PERTINENT COMMENT ON SPORTING TOPICS

The real football weather has only just arrived the past day or so and the season is all over.

If U. N. B. is to send a Varsity basketball team out this season, its development should be undertaken seriously so as to insure a creditable organization to sustain the prestige of the institution.

Friends of Dodd Dwyer, the Pictou horseman, who was so badly injured in an automobile accident a few days ago, will be glad to learn that he is improving and that his injuries are not so serious as at first feared, although extremely painful. The chief injuries are to the head and the most severe is a broken cheek bone.

The promoters of California have until early next month to stage bouts, as the new law against the sport, which was voted into effect last week, will not become active until about that time. Promoter Coffey arranged some time ago to stage bouts at Tia Juana and Juarez, Mexico.

Statistics of the Grand Circuit show what a splendid record was made by the Halifax pacer Frank Patch, 2,064, this season. Jimmy Power points out in the Halifax Recorder, 125 different pacers took the word on the circuit, and only 35 were money winners. Frank Patch stands 14th on the list.

AD WOLGAST SAYS HE WON'T RETIRE

Former Champion Has Been Pretty Well Battered Up in the Ring.

Ad Wolgast says that he has no intention of retiring from the ring on account of his broken arm. The 10-round, no-decision bouts are so easy, he says, that he is going to stick as long as he is able.

Ever since he won the championship from Battling Nelson he says there has been a jinx on him. Wolgast is the most unlucky boxer that has ever been in the game. Since he won the title each of his arms has been fractured twice, three ribs have been caved in, each hand has been broken once, his left thumb once, and so badly that an extensive operation was necessary. Rittche broke his nose in their first battle. He was operated on for appendicitis on the eve of the former Welsh match, and after that he suffered an attack of pneumonia. He still thinks he has a chance of winning back the title, however.

England to Pass Up 1915 Meeting. Promoters in England are going to make the boxers who appear in foot-uro bouts work on a percentage basis until after the war.

Because so many of the amateur boxers in Great Britain have gone to the front there will be no amateur boxing championships in England in 1915.

Arthur Pecky, the Chicopee heavyweight, was easy for Handsome Rice in a 20-round bout in London, Eng., the other night. Jack Curley has sailed for England to meet Jack Johnson, to sign the latter for a bout with Jess Willard for the world's championship. Curley has offers for the bout from South America, Mexico and Cuba. Johnson will get his own terms if he wins.

Ball Player Killed. Sacramento, Calif., Nov. 10.—Henry Reitz, at one time a member of the famous Baltimore Orioles infield, was killed here last night by an automobile.

Will Support Organized Ball. Omaha, Neb., Nov. 10.—B. B. Johnson, president of the American League, left for home tonight after the National Association Professional Baseball League, now in session here, had given assurance that it would continue to give hearty support to organized baseball.

San Francisco has been agreed upon for next year's convention. Los Angeles, Cal., Nov. 10.—Sam Langford, of Boston, was given the decision over Tom McMahon, of Newcastle (Pa.), in their fight at Vernon tonight, after a constable stopped the fight in the sixth round. It was announced as a twenty-round match.

HOOF PRINTS. Bolivar, 2,004, has at last been retired from the turf. In his 18 years he has started in more than 60 races, winning 25. His record was made at Redville in that famous flying start heat which featured one of the 1906 meetings.

Lon McDonald will winter in California. His stable is now at Phoenix Ariz., and will remain there until after the holidays in charge of Ed Avery. It includes Star Winter, 2,05; Baron Todd, 2,134; Ames Abingdon, 2,094; Hallmark, 2,114; Laramie Lad, 2,094; McCloskey, 2,094; Abell M., 2,094; Duchess, 2,084; Squantum, 2,094; Margot Hal, 2,044; Hedge-wood Patchen, trial, 2,074; a 4-year-old trotter by Cochato; Rastus, 2,064, and Miss Harris M., a 2-year-old by Peter the Great, 2,074.

Harvard's New Star Kicker Who Humbled Tigers

MAHAN KICKING FIELD GOAL

Herein is shown one of the important plays in the big game of football between the Crimson of Harvard and the Orange and Black of Princeton, when the Tigers were overwhelmed by the score of 20 to 0. It shows Mahan, of Harvard, kicking a field goal. Mahan is a worthy successor of Brickley as Harvard's star punter.

Sees Bright Prospects for Racing in Maine Next Year

Interesting Review of the Past Season's Performance in the Pine Tree State—Indications Point to Another Successful Year in 1915.

Horse racing in Maine did not attract as much outside attention this year as last, when the famous Hanks meetings at Augusta, Bangor and Lewiston loomed large on the sporting map.

But the following, from a Bangor man tells that there was still considerable doing in the Pine Tree State.

Since June 6, when the fun started at Bangor, the last heat of the Topham Fair in the second week of October, there was going on from Van Buren to the New Hampshire line and to Calais and back. The dust was stirred on forty odd half mile tracks. About 200 races were seen, approximately 1200 horses started, and more than 1100 heats were decided.

Purses aggregating about \$60,000 have been divided. It was in point of aggregate attendance the biggest year Maine ever knew. More than half of the agricultural fair associations report that they took in more money this year than ever before.

There were more races outside of the fair than ever before, and while last year some fair managers were obliged to offer subsidies to get enough entries to fill the chaises, this year many of the "pumpkin circuit" races have had from seven to nine starters in every field.

Short Ship Circuit Success.

The feature of the season in Maine was the first Aroostook Short Ship Circuit, which bids fair to be a permanent institution and may be the nucleus of a winter circuit. These races started before the fall fairs were on and included two days each in successive weeks at Caribou, Houlton, Fort Fairfield and Presque Isle, while two more days on the reopened track at Van Buren took in about the same thing.

These races offered some of the best sport ever seen in Maine as to close contests. Of the 29 heats in the six races at Caribou but two were slower than 2:20, while 2:14 showed in one race. At Houlton, with 21 heats, but three were above 2:20. Presque Isle showed equally as well, while Fort Fairfield was a day slower. On the rebuilt old Van Buren course three heats were hung up in 2:15.

To the racing plants of Maine this year was added a fine equipment at Caribou, an excellent track, grandstand and all the appointments. The track was opened July 24, followed by the Short Ship races and the first annual fair. The track mark stands at 2:14, made by the gray gelding James K. Newbro, of T. Raymond's, Fredericton, N. B., stable.

New Maine Record Hung Up.

Fourth of July Races were also run off on the Calais, Blue Hill, Bangor, Houlton, Caribou and other tracks. The Short Ship circuit opened in Aroostook a week later and the round of country fairs started off at Belfast Aug. 18, after Col. G. W. Morrill had put on some good events at Pittsfield and Waterville. They stepped in 2:17 at Belfast, while Northern Spy clipped the Houlton track mark to 2:13.

The Bangor Fair hit bad weather and there was a day slower in races, with 2:14 the best time.

At Waterville the Central Maine Fair, one of the best races of the year as to time, was pulled off when Homeland and Wedgerite, between them, put up a five-heat race in 2:13½, 2:15, 2:13½, 2:16½.

At the Northern Maine Fair at Presque Isle, Northern Spy made the turn in 2:13 flat. Lewiston hit bad weather for the Maine State fair and had to cut down one day. Nothing faster than 2:15 was made.

At Lewiston a new Maine record for 2-year-old pacers was made by the

fully Seddie Mann, by Northern Mann, showing a mile in 2:15.

Good Outlook for 1915.

There was a race meet as usual on the Tunny Little third-of-a-mile track at Orrington, and Cornish was the first track to start the fun in the western part of the state. Tier came Little Rigby at Casco, the Blue Hill Fair, the Calais Fair, when a new track record of 2:14½ was made by James K. Newbro; the Springfield Fair, the Monro Fair, the Princeton Fair, the Skowhegan Fair and the Cherryfield Fair.

At the Gorham Fair the "big" day saw 25,000 persons on the grounds and the track record clipped to 2:13½ by Homeland. On that day tea heats were run off.

At Norway what is claimed to be the best race of the year in Maine was held, when Mary Chontrell and Homestead put in five heats at 2:13½, 2:13½, 2:13½, 2:15½, 2:16½.

Then came Machias, Canton, Union, Cumberland, Foxcroft, Phillips, Farmington, Unity, Hartland, Exeter, Fryburg, Norway and Danvers, all winding up with the all Maine congress of drivers and horses at Topsham. All sections of Maine, besides New Hampshire and Massachusetts, were represented among the starters.

The outlook for 1915 promises well. Prosperity has smiled on the great Aroostook region, which means that there will be fast horses kept and trained and there's every reason to believe that down state will be the same.
