn.

By the time kind fortune has presented him with the tenth it is only his lack of nerve that prevents him from taking up a collection.

#### GIRLS! LEMON JUICE

#### IS A SKIN WHITENER.

How to make an ornamental beauty lotion for a few cents.

The juice of two fresh lemons strained through a cloth containing three ounces of orchard white makes a whole quartful of the most remarkable lemon skin beautifier. At about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is good for the skin, removes such blemishes as freckles, brown spots and tan and gives the ideal skin color, whitens and beautifies.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quartier pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

#### FALLS ONLY TO RISE.

An Experiment With a Sort of Perpetual Motion Effect.

A novel experiment in the demonstration of perpetual motion is to be performed simply. A giant beaker about six inches high and four inches in diameter is filled with water to the height of about four and a half inches, and two and one-half to three ounces of commercial aniline are added, which will sink to the bottom of the vessel.

The temperature of the beaker and its contents is now raised to 170 or 175 degrees F. by means of a burner, when it will be observed that the aniline will rise to the surface of the water, from which it will hang in a mass of curved outline. Almost immediately the suspended aniline commences to alter in shape, and gradually a large drop an inch or more in diameter detaches itself from the mass and falls through the water.

And now, the detached drop having fallen to the bottom of the beaker, comes the surprising part of the experiment. The fallen drop is seen gradually to rise to the surface, where it joins the mass from which it previously broke away. At once another drop commences to form and, having been detached, falls and rings in the same manner as the previous drop.

So long as the temperature of the water is maintained at 170 degrees or over this procedure continues.

The Chinese "Five Kings."

"The Five Kings" is the name of the sacred book in which is incorporated the religion of the Chinese as well as a great number of other peoples of the orient. The doctrine is a complex system of moral, social, political and religious teaching built up by Confucius on the ancient Chinese traditions, and, although its author lived more than five centuries before the birth of Christ, it is still perpetuated as the state religion of the Chinese down to the present day. Confucianism is a religion without positive revelation, with a minimum of dogmatic teaching, whose popular worship is centered in offerings to the dead, in which the notion of duty is extended beyond the sphere of morals proper so as to embrace almost every detail of daily life.

### YES! MAGICALLY! CORMS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of frezene." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

One drop of this liquid, when applied directly upon a tender, soiled corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that while frezene is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

Don't let a faraway day of infection or removal from whittling at his corns, not clip this out and make him try it.

Girls think that washing dishes requires a great deal more exertion than going to a matinee.

Knowing when to quit is a sort of sixth sense comparable only to knowing when not to begin.

It is easy to see that each person wants the best of it, but ethically what's not to begin?

**Waste Energy.**  
This running talk at every chance  
When you are trying to save  
Gathers up the hand signals  
That's carried in your name  
Or purchase for the tiny tots  
A pair of pretty shoes  
And any way you think it  
You always find you lose.

When high old time are being raised  
And you are at the front  
Playing cards, or playing poker  
Who does the high priced priest  
Seem to be progressing down  
A mile a minute track  
But when you come to earth you find  
That it has set you back.

There's nothing in it, little boy,  
This tearing up the night  
And when you come to try it out  
You're not the same as you were  
While you are running miles around  
The time may slip away  
But you will view it different as  
The cold, gray days have cast.

The modest, plain and simple life

Will better stand the strain  
Provided that it is not made  
Too simple and too plain  
And when you are playing poker,  
All times remember this book  
That course will have you looking much  
Less like a railroad wreck.
