## THE SPORTS.

### The Annual Sports of the U. A. Club Yesterday.

The annual sports of the University Athletic club, which had to be postponed on Friday on account of the disagreeable weather, came off yesterday afternoon. The attendance was very large, even larger perhaps than on any previous occasion. Several visitors from different parts of the Province, who had come solely for the purpose of seeing the sports, were present. The Fredericton Brass Band, clad in their new uniforms, were in attendance and discoursed sweet music, though not an overabundance of it. Raised seats were provided for the ladies, most of whom, until this year, were compelled to stand throughout the entire afternoon. The President of the Society, Mr. Quigley, and the committee, are to be congratulated upon the highly successful manner in which everything was carried out, among the contestants Mr. Teed bore off the palm. In nearly every contest which he entered he was successful. He is one of the best general athletes who has ever attended the University. Mr. Brewer of the Freshman class, also did remarkably well. He was admired no less for his athletic form than for his fine performance. The students of his class, as well as the sporting men in the city, look to him as the coming man. The different races were particularly interesting. The half-mile and mile were very closely contested, the time made in the latter being the best ever made on the grounds. The Bar Performance and the tumbling were also very interesting. In both, Messrs. Hall and Cushing showed a "quickness of parts" at which even the learned Professor of the University was astonished. The High Jump was very warmly contested. The Silver cup awarded for it was very nearly becoming the property of Mr. Broderick, who had won it two years in succession, but Mr. Teed out-jumped him and will hold it for the ensuing year. The Fowler Silver Cup and the Hunter Medal were won respectively by Mr. Teed and Mr. Wright. Appended is a list of the prize winners and prizes.

### Tag of War.—Eight men on each side

captained by Bridges and Ganong. Bridges' side won easily. Prize, Oyster Supper.

The Belt presented by the class of '80 for the best general athlete was won by Mr. Teed. The Silver Cup presented by Mr. & Mrs. E. H. Wilnot for the best athlete in the Senior Class was also won by Mr. Teed.

Mr. McGarrigle was the winner of the Wilnot Cup which was awarded to the best athlete in the Junior Class.

A Gold Badge presented by Mr. Guard of St. John for the best general athlete in the Senior Class was won by Mr. Brewer.

At the close of the contests the President of the Club, Mr. Quigley made a few remarks in which he thanked the visitors for their attendance and the people of Fredericton for the interest they had always manifested in the sports. He also extended the thanks of the Club to the judges, and other officials, and to Mr. and Mrs. Wilnot, attributing to them not a little of the success which had attended the sports of the present, as well as those of the two or three preceding years. The prizes were then very gracefully presented by Mrs. H. S. Bridges to the successful competitors, after which Mr. J. D. Hazen, Registrar of the University in a short speech, presented Mr. Teed the silver cup which had been so generously given to the society by Mr. James D. Fowler.

Mr. Hazen spoke of the origin of the Athletic Club, and contrasted the sports of yesterday with those of his student days. The cup, which the class, of which he was a member, had presented to the club, had this year become the property of Mr. Bridges as the latter had won it for three successive years. Though the members of the class were scattered far and wide, he would communicate with them, and see if they did not still have sufficient interest in the sports to contribute another prize to the club. The speech was fluently, eloquently, and charmingly delivered, but the speaker in his enthusiasm almost lost sight of the cup and its winner, which Mark Anthony he didn't mean to do. At the close of Mr. Hazen's remarks the gathering dispersed having evidently spent a most enjoyable afternoon.

**The Fastest Pacer in America.**  
A correspondent writing from Goshen, New York says: "Wm. Sargent, one of the first trainers and drivers of St. Julien, has in his charge a pacing wonder. He is a bay gelding named Mac, raised by Joseph Smith of Sugar Loaf, in this country, and sired by Florida, dam an Abdallah-Clay mare. He is thought to be the fastest pacer in the country. He will beat eight years old in June next, stands 15 hands 8 inches high, has flowing mane and tail, and is well proportioned. At a trial last week he is said to have paced over the track here, a quarter in 32 1/2 seconds. This is a half-mile track and 32 1/2 seconds here is equivalent to 30 or better over a mile track. 'Billy' Sargent is satisfied that he can pace over a better track in 30 seconds, and he believes he can beat any pacer in America. It is his intention to enter him in the grand circuit."

**Howorth's Comedy Company.**  
Of this company which is billed for this city next week the *Telegraph* says: "Three comedies were given by Howorth's Comedy Company, on Friday and Saturday, to large audiences, the matinee on the holiday attracting a crowded house. The views of Irish scenery were the largest and best ever exhibited in St. John, and that is saying a good deal where there have been so many exhibitions of this nature. The specialists, particularly the vocalists, were roundly applauded and if double and triple encores mean anything then the different members of the company afforded satisfaction. The comedy, at each performance, was a pleasing feature of the bill."

**Accidentally Killed.**  
A man named John McKay was accidentally killed last week on the road to Stanley. It appears that about a dozen men all more or less under the influence of liquor, were driving out the road. Several of the crowd were carrying on, when McKay and a man named Fraser engaged in a friendly scuffle with the result that McKay was thrown out of the wagon. The wheels passed over McKay, and he was picked up unconscious. He was carried to a neighboring house where he died. The deceased leaves a wife and several small children whose sole support he was.

**The Past Week's Failures in the United States and Canada.**  
The business failures of the last seven days throughout the country as reported by telegraph to R. G. Dun & Co., of the Mercantile Agency, number for the United States 212, and for Canada 20, or a total of 232, as compared with a total of 209 last week, an increase of 23 failures. The increase is pretty evenly distributed among the Middle, Western and Pacific States, but there is a considerable decrease to note in Canada and in New York city.

**The Elm Trees at the Lower End of Town.**  
A correspondent writes: "The handsome elm trees in the lower part of the city, alluded to in a late issue of the *Gleaner*, were set out about fifty years ago, by Hon. George Shore, Clerk of the Peace and Adjutant General of Militia. The sidewalk there, forming a pleasant promenade, is now being cut up and injured by the driving of teams and carriages upon it contrary to law. Where is the Road Master?"

**Sudden Death.**  
Mr. John O'Toole of the firm of O'Toole & McCafferty died very suddenly on Thursday last at half-past two in the afternoon. His sudden death was a great surprise to his many friends who had seen him about the streets in apparent good health only a few days before.

**Tees Jammed.**  
Mr. Josiah Coombes had two of his toes of his left foot jammed this afternoon about three o'clock, while working at a schooner at one of the wharves. A large piece of timber fell upon them. The accident, though not slight will prevent him from working for a few days.

**Bills to Come.**  
On the 4th prox. an interesting event will take place at St. Stephen in which one of our leading jewellers will take a prominent part.

## THE SALVATION ARMY.

### The Arrival in this City of the Advance Agent and First Pioneer.

The advance agent and first pioneer of the Salvation Army made his appearance in Fredericton on Saturday last, and commenced operations at Davis, Staples and Co's corner, but the Sergeant of Police greatly moved his cart and paraphernalia over into the square. Just what rank this disciple holds the reporter could not learn, but from the number of nickle ornaments and badges he wears, one would be safe in giving him the title of "grand panjandrum" at least. His uniform consisted of a pair of pantaloons with a red stripe running up the outer seams, dark coat with a shield on the left breast bearing the words "Salvation Army," and a star on the left breast with the letters "2nd Corps, Can. Div. London, Ont."

On each side of the collar of the coat was a letter "S" in metallic work. A "tough" cap with a very long peak, a red flannel band around the base and the letters "S. A." on the front completed the "make up" of the salvationist. His two-wheeled cart (something after the style of a bread cart, only smaller), had floating from the topmast, a blood-red flag with the legend "Blood and Fire" in large letters inscribed thereon.

He announced that he held in his hand a pamphlet entitled "An Angel in a Saloon" and that parties who desired a copy could have one and give him as much as they pleased for it. Worthington Butler was the first purchaser, for the sum of half a dime, and the coin was safely deposited by the Salvationist in a little tin can he had secured on the top of the cart for that purpose. Purchasers being scarce, he further announced that the verses entitled "Oh! will you be there?" in the back of the pamphlet were worth the money he asked for the book. Some of the boys pricked up their ears at the "oh! will you be there?" thinking the "there" referred to the Saloon and invested, but on the whole it was rather a cold day for the angel in the saloon business, for the salvationist soon pulled down the topmast of the cart, folded his hand and fire flag like the Arabs and as silently stole down town towards the stone barracks. We expect every minute to hear of a new pamphlet entitled "A Salvationist in the Canton."

Before leaving Phoenix Square, he announced that he would lecture that evening from the City Hall steps: Subject—"The Golden Cow's Baby."

We would respectfully call the attention of the Collector of miscellaneous licenses to this gent. If he has not realized enough out of the angel business to pay a license fee, let the police magistrate give him time enough and sufficient experience to compose a pamphlet on "A Bum in the lock-up."

**MARYSVILLE.**  
A correspondent, "Zephyr," interviews a lumberman—some interesting notes about the floor in the cotton factory will be all laid this week. The saw mills are running on full time, but cannot cut their usual amount on account of high water.

Mr. Gibson's drive came down on Saturday last. It was got down in the surprisingly short time of 23 days from the start with from 80 to 100 men of a crew under the experienced management of Mr. Elias White. The amount got out last winter was about 15,000,000, 12,000,000 on the main Nashwaak and the remainder on the Nappadoggin and other tributaries.

In conversation with an experienced woodsman, who has spent some fifteen winters in the Nashwaak woods, I learned some very interesting items in regard to the lumbering business.

How many feet of lumber have been cut on the Nashwaak yearly since Mr. Gibson commenced operations? The amount cut annually would average 300,000,000 or 400,000,000 for the last 20 years.

How long do you think the supply on the Nashwaak will hold out? I consider there will be sufficient for a cut of 20,000,000 annually for the next 50 years if the fire does not touch it.

What do you think of the decay of the spruce, do you think it is caused by a worm as some seem to think? I do not think it is done by a worm. The idea seems to me to be sheer folly.

My theory of the matter is, that the trees having extracted all the nutriment from the earth during the period of their life die simply from old age and lack of aliment. The trees are only affected in old and thick growth. Localities that have been gone over are still healthy and vigorous. The young trees die also because the older ones have left them nothing. It is different in hardwood forests as the annual fall of the leaf renews the growth of the soil.

Are there many of the trees affected, and how long do they remain sound after death? I should say fully fifty per cent. Some remain sound for years while others take what we call the "sap rot" and quickly decay. The bulk of the logs cut last winter were dead but good and sound.

What are the symptoms of death among the trees? It commences at the root, although it first shows at the top. A whole tract of lumberjacks and apparently vigorous through the winter, will, by the spring, look as if it had been scorched by fire; the result of the tree not being able to throw up the sap for the season's growth.

There are doubtless many interesting reminiscences connected with life in the lumbering regions, with which you are familiar, that would be very good material for a book if compiled.

I could with my own recollections and some information from old timers, trace the lumbering business from its earliest stages to the present time on the St. John and its tributaries, and make a large and readable volume that would readily take, and would do so if I had the time to spare from my business.

With an assurance that he would be a suitable man to do it, I bade him good afternoon and started for home.

**Contract Awarded.**  
Mr. Joshua Limerick is the successful tenderer for the building of the new school house on Charlotte Street. The contract has not as yet been signed.

**Great Floods in Texas.**  
(Special to *Gleaner*).  
GALVESTON, TEX., May 27.—The Galveston *News* says reports from all over the State reveal that washouts have occurred on all lines of Texas railroads. The eastern approach to Beaumont narrow gauge railroad bridge across the San Jacinto river was carried away, and the whole country thereabouts is under water. People are fleeing to the highlands. Large numbers of cattle were drowned, and stock of all kinds has suffered.

**An Explosion.**

(Special to *Gleaner*).  
SHANGHAI, May 20.—The Empress of China has ordered the Viceroy of Yunnan to start public companies to open mines in Yunnan to procure gold, silver and copper ores.

**Discouraging Accounts of the Situation in the Red River Valley.**  
(Special to *Gleaner*).  
NEW ORLEANS, May 20.—A despatch from Baton Rouge to the *Picayune* says: Discouraging accounts of the situation in the Red River Valley have been received. According to late advices the country lying below the Caddo and Bossier hills, for nearly 100 miles down from a point five miles below Shreveport, is under water to the average depth of four feet. Five places belonging to Senator Robson and two hundred belonging to other planters are overflooded. The cotton product of the submerged area is estimated at 75,000 bales.

**SPIRIT OF THE PRESS.**  
**Party to do in Canada.**  
We are informed that Mr. McDoagall-Newton, of the "Echo of Niagara," has asked the permission of the Minister of Militia to raise a Canadian regiment for service in Egypt. Our opinions of Canadian young men would fall considerably if more than a dozen of them could be found to take part in any such foolish project.—*Globe*.

**Death to High Tariff.**  
Workmen once thought machinery meant lower wages, yet to day they see that every step in this direction has increased their wages. They once thought high tariff meant high wages; they began to see that such a promise is a delusion and a snare. Let them proclaim death to the high tariff if they want high wages.—*Louisville Courier-Journal*.

**Western States Prospects.**  
Go West, young man. If you want a short life and an exciting one—if you want to be driven from civilization, forced to herd with the offscourings of mankind, and shot down at last like a dog or hanged at a moment's notice, just when you ought to be enjoying life at its brightest—go west and be a cowboy.—*Philadelphia Record*.

**Retaliations.**  
There can be little doubt but the accusation of forgery brought against Mr. McKim, a principal witness in the notorious bribery case, was a retaliatory measure inspired by those he had testified against.—*Bystander*.

**Charmers of Politics.**  
Evidently the life of the politician is trying; he is now called upon to worry and be worried not only the floor of Parliament but on a hundred platforms, and one after another of the class breaks down. Yet not one of them, once enlisted, is afterwards ever weaned from the pursuits of generous ambition; they all die with their teeth in the pants.—*Bystander*.

**Repeating Mr. Tennant's Liquor.**  
Yesterday Sheriff Sterling seized and carried away the liquor recently seized by the Chief Inspector from Mr. James Tennant. The Sheriff acted under a writ of replevin issued at the suit of Tennant, that gentleman's counsel believing that after the decision of the Police Magistrate in the case, the Inspector had no right to retain the liquor.

## The Twenty Fourth—A Dull Holiday For Frederictonians.

Last Saturday was one of the dullest public holidays seen in Fredericton for a long time. Some of the stores, principally dry-goods were closed, but the majority of the business places were open for business. About one hundred excursionists left the city by the morning train to spend the holiday in other places. The noon train brought probably fifty St. John people and the boat between seventy-five and one hundred more into the city. In the morning a game of foot-ball was indulged in by the Infantry School presented by the Post Office Square, which attracted a few spectators. In the afternoon two base-ball nines had a friendly game in the driving park. Although the roads were not in very good conditions on account of the late rains, considerable driving was noticeable, the drivers being chiefly visitors. The majority of the citizens who pretended to keep the holiday at all, contented themselves with promenading the streets or taking a walk into the cemetery. Altogether the day was decidedly dull. The weather looked threatening in the morning, but the clouds cleared away about noon, and the balance of the day was fine with one or two passing showers in the evening.

**A Shooting Affray in Albert.**  
Reports from Demisselle Creek are to the effect that a serious affray took place in that vicinity on Monday evening and several persons were badly injured. The facts of the case are hard to get at as there are conflicting reports in circulation. As nearly as can be learned a young man named Charles Arineau married a daughter of widow Steeves on the Creek on Thursday last. This was not known to Mrs. Steeves until she was informed of it by Arineau. She refused to believe it and prevented him from taking her daughter away. One report says, Monday night Arineau and some others went to the home of Mrs. Steeves and took the young woman away by force. Her mother raised a body of neighbors to the number of about 30 and went to the house occupied by Arineau on the Chemical Road for the purpose of taking the girl. The Arineaus consisting of two brothers and their father refused to open the doors. A young man named Edgar Woodworth was in the house with the Arineaus. Among the attacking party were Robert White, Botsford Beaumont, George Cochran, Robt. Milburn, Abner Aspinson and a number of others. A general fight ensued in the course of which Robert White was shot in the side by Charles Arineau and a number on each side received blows and cuts in the face and head. Dr. Murray of this place dressed the wounds of Thos. Arineau on Thursday morning, they consisted of a deep cut on the top of the head and a cut on the forehead. The matter has engendered bad blood in the neighborhood and it is feared that further trouble may grow out of it.—*Maple Leaf*.

**Five Drinks before the Commandant.**  
A Sergeant, a corporal, a bugler and two privates were marched down to Lieut. Col. Maunsell's quarters on Monday morning. The Sergeant was drunk on church parade Sunday morning—the corporal had also been drunk, the bugler and one of the privates were drunk and fighting in the barracks, and the other private was slightly paralyzed. All these misfortunes were of course the results of the twenty-fourth celebration. The gallant Commandant must have been easy on the delinquents, as they were all seen performing their different duties during the day.

**Personal.**  
Rev. W. B. Armstrong of Point du Chene, Shediac, is to take charge of the Episcopal Church at Grand Falls, shortly.

Capt. Cookley, retired army officer and a veteran sportsman, is again in the City.

Mr. John Richards and Miss Richards left for New York last week.

Hon. A. F. Randolph is expected home about the first week in June next.

His Lordship the Metropolitan spent last Sunday in Sussex.

Mr. Edward B. Staples, of this city, received the college diploma at the St. John Business College, last week; after passing successfully the usual examination.

Mr. and Mrs. George Fraser, of Chatham, are on a visit here, at the University.

Mr. Z. R. Everett is expected to arrive at Halifax to-night in the steamer "Nova Scotia." He will probably be in Fredericton on Thursday.

Mr. James Adam, of St. John, was in town last week.

**The Brigade Camp.**  
The brigade camp will be held this year in Shediac, on the 26th June, under Lieut-Col. Maunsell. Battalions that will be in attendance will be the 73rd, 5 companies, under Major McCully, and 14th battalion, 6 companies, under Lieut-Col. Beer. The 8th Regiment of Princess Louise Hussars, three companies, under Lieut-Col. Domville will supplement the force. It is possible that there will be some further addition to the force in camp, but nothing further is certain at present.

**Ribs Broken.**  
Mr. Jesse Waters met with rather a serious accident on Sunday last. He had been drawing the anchor of his wharves, which was lying a few miles below Fredericton, previous to bringing her to city, when he in some way lost hold of the handle of the capstan, which struck him heavily on the side breaking two of his ribs. He suffered great pain until he arrived here yesterday, when Dr. Courthard was sent for and attended to his injuries.

**The Press.**  
We have received the first number of the *Daily Sun* of Ottawa, edited and published by Mr. Carroll Ryan. Mr. Ryan is justly recognized as one of Canada's cleverest writers and will, no doubt, make the *Sun*, which is independent in politics, a journal of a high standard.

**The Victoria Star** of Grand Falls came to hand last week. It is edited by Mr. John G. Lorimer, and is independent in politics. The first number contains a good assortment of local news. We gladly welcome the *Star* amongst our exchanges.

## Accident.

A man named Haining had one of his hands badly jammed this morning, by a heavy stone falling upon it. He had been hauling stone from a wharves at the Union Line Wharf to the new Kirk.

**Nearly Run Over.**  
Two or three ladies, who were going to the Post Office together last evening, were very nearly run over by some careless man who was driving a white horse and buggy. Some persons, who were near at the time, were very much annoyed at the man's carelessness, and more so at the indifference he displayed when spoken to about it.

**Obituary.**  
Mr. Harry Rowen, son of Mr. Henry Rowen, died on Sunday evening, of consumption. He had been ill for some little time but his death was not expected so soon.

**A New Novel.**  
The Hon. L. S. Huntington late Postmaster General of Canada has in press a novel, the title of which is "Prof. Conant." The Rose Publishing Company, Toronto, are the publishers.

A dispatch of the 22nd instant from Bathurst says:—All the mill hands at R. A. & J. Stewart's mill struck this morning for higher wages. It is said the men will remain firm. In some mills here the men are only paid every fortnight, while the bar-baron ticket and cash due bill system are in full blast in all. Public sympathy is largely with the strikers.

Some maliciously disposed person or persons entered a barn owned by Robert Harold of Grand Falls, and shaved the mare and tail off his mare, cut his harness in pieces, and the dashboard of his driving wagon. Two of the wheels of the wagon were also removed and cannot be found. This is the second time that Harold has been treated in this manner.
